

AN ANSON YOUNG MAN, calling the other evening on a Hamlin girl friend, is reported to have been met at the door after he rang the doorbell by the girl's father.

"Is Geraldine at home?" the young fellow asked the dad.

"She's 'round at the rear," replied the man.

"Yes, I know," said the Anson lad, "but is she home?"

R. H. McCURDY, long time resident of West Texas who has been connected with the cotton business most of his life, is a go-getter and belies his admitted age of three score and ten years.

His erstwhile position is manager of the Western Compress & Storage Company at Hamlin, and his employers say he is a wheel-horse for work.

Moreover, his wife declares he is a wheel-horse or something to that effect. McCurdy declares that his wife recently told him that she knew very well what he would say when his final summons comes. She said he should grab his hat and start for the door with these words:

"Wait a minute, Lord; I've got to run out to the compress!"

A FELLOW reminded us the other day that, in case we didn't know it, we are now observing Lessons in Truth Week. He said special classes are being held for golfers, fishermen and politicians.

LEISURE is a wonderful thing, but so many of us use it to advantage. We have enough life and miss the things too much of the time.

M. Davies writes these lines in support of using our leisure to love ourselves and others:

It is this life if, full of care,  
I have no time to stand and stare.  
No time to stand beneath the boughs  
And stare as long as sheep or cows.  
No time to see, when woods we pass,  
Where squirrels hide their nuts in grass.  
No time to see, in broad daylight,  
Streams full of stars, like stars at night.  
No time to turn at Beauty's glance  
And watch her feet, how they can dance.  
No time to wait till her mouth can  
Enrich that smile her eyes began.  
A poor life this if, full of care,  
We have no time to stand and stare!

WE PICKED UP these definitions the other day from a civic club magazine:

A Smile: A curve that can set a lot of things straight.

Artist's Model: A girl who barely makes a living.

Hobby: Something you get goofy about to keep from going nuts about things in general.

Egotist: A conceited fool who thinks he knows as much as you do.

## Save on Your Reading Bill . . .

For the first time in several years The Hamlin Herald is making reductions on mail subscription combinations with the daily papers of the territory and with magazines.

You can save money on next year's reading by letting The Herald handle your daily newspaper and magazine subscriptions.

**GOVERNOR KEEPS PROMISE**—Governor Price Daniel is welcomed to the pulpit of the First Covenant Church in Dallas by the pastor, Dr. J. A. Lovell, thus fulfilling a promise made some 30 years ago. When they were high school chums in Fort Worth, Daniel vowed he would some day be governor, and Lovell said he wanted to be a preacher, and would like the governor to speak at his church. Daniel promised he would if their dreams were realized. The governor of Texas delivered the morning message to the congregation of Dr. Lovell's church.

## Rains Keep Cotton Pickers from Fields

Cotton pulling in the Hamlin territory has taken a terrible setback in recent days because of the rains and muddy fields, and farmers are becoming concerned about the quality and quantity of their harvest.

On top of the rains that the first of last week totaled from two to four inches in the region, and kept cotton pickers out of the fields most of last week, more rains came Sunday and Monday of this week to further stifle the harvesting. Drizzles Tuesday and

until press time Wednesday at noon still were keeping pickers out of the fields.

Rains first of this week averaged about an inch in the Hamlin territory, which brought the year's total to nearly 24 inches, which is two inches more than the average annual rainfall for this area.

Cotton quality had begun to improve, say ginners, from the first that was brought in, which had been graded down by classes because of bad spots. The down-grading had caused penalties of from one to three cents per pound because of the grading.

Although prospects are for a bumper crop in the territory, the supply of labor continued to hold up fairly well. Some farmers, however, plan to use mechanical pickers late in the season after frost or chemicals cause the leaves to fall from the stalks.

## Revival Services at Church of Nazarene Run Through Sunday

Revival services at the Church of the Nazarene will continue through Sunday, reminds Rev. Bill Hanna, pastor. Good crowds have been attending the services which began last week.

Rev. Milton Poole of Lubbock is guest evangelist. Special activities this week included Sunday School Night on Tuesday and Church Members Night on Wednesday. Friday night has been designated Homecoming Night, and services will begin at 6:30 to allow persons time for the service to attend the high school activities. Saturday night has been set aside as Youth Night.

Sunda plans include a high attendance in Sunday School. The public is invited to attend these services, says the pastor.

## Mumps Reported in Hamlin Community

In addition to scores of cases of the flu of several types that have been making the community in recent weeks, now come reports of the mumps in the Hamlin territory.

Several cases of the "big jaw" were reported over the week-end, according to doctors and others. The flu epidemic seems to be somewhat alleviated from its wide incidence of two or three weeks ago.

## Superintendent of Schools C. F. Cook Gives Welcome to Homecoming Exes

Hamlin Schools are cooperating in every way with the Hamlin High School Ex-Students Association to help make the third annual homecoming a success, declares Superintendent of Schools C. F. Cook, who says things are in readiness to entertain hundreds of exes as they come "back home" to the schools.

Cook declares that all facilities of the school will be open for visit and inspection by the scores of former students who may want to go back to their former classrooms or to visit the new school buildings that have replaced older units that were in use when many were in class in Hamlin.

Superintendent Cook makes the following statement:

It is again my sincere pleasure to say "Welcome" to all the ex-students and faculty of Hamlin High School. The entire faculty of the school joins me in this welcome.

It has been a thrill for the past two years to see the homecoming of all exes. It makes us feel

humble to see all of you return to Hamlin and take part in this event. We want you to feel at home, and if there is anything we can do to make your visit more pleasant please call on us.

The leaders of the Ex-Student Association are to be commended for their fine efforts and accomplishments.

I would especially like to welcome all former teachers and administrators to the homecoming. What success we have these years is due to the hard and diligent work that these predecessors have done. The foundation that you laid are what we can build on in years to come.

It is our most earnest desire that you have another good homecoming this year. We hope that we can have a small part in making this one the best, and we pledge our efforts to you. I hope that you can always say, "I am proud to be an ex of Hamlin High School." I can say it is great to be the superintendent of the Hamlin Schools.

## Town Decorates With Welcomes And Old Pictures

Hamlin community has been all a-buzz for several days with preparations for the third annual Hamlin High School ex-student homecoming that convenes Friday and Saturday.

Store fronts have been decorated with welcoming signs for ex-students. Several empty store buildings have been decorated with greetings, and numerous pictures and stories of former school students and buildings remind one of art galleries in many of the stores.

Many combined hours of time have already been spent by citizens of the territory in examining the pictures that have brought to mind the good old school days of the past 50 years at Hamlin.

Hamlin Schools were established in 1906 shortly after the town came into being following construction of the Orient Railway (now the Santa Fe) into the area.

Business men and civic and women's clubs are cooperating with the sponsoring Hamlin Ex-Students Association in arrangements for the homecoming.

Business houses will be represented at most of the festivities of the gathering, and special invitations have been extended to the business firms to send representatives to the noon barbecue Saturday at the high school gymnasium.

## J. P. Maberry Well at Sylvester Good for 210 Barrels of Oil

William D. Austin et al of Abilene has completed its No. 1 J. P. Maberry test, one mile south of Sylvester in Fisher County, southwest of Hamlin. It is three-eighths of a mile west of the nearest well in the Sylvester (Goen) Field. Site is in Lot 56 of Bastrop County School Lands Survey.

No. 1 Maberry had an eight-hour potential of 210 barrels of 52-gravity oil. Flow was through on 18-64 inch choke with 700 pounds casing and 600 pounds tubing pressures and from 100 perforations at 5,340-50 feet. Casing is set at 5,414 feet, and the hole bottomed at 5,416 feet. Gas-oil ratio was 500 to one.

## Primary Pupils Taken For Fire Truck Rides

Students and teachers of the Hamlin Primary School were treated to rides on fire trucks last Friday afternoon by Ed Branscum and Othell Murphree, members of the Volunteer Fire Department. The rides were features for the children of observance of Fire Prevention Week.

The children were taken a room at a time on rides around the school area. Teachers ask The Herald to express appreciation to the firemen for the treat.

**COX AND WIFE AT TRIAL**—Former State Representative James E. Cox chats with his wife in district court at Austin where he is on trial accused of agreeing to accept a bribe.

# Hundreds of Ex-Students Due Here at Homecoming

**FIRST CAPS AND GOWNS** were used by graduates of Hamlin High School in 1918 when the above picture was made. Members of the class were: Back row (left to right): Vera Noble Schrimsher, Miss Earl Underwood and Tennie Barnett Moore; second row (left to right): Myrtle Bates Weatherby, Carl Holden, Basil Teague and Fannie Mae Boyd Harrell; bottom row (left to right): Chlorene Vaughan, Harwood, Inez Fletcher McWilliams, Verda Salmon Reynolds, Vincie Bowen Walton, Florene Darden Miller and Emma Harris.

## No Trace Found of Pair Who Robbed Woman of Big Roll

### Rev. Victor Ortiz Made Chaplain by Westex Firemen

Rev. Victor Ortiz, pastor of the Mexican Baptist Church in Hamlin, was elected chaplain of the West Texas Firemen's Association which met last Thursday in semi-annual convention at Hamlin. He has been chaplain of the Hamlin Volunteer Fire Department for two years. Rev. Ortiz succeeds Dr. Lawrence Hayes, former pastor of the Rotan First Baptist Church, who recently resigned and moved to Lubbock.

Semi-annual program sessions of the firemen's group were held last Thursday afternoon at the Ferguson Theater, with WTFA President Bill Brown of Snyder presiding. Regular officers of the association are named at the fall convention of the group.

Chief O. A. Kimbrough of the Dyess Air Force Base at Abilene was the principal speaker at the session Thursday afternoon.

In the races conducted Thursday afternoon as a big feature of the meeting, Haskell firemen won in the pumper race with a time of 21.5 seconds. Snyder won the six-man hook-up in 12.9 seconds. Rotan was first in the two-man hook-up with 13.1 seconds.

A barbecue supper was served to about 300 attendants Thursday at 6:00 o'clock at the City Park. A dance that evening at the I. R. Witt cabins at Hamlin West Lake climaxed the day's activities.

**NEW CHAPLAIN** of the West Texas Firemen's Association is Rev. Victor Ortiz (above) pastor of the Mexican Baptist Church in Hamlin. He was elected to the post last Thursday in business sessions of the firemen's semi-annual meeting held at Hamlin. He succeeds Dr. Lawrence Hayes, former pastor at Rotan, who recently moved to Lubbock.

### Good Results Had on Band Fund Campaign

Good results are reported from the annual fund raising campaign for the Hamlin High School Pide Piper Band that was conducted Saturday, according to Mac Fullerton, director.

Deviating from the usual routine of selling candy, the band this year organized a bottle drive. The band students were divided into groups of four, each group canvassing an assigned district.

It was impossible to cover the city completely, and for those who did not have a chance to make a donation, the band is still accepting donations of milk and soda pop bottles. Donations may be taken to the band hall, Fullerton says.

### North Jones County Singing Set Sunday

Several special singing groups are expected at the regular North Jones County singing convention Sunday afternoon at the Assembly of God Church, near the McCaulley Y in South Hamlin.

Singing will get underway at 2:00 o'clock. Everyone is invited to attend.

About 20 miles wide, the Strait of Dover is the narrowest part of the English Channel.

### \$514 Taken from Negro Who Had Just Drawn Cash

No trace of the negro man and woman who Monday afternoon snatched a money clip containing \$514 from a Hamlin colored woman had been found Wednesday morning, according to Chief of Police E. B. (Buddy) Watson.

Area officers had been alerted to be on the look-out for the pair shortly after the robbery about 2:30 p. m. at the rear of the Farmers & Merchants National Bank.

Losers of the money was Mrs. Lenora Brown, about 60, of Route 4, Hamlin. She had gone to the bank Monday afternoon to withdraw the \$514 from her account to pay for adding a room to her house, according to her report to the police chief. She said she walked to the alley back of the bank and was putting the money in her purse when another negro woman snatched it from her and disappeared down the alley north of the bank. She was joined by a negro man, Mrs. Smith reported, as she fled.

Mrs. Smith reported that she had first met the younger woman inside the bank when the stranger engaged her in conversation. The woman then left the bank and apparently lay in wait outside.

Chief Watson declared that the thieves probably were professionals, as they apparently were not known here. The women taking the money was described as light complexioned, tall, slender, wearing a checked dress and plaid coat.

Mrs. Smith said the \$514 represented a large part of her bank savings. When asked why she did not use a check to pay her bill at a local lumber yard, she declared she did not know.

### Fifty-Two Study Club Sets Chili Feed Friday

As a service to attendants at the third annual Hamlin High School homecoming this week-end and to others who may want to "celebrate" by eating out before the Hamlin-Albany football game, members of the Fifty-Two Study Club are staging a chili supper tomorrow (Friday) evening at the high school cafeteria. Serving hours will be from 5:00 till 7:00 o'clock. Price of the supper is 75 cents per person.

Net proceeds from the supper will be used by the club to apply on a college scholarship for a colored girl, club officials said.

## Over 100 in Area Already Signed For Get-Together

Hamlin will be host this week-end to hundreds of former students of Hamlin High School as the third annual homecoming of exes is staged Friday and Saturday. The event is being sponsored by the Hamlin Ex-Students Association.

Everything is in readiness to entertain the homecomers, who will begin registering at 3:30 o'clock Friday afternoon at the downtown headquarters in the former city hall, established by members of the Hamlin Business and Professional Women's Club.

More than 100 ex-students of the Hamlin territory had registered for the gathering at mid-week, reports Joe Ford, president of the Ex-Students Association.

Highlight of the Friday festivities will be the football game at 7:30 between the Hamlin Pide Pipers and the Albany Lions at Pide Piper stadium. Between halves a Homecoming Queen will be crowned.

Following the game a coffee and get-together will be conducted at the new high school gymnasium.

All Hamlin High School students and their dates are invited to three lawn of the First Baptist Church after the game Friday night for a program of out-of-town entertainment and singing. Refreshments will be served by women of the church.

Saturday morning's homecoming activities will continue with business sessions and class meetings at the high school auditorium. A barbecue will be given for attendants at noon at the gymnasium. Business men of the town who are not necessarily ex-students of the school are invited to attend the barbecue.

## Organization Meet For Heart Group Slated Thursday

Organization meeting for a Jones County Heart Association will be held this (Thursday) evening in the district court room of the county courthouse at Anson, leaders in the movement have announced. The meeting is set for 7:30 o'clock.

Orville Tolbert, state organizer, will be present for the session to assist in organization plans.

Representatives from civic and women's clubs and other organizations in Hamlin are being urged to attend the session. The public, of course, is invited to attend and participate in the organization.

Hamlin people interested in the efforts to promote more concern and education on heart disease point out that this malady is the leading cause of death below the age of 65 in the United States, yet little united action is being taken to study and provide means of avoiding many of these deaths.

More people die each year in the United States of heart disease than from the next most prevalent cause of death, cancer. Total of 232,750 people died in 1954 (latest available figures) from heart disease compared with 113,360 from cancer. Accidents accounted for 66,010 deaths, pneumonia caused 20,080 deaths, 12,340 committed suicide and 11,540 died of cirrhosis of the liver.

Moreover, below the age of 65, deaths from diseases of the heart and blood vessels exceeded the combined total from the next five causes in the same age group, it is declared.

Following the organization of a Jones County Heart Association it is planned to conduct a financial drive to raise funds for work of education and research. Eighty per cent of the funds so raised will remain in the county.

Principle is an opinion that has stood the test of time.

## WATER BONDS MERIT EVERY VOTER'S SUPPORT

There is not a man, woman or child in Texas but who has been adversely affected in some degree or other by the protracted drought conditions of the last eight years.

The underground water table, which supplies many scores of community water systems and is depended on by a large population rural area for their water needs has been deeply affected by the impact of the long-time drought and failure of needed replenishment.

The story of the drought, broken for a time by this spring's record rains, is a story of many millions of loss to the Texas economy on which every Texan depends. It has been tragic for farmers and raisers of livestock. It has cost inconvenience and hardship to many hundreds of thousands in cities and smaller communities which have had to resort to water rationing, or have had to have water hauled in from other places to meet the simplest wants.

Many Texans long have been deeply concerned over water, which they well know is the No. 1 problem of this, the nation's largest, state.

Industrial development has been affected by dearth of water, and several large industries of the state have faced an emergency which meant last year that for a time they were threatened by having to close down when supplies were reduced to weeks, even days. Only the arrival of long delayed, but dependable rains, enabled them to keep going, and keep an unestimated number of personnel on the job instead of being forced out of work.

Water scarcity has a direct affect on many kinds of jobs and the continued employment of those holding them.

Next November 5 the voters of Texas will have an opportunity to make a vital decision, that of passing the \$200,000,000 bond issue amendment submitted by the last Legislature for the development and conservation of the state's water resources.

It involves a plan, to assist communities and districts otherwise unable to finance a program of their own.

The bond issue will be painless. The money will be repaid in easy stages as the work of constructing projects proceeds, the last 10 per cent of these jurisdictional obligations to be paid back on certification by the State Board of Water Engineers that the work is completed and is satisfactory.

We think every qualified voter of Texas should support this measure which, after more than a score of years of talking about it and agreeing that the problem ranks as the No. 1 Texas problem, now is being submitted in a form that deserves the support of everyone aware that unless this opportunity is seized it is possible for a drought, going even deeper than the one we have gone through and may continue to go through, to create havoc with the state's economy.

Development of the Double Mountain Fork of the Brazos River north of Hamlin could be included in projects to be financed by the bond issue, Hamlin area residents are reminded. This plan has been declared feasible by engineers.

## High Living Costs Problem

There is no doubt that the high cost of living is our major domestic problem.

There may be times and circumstances in which our people benefit by a tightening of credit policies. But as an "anti-inflation" move for the present, "tight money" has been a miserable failure.

Tight money has increased the federal, state and local tax burden. Tight money has denied needed credit to small businessmen. Tight money has added to the troubles of our farmers. Tight money has lowered the value of the dollar for the borrower and increased the value of the dollar for the lender.

But one thing it has not done is to lower the weekly grocery bills of our people.

Our national representatives in Washington predict the Congress will refuse to go along with any efforts by the administration to raise legal interest rates and make the present "tight" money market any tighter. And there will be a strong effort to lower those which have already been raised.

The Congress will insist on a strong and broadly based program to achieve stable living costs in contrast to the administration's policy of putting all of its eggs in the tight money basket.

## God Has a Hand

Bird lovers should note this with special interest. It is really educational. A Connecticut lady called in an expert ornithologist to help her identify a bird whose strange cry she had been unable to identify. The learned gentleman plodded hopefully to the indicated spot, where a landscaping project was in process, and listened intently. Then he came back and reported. The bulldozer on the job was in need of oil.

Two reporters were on a tour of a new telephone building. As they viewed the maze of equipment, one of them was intrigued on observing a small bowl in the midst of all the ingenious mechanisms. It was filled with water, wherein a pair of goldfish swam. "What is that for?" the curious newsmen asked. "That," replied his companion, "was probably put there to remind mortals that some very wonderful things were also invented by God."

## Words of Wisdom

Secrecy—How can we expect another to keep our secret if we cannot keep it ourselves?—La Rochefoucauld.

Opportunity—There sometimes wants only a stroke of fortune to discover numberless latent good or bad qualities, which would otherwise have been eternally concealed; as words written with a certain liquor appear only when applied to the fire.—Greville.

Consciousness—Two men look out through the same bars: One sees the mud, the other the stars.—Frederick Langbridge.

## How Much Worry?

Some careful observer of life has constructed a "Worry Table." He has classified various types of worries, and through considerable research has determined which are most popular among the large number of professional worriers:

1. Worry about disasters which, as later events proved, never happened—40 per cent.
2. Worry about decisions in the past that cannot be recalled or remedied—30 per cent.
3. Worry about possible sickness that never came—12 per cent.
4. Worries about children and friends—10 per cent.
5. Worries that have a real foundation—8 per cent.

## Editorial of the Week

### WATER PROBLEMS JUST STARTING

The scientist from Colorado who two years ago predicted the current break in the long drought over the Great Plains believes that an even more intense period of drought may grip the same area in three to six years.

"We are likely to see the conditions that caused the American desert ocean again," according to Dr. Walter Orr Roberts, director of the high altitude observatory at the University of Colorado.

Not wishing to be considered a "sensational" forecaster, Dr. Roberts emphasizes that both this prognostication and the prediction of two years ago are based on an unproved theory that the sun's activities have an effect on the earth's weather.—Texas Professional Engineer.

## RECALLING Other Years

★ Being news items taken from old files of Your Home - Town Newspaper, The Herald.

### TWENTY YEARS AGO.

Goings-on in the Hamlin community 20 years ago are reflected in the following news briefs, reproduced from the issue of The Hamlin Herald dated October 15, 1937:

Albany Lions took the third football game of the season Friday night from the Hamlin High School Pled Pipers by a 27 to 0 score.

Mrs. A. G. Hudson and daughter, Pearl Hudson, Mr. and Mrs. A. Hudson and John Hudson visited Mr. and Mrs. Cling Hudson and family at Cross Plains Sunday.

Freshman class at Hamlin High School was organized this week. Officers named were: Donald Cherry, president; Harold Flether, vice president; Charlotte Dillingham, secretary; and Glen D. Adkins, reporter.

Coy Magee, son of Dr. and Mrs. L. S. Magee of Hamlin, and Dorothy Marie Coe of Stamford were married Saturday night at Stamford.

Stennis Brown of Breckenridge is the new man at Reynolds Drug Store.

Mr. and Mrs. T. A. Hicks of Wichita Falls were guests Sunday and Monday in the home of Mr. and Mrs. Bowen Pope.

### TEN YEARS AGO.

Among items of interest in the Hamlin area 10 years ago were the following, taken from the issue of The Hamlin Herald dated October 17, 1947:

Hamlin's Pled Pipers face the Stamford Bulldogs tonight in a crucial football game, being the underdogs to the bigger Stamford crew. The Pipers last Friday lost to the Throckmorton Greyhounds by a 38 to 6 score.

For the first time in the bank's history, deposits at the Farmers & Merchants National Bank this week topped the \$4,000,000 mark, officials of the institution report.

Opening of The Style Mart, a new business for Hamlin, is announced this week by Pearl Hudson, Mrs. W. C. Matchett and Mrs. A. Hudson, owners of the concern.

Dr. J. F. Hocott will head the staff of the new Hamlin Memorial Hospital, it was announced this week by members of the board of directors of the hospital association. The institution is slated to be opened before Christmas, it is announced.

Hamlin Rotary and Lions Club have voted to each furnish a room at the new Hamlin Memorial Hospital. The VFW post also has voted to furnish the lobby.

### FIVE YEARS AGO.

Local happenings in the Hamlin territory five years ago included the following condensed from the issue of The Hamlin Herald dated October 17, 1952:

Cotton ginnings for Jones County prior to October 1 ended only 349 bales, according to the latest government report.

Harold E. Austin, private first class in the Army, formerly of McCauley, has been reported wounded in action in Korea.

Officers and directors of the Hamlin Memorial Hospital Association were reelected Sunday at the annual stockholders' meeting at the high school auditorium. Good condition was reported in the financial statement of the organization.

Street paving and recreational facilities for the City of Hamlin head the list of projects submitted in the Chamber of Commerce program of work clinic conducted last week.

### ONE YEAR AGO.

Of interest in the Hamlin community a year ago were the news briefs below, reprinted from the issue of The Hamlin Herald dated October 18, 1956:

More than 600 former students of Hamlin High School attended the second annual homecoming last week-end. Joe Ford of Hamlin was elected president of the group in final business sessions.

Mrs. B. S. Ferguson this week announced the sale of the Hamlin Theaters to Carl Benefield of Amarillo and Ed Green of Dallas.

Rev. Bill Hanna, formerly of St. Joseph, Missouri, has accepted the call to the Hamlin Church of the Nazarene. He succeeds Rev. Donald Wellman.

### NO TROUBLE AT ALL.

The fellow was making his first ocean voyage, and the water was a little turbulent, with its usual reaction on some of those aboard. Ship Captain—"Sorry, sir, you can't be sick here."

Passenger—"I can't! You just watch me!"

## Rains Hamper Livestock Movement to Market, But Fair Prices Hold Steady

There is nothing like a rain to put starch in the cattle market. Receipts Monday at Fort Worth were curtailed sharply by the general rains, and except on dry lot fed steers, the trade opened with a rush and prices were unevenly higher on both slaughter and replacement kinds, declares Ted Gouldy, special market reporter for The Herald, in his weekly release. The release continues:

It took some doing, but by the time a slow clearance was complete most of the grain-fed cattle were also steady. Stocker orders poured into the market and the board demand topped up a good many cattle and calves which normally might have sold into slaughter channels, with the result that prices were upped. Slaughter and stocker calves and yearlings were around 50 cents or more higher. Some feeder steers shared the advance. Replacement cows were very scarce.

Comparative prices: Good and choice steers and yearlings, \$18.50 to \$23; and medium and lower grade, \$13 to \$18.50; fat cows, \$13.50 to \$15.50; canners and cutters, \$8 to \$13.50; bulls, \$11 to \$16; slaughter calves of good and choice kind, \$19 to \$21, some baby beefs higher; common and medium sorts, \$13 to \$18; rangers, \$11 to \$13; stocker steer calves, \$23 down; stocker steer yearlings, \$21 down; two-year-old feeder cattle, \$19.50 down; a few stocker cows, \$13 to \$15.

The strangest development in a long time at Fort Worth's market was noted Monday when packing sows and choice butcher hogs both topped at \$18. The weird situation was brought about by the fact supplies of sows, the No. 1 item in sausage making, have been light at Fort Worth and all over the country as hog men are getting back in the business post haste. Big supplies of feed grains and the favorable ratio between grain prices and swine prices is at the root of the build-up in hog populations. Corn Belt observers have predicted 1958's fall marketings may surpass 1955. This period saw top hogs sell down to \$10 and below in the Corn Belt.

One observer at Fort Worth explained the high sow price this way: Check the meat counter, see what good sausage is bringing in comparison to the other pork cuts. Incidentally, with both top butchers and sows at \$18, Fort Worth prices on them were 50 to \$1 or more above Midwest tops the same day. Medium to good butchers sold Monday at \$16.50 to \$17.50 at Fort Worth.

Limited offerings of all kinds of sheep and lambs (half of the run was New Mexico sheep by rail) at Fort Worth Monday faced strong prices. Fat lambs of good or choice kinds, with either No. 2, No. 1 or up to a full wool pelt, sold from \$20 to \$21.50, some of all of these pelt lengths at the top. Cull to medium killers drew \$16 to \$20. A few fairish feeders cashed at \$20 to \$20.50.

Slaughter ewes brought \$8 to \$8.50. Some clipped aged wethers cashed at \$13. Other kinds were scarce. The annual livestock pest control clinic is set for Fort Worth November 18, and it will be a most important meeting for stockmen. Nationally prominent authorities will speak at the meeting, which is open to all livestock producers and others interested in the control of livestock pests. Arrangements for the November 18 meeting are being made jointly by the Texas Producers of Veterinary Supplies, the Fort Worth Chamber of Commerce and the Fort Worth Farm and Ranch Club. The session will be the first such in the North Central Texas area. Those attending will be livestock producers, county agents, dealers of veterinary products and representatives of governmental and state experimental stations and the state extension services.

The all-day meeting will be devoted to informational and educational discussions on livestock pest control. No commercial exhibits will be permitted. The speakers, men who are actually engaged in this specialized work, will cover such topics as control of lice, fleas, screw worms and ticks; safe use of various insecticides including amount to use for effective control; and precautions against over-doses to animals. Gene Bales is president of the Fort Worth Farm and Ranch Club; Clay Berry is president of the Chamber of Commerce; and James McBrayer is president of the Texas Producers of Veterinary Supplies. W. A. King and Dr. R. L. Rogers of Fort Worth are in charge of program arrangements.

## Hamlin People Urged To Attend Concerts of Abilene Symphony

Hamlin area people are being extended invitations to attend the opening concert of the Abilene Symphony Orchestra on the evening of Tuesday, October 22. The orchestra is a part of the youth program in Abilene.

Free admission is extended to members of the school bands, senior class and choral groups for one of the concerts during the year. Advance notice should be given the Abilene Symphony Orchestra, 155 Cedar Street, however, of group attendance.

Season memberships for all five concerts are \$9 for reserved seats, \$7 general admission and \$3 for students.

Dates for the concerts are October 22, December 3, February 25, March 25 and April 29 at 8:00 o'clock p. m.

## Greens at Preview of New Dodge Models

Mr. and Mrs. John F. Green of the John F. Green Motor Company, Hamlin Dodge dealers, attended a special preview showing of the 1958 line of Dodge passenger cars and trucks at Fort Worth last week.

Also attending the meeting, one of 17 similar showings held across the country, were officials of the Detroit auto firm, who introduced the new models to local dealers and outlined selling plans for the coming year.

Public announcement of the 1958 Dodge is scheduled for November 6.

# State Capital NEWS

By Vern Sanford, Manager, Texas Press Association.

Austin—There is talk now of not just one, but two special sessions of the Legislature.

East Texas House members, who served as a tightly knit team in pushing pro-segregation laws last spring, are asking Governor Price Daniel for a chance to put through some more.

Texas needs laws to prevent the kind of trouble that developed in Little Rock, say the East Texans. Specifically, they propose (1) a law to allow local boards to close schools in case of riots or occupation by troops; and (2) a measure directing the attorney general to assist local school systems involved in federal suits to enforce integration.

Daniel said, "It may be we should take some further action." But he said he thought the East Texans were wise in not suggesting the segregation issues be added to the agenda of the session, which opened Monday. It was called to work on lobby registration, registration of practice before state agencies, water conservation and crime study. Most observers think thrashing out all the details on these will take a full 30 days.

Four Indictments.—Travis County courts, which serve as the arena in which state officials are taken to task, are due many more months of state-wide attention.

After four months of studying the history of the ICT Insurance Company, a Travis County grand jury returned perjury indictments against Former Insurance Commissioners Garland A. Smith and J. Byron Saunders. It also indicted ICT's one-time manager, Ben Jack Cage, on charges of bribing the commissioners. Also Smith's son-in-law, May Wayne Rychlik, on perjury charges.

Jurors recommended state laws be strengthened, particularly in regard to liabilities and responsibilities of company officers and board members.

There wasn't time to go into legislative lobbying, said the weary jury. But it urged a law requiring registration and expense reports by lobbyists.

Proof that the jury's tiresome

task took its toll was the hospitalization of one member just as the term ended, reportedly suffering from "physical exhaustion."

Water Preview.—Sectional rivalries and lack of money have hobbled past efforts for an overall water conservation program in Texas. So said speakers at the Texas Water Conservation Association meeting where water problems confronting the special legislative session were previewed.

State Water Board Chairman R. M. Dixon said his department has never had enough money to carry out its assigned duties. He asked for more money to gather data and pay salaries comparable with other state departments.

House Speaker Waggoner Carr pointed out that legislators have had trouble getting together on a water program because they reflect the conflicting ideas of their constituents, said Carr. He urged cooperation.

Governor Daniel recommended a water plan to take care of the needs up to the year 2000. "We can go forward," he said, "and guarantee the future growth and prosperity of our state, or do nothing and face economic stagnation."

Water Amendment.—Governor Daniel has expressed great pleasure over the widespread interest in passage of the constitutional amendment for water development.

He pointed out that the measure, which is third on the November 5 ballot, has received the endorsement of the state's leading organizations and associations.

"Each day's mail brings additional support from local Chambers of Commerce and other civic organizations, as well as private citizens interested in the welfare of Texas," the governor added.

Rod and Gun Statistics.—Texans spend twice as much money to hunt and fish as they do for admission to all football, baseball and basketball games, plus all the movies and other theatrical attractions combined.

So said L. A. Wilke of the Texas Game and Fish Commission at a Rotary Club luncheon in Austin.

Here are some other facts with which Wilke surprised the Austin Rotarians: Anglers and hunters outnumber golfers nine to one. They also spend more on hunting and fishing than all Texans spend on medical and dental care and hospitalization insurance.

Cotton Forecast Up.—Texas' 1957 cotton crop will be 83 per cent of normal, says the U. S. Department of Agriculture. October estimate is for 4,100,000 bales—half a million more than was expected in September.

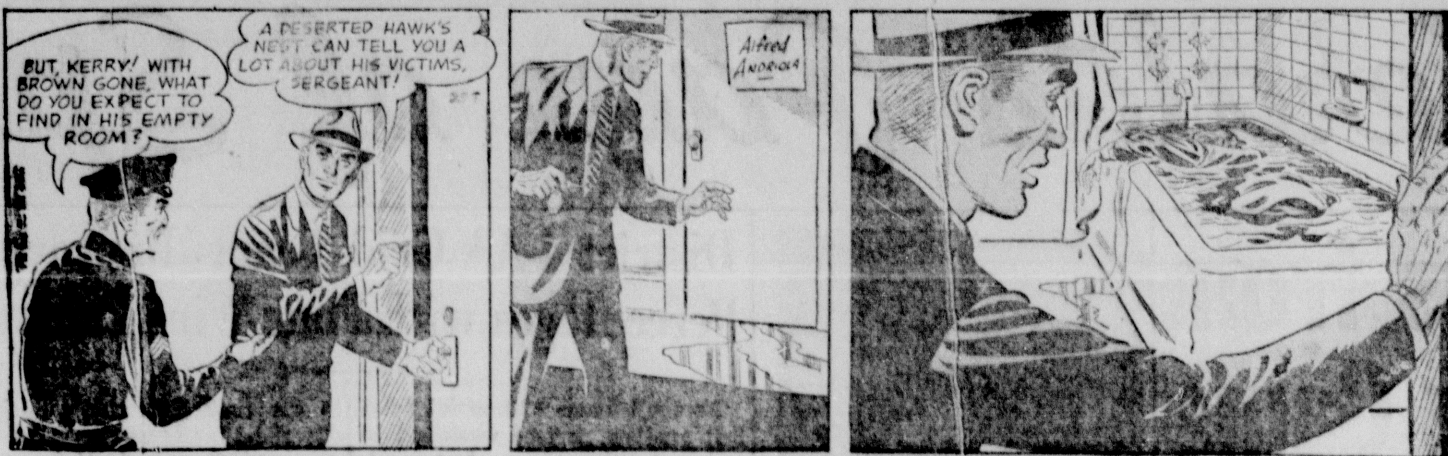

USDA also reported that mild fall weather was helping farmers in many areas. Scattered showers brought up winter wheat on the Plains and encouraged volunteer oats and other pasturage for cattle over wide areas. Weather also was favorable for harvesting peanuts, rice and sweet potatoes.

Appointed by Governor.—Named by Governor Daniel to serve on state boards are:

W. W. Heath, Austin attorney, rancher and banker . . . to the State Board for Hospitals and Special Schools.

Dr. R. B. Brown of Dallas (re-appointed) and Dan McKnight of

## KERRY DRAKE

Rock Springs to the State Board of Pharmacy.

Dr. Elmer C. Faum to Austin, Cyrus Hill Lambert, a pharmacist of El Paso, and Dr. William Hibbitts of Texarkana, to the State Board of Health.

Dale Broussard of Beaumont and Norman Bratcher of Denison to the State Board of Morticians.

Flu Cases Pile Up.—"That foreign flu" is getting familiar in Texas. Reported cases doubled in a week, according to the State Health Department, bringing the total of flu-like illnesses to 63,319. A number of schools had to

close after absences skyrocketed. Many others cancelled football games, band concerts and other special events.

Short Snorts.—People in Brazos County, home of Texas A. & M. College, are unhappy. Their county was assigned auto license plates with the prefix TU. That, to the Aggies, sounds too much like the initials of their arch-rival, the University of Texas. What they don't know is that tags with AM letters now are appearing on Austin cars. . . . Texans leaving the armed forces in September was more than double the number en-

tering service, reports State Selective Service headquarters. . . . Despite an attorney general's ruling that the House speaker and lieutenant governor are legally entitled to capitol living quarters, former State Senator Joe Hill is still trying to get them thrown out. Hill has carried his fight to the Court of Civil Appeals where he contended the practice was unconstitutional and "ridiculous" besides.

The scheme of life seems to be that one-half of it is ruined by our parents, and the other half by our children.

"Happy" Selected as Name for Bluebirds

Members of the second grade Bluebird group of Camp Fire Girls have selected "Happy" as their group name.

The Happy members are Deborah Blanton, Jeannette Brown, Celestia Brown, Sharon Hawkins, Sally Carlton, Paula Kay Helms, Joyce Ann Hill, Alice Lovell, Mary Linda McDuff, Teresa Perrin, Diana Vaughan, Jayne Carol Turner, Sharon Sturrock, Cathy Marlene Cronk, Margaret Cooper and Dianne Sellers.

## Pied Pipers Meet Lions from Albany in Homecoming Game

### Last Non-League Game Will Match Two Fast Crews

Riding high on a no-loss record and with one tie marring a perfect slate, the Hamlin High School Pied Pipers go to battle in an exhibition with the Albany Lions Friday night before hundreds of Hamlin High ex-students.

Hamlin has four victories and the tie, while Albany has five wins and one defeat.

Class AA Albany has defeated Class AA Olney, Munday and Winters and Class A DeLeon and Eastland. Last Friday night the Lions dropped their first game to Anson of District 4-AA by a 20 to 13 count. Both Albany and Hamlin have defeated the Hamlin Blizzards of Winters, which puts the teams on nearly equal footing for Friday night's tilt.

Hamlin Head Coach D. C. Andrews says his boys are in good condition for the homecoming encounter, having taken a rest last week-end from outside competition. Strenuous work-outs on defensive plays against Albany tactics have put the gridders in fine fettle for the melee, Andrews declares.

The Albany Lions have on overall good team, fair in size, with good speed and a fine passing game, say those who have seen the Lions in action.

Game time is 7:30 at the Pied Piper stadium.

Special half-time festivities for the game Friday night will feature the crowning of the Homecoming Queen of Hamlin High School.

### Most District Teams Play for Keeps Friday

After piddling around for six weeks of the football season all members of the District 4-AA loop except Hamlin get down to the business of conference games this week-end.

The district teams have one of the best non-conference records in the history of the schools, having won 18 games, lost five and tied two for a loop average of .678.

Anson plays at Stamford Friday night and Haskell plays at Seymour in district tussles, while Albany comes to Hamlin for the final non-conference game on the Pied Pipers' schedule.

### DISTRICT 4-AA STANDINGS

Those Panthers from Seymour continued to command the lead position in standings of District 4-AA football teams after six weeks of non-conference play by the five member teams. All the district teams won their tilts except the Hamlin Pied Pipers, who were sitting out an open date.

Standings after last Friday's encounters looked like this for the district teams:

Teams	P.	W.	L.	T.	Pct.
Seymour	5	5	0	0	1.000
Hamlin	5	4	0	1	.900
Stamford	6	5	1	0	.833
Anson	6	4	1	1	.759
Haskell	6	3	3	0	.500

#### Results Last Week.

Stamford 25, Brownwood 13.  
Seymour 35, Dumas 6.  
Haskell 27, Cisco 7.  
Anson 20, Albany 13.

#### Where They Play Friday.

Anson at Stamford.  
Albany at Hamlin.  
Haskell at Seymour.

### Intensive Search for Tax Refunds Made By Internal Revenue

Some folks may think we ought to leave the folks alone who move off and forget to tell the Internal Revenue Service where to mail their refund checks, declares an official of the service in a release to The Herald.

The Dallas district has accumulated about 40,000 such checks over the years. There are several thousand for this year in the files now in spite of one newspaper printing all the names and helping to clear out thousands of them. The tax refund lady gets old clippings from our comments on the checks.

If you have a refund coming and have moved from your old address or forget to put your address on your tax return and you were not notified that your return was selected for a pre-refund audit, you ought to look at your copy of your 1936 return and see if you did have a refund coming.

If you were due a refund and are sure you haven't received it you should write to: Tax Refund Lady, Internal Revenue Service, 2101 Pacific Avenue, Dallas. Be sure and give full details.

### Mighty Mice Take Last First-Round Tilt at Rotan 27-6

After being held to a 6 to 0 lead at the half the Hamlin Junior High School gridders rolled up three touchdowns the second half last Tuesday night to maintain their first place position in the area conference. Hamlin's win, plus an Anson win over Albany, stakes the Mighty Mice to a game and a half lead over second place Rotan. The final score was 27 to 6.

Hamlin received the opening kick-off and drove to the Rotan one-yard spot before losing the ball on downs. Rotan punted short and Hamlin tallied when Bill Richey scored on a short plunge. The most thrilling play of the game occurred on the last play of the first half when Frankie Lee circled his own left end and streaked 60 yards only to fall untouched on the 10-yard line.

The Hamlin boys came to life the second half with the hard charging Frankie Lee leading the way. Lee tallied all the second half points except one touchdown which he carried over but fumbled. Center Rayford Williams recovered the fumble for the marker.

Rotan scored after Hamlin subs entered the game. Goodrum skirted his left end for 30 yards and the Rotan tally in the last minute of play.

The entire defensive line played excellent ball for Hamlin, holding Rotan backs to short gains. Linemen for Hamlin were Jerry Smith, Jesse Mendoza, Johnny Stovall, Jerry Duncan, Rayford Williams, Jimmy Cooper and Stanley Austin. Alvin Houghton intercepted a Rotan pass. Wayne Baize did an excellent job in leading the Mice to their fourth straight win with his quarterbacking.

#### DISCIPLINE DELUXE.

Little Claude's mother had reluctantly allowed her precious child to attend public school. She gave the teacher a long list of instructions.

"My Claude is so sensitive," she explained, "don't ever punish him. Just slap the boy next to him. That will frighten Claude."

Actions speak louder than words—but not so often.

VOGUE FOR FALL—Pretty Janet Moyer of San Antonio was dressed for fall when fall arrived. Close to six inches of rain brought out the bathing suit—and what is better for chilly temperatures than a mink coat? Perhaps a reversible mink coat, says Janet.

### Hamlin Junior High Squad Continues to Hold League Lead

Hamlin Junior High School's football crew, the Mighty Mice, continued their command of the five-member area junior high conference last week by defeating the last of their four opponents in the first round of a double round-robin conference schedule. Coach Harry Martin's charges, therefore, are on the top of the heap in the standings so far.

After last week's engagements, the standings looked like this:

Teams	P.	W.	L.	T.	Pct.
Hamlin	4	4	0	0	1.000
Rotan	3	1	1	1	.500
Anson	3	1	2	0	.333
Albany	3	1	2	0	.333
Merkel	3	0	2	1	.166

#### Results October 8

Anson 21, Albany 19.  
Hamlin 27, Rotan 6.

#### Games October 13

Merkel at Anson.  
Rotan at Albany.  
Hamlin—Open date.

### Par For Lakeview Golf Course Lowered For Women Players

Members voted to lower the ladies' par for the Lakeview Golf Club from 47 to 39 when the Hamlin Ladies' Golf Association met for lunch and a business session at the club house.

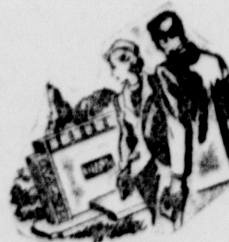

It was reported that this organization has made improvements to the club house that amounted to more than \$200 the past year.

A standing vote of thanks was extended to Mrs. B. O. Bell for the new flags for the golf course, and to Mrs. M. L. Smith for her work as tournament chairman.

New officers elected at the business session were: Mrs. Bill Feagan, president; Mrs. B. O. Bell, first vice president, who will serve as tournament chairman; Mrs. Art Carmichael, second vice president; Mrs. Jerry Waggoner, secretary-treasurer; and Mrs. Joe League, reporter.

#### HOW SHOCKING.

Chaplain (to prisoner in electric chair)—"Can I do something for you?"  
Prisoner—"Yes, hold my hand."

### District 4-AA Grid Teams Improve Percentages with Four Wins Friday

Football teams of District 4-AA had another perfect week-end in non-conference games last week as four of the five crews took the measures of area opponents. One of the five crews, Hamlin, had an open date on its schedule.

Defending state AA champion Stamford again proved the Bulldogs have lost little power this season by topping the Class AAA Brownwood Lions 25 to 13. First place Seymour kept its record clean by beating Dumas 35 to 6; Anson Tigers tripped the Albany Lions 20 to 13; and Haskell's Indians defeated the Cisco Lobos 27 to 0.

Class AAA Brownwood was stunned Friday night when the rampaging Stamford Bulldogs took the long end of a 25 to 13 score in a thrill-packed game at Brownwood. Scoring for Stamford were Don Davis, Charles Helmer (two) and Fred Upshaw. Stamford recorded 14 first downs to 12 for Brownwood, and racked up 380 yards rushing to 128 for the Lions. Brownwood made 137 yards passing by completing 10 of 18, while Stamford connected on three of seven aerials for 50 yards.

Seymour's Panthers, sitting on top of the heap in pre-conference play of District 4-AA teams, kept their slate clean by taking their fifth straight victory in a 35 to 6 romp over the Dumas crew. The tilt was played at Seymour. Scoring for the Panthers were Larry Martin (two), Billy Ryan (two) and Joe Chandler. Bill Moss booted all five extra points after the touchdowns. Scoring for Dumas

In the final quarter was Johnny Cleveland. Dumas made 12 first downs to Seymour's 10.

Haskell High School's Indians had an easy task on their hands Friday night of bopping the Cisco Lobos 27 to 7 on the Indian grid. Scoring for Haskell were End Bobby Wheatley, End Sam Rike, Lindon Harris and Don Pennington. Berton Porter tallied for the Lobos.

Anson High School's Tigers went into the Lions den at Albany Friday night and came away with a 20 to 13 victory tacked to their belts. Jimmy Roberts started the scoring for Anson when he intercepted an Albany pass try and went on to tally. Roberts scored again after Harold Neil intercepted another Albany pass. Later scoring for Anson was William Dobbins. Albany's markers were scored by Halfback Jimmy Ellis. Anson made 13 first downs to 12 for Albany, but Albany outgained the Tigers on rushing, running up 151 yards to 96 for Anson. Anson made 65 yards by completing four of eight passes, and Albany connected on four of 10 aerials for 53 yards.

#### FAST CORRECTION.

Traffic Officer—"Why didn't you stop when I whistled?"  
Lady Driver—"I'm pretty deaf."  
Traffic Officer—"Well, don't let that worry you. You'll get your hearing in the morning."

Most people save for a rainy day, but few wait for one.

### Hamlin Athletes to Play with McMurry

McMurry College fleet halfback Jim Boyd of Hamlin, the Tribe's leading ground gainer, lost his rabbit's foot against the small, potent Texas Lutheran College Bulldogs last week.

Boyd, former Hamlin High School speedster, emerged from the TLC tilt with only eight yards rushing. And he was thrown for lost yardage, one yard, the first time this season.

Boyd and another Hamlin product, Dee Prewitt, will be playing before a familiar crowd Saturday night against East Texas State College in Stamford. Prewitt, a freshman, is being groomed for spotty assignments.

### Mighty Mice to Meet Albany Lads Tuesday

Harry Martin's Mighty Mice of Hamlin Junior High School journey to Albany next Tuesday night to start the second half of the grid season.

Hamlin is in an excellent position to capture the championship as they enjoy a game and a half lead over the rest of the field.

Game time for the Tuesday night tilt at Albany is 7:00 o'clock.

#### POINT OF VIEW.

To be happy with a man, you must love him a little and understand him a lot; to be happy with a woman, you must love her a lot and try not to understand her at all.

## Hamlin Drive-In

Every Wednesday, Thursday and Friday during the month of October is 50c-a-Carload Night

So get the family and your neighbors together and come out and see a wonderful movie in the comfort of your car!

## Texans May Help Determine Estate Tax on Incomes

The community property laws make a lot of difference in how much estate tax a man dying in Texas may owe, reminds Tax Man Sam in a release to The Herald. Generally speaking, the estate can be twice as large in Texas as in non-community property states before any estate tax is due.

Since the wife owns half of the community property the estate must be worth \$120,000 instead of \$60,000 before any federal taxes are due. However, on the date of your death the value of your half and the widow's half of your property assume a new value for future income tax purposes.

After the death of either the husband or wife in a community property state, land bought for \$1 an acre may be worth \$1,000 an acre for future income tax purposes or on the other hand you may have paid \$1,000 an acre and it will only be worth \$1 an acre in the future. This makes it profitable for many small taxpayers to get a reliable appraisal of their property as of the date of death.

It also makes it profitable for many people to pay an estate tax because the increased value of the widow's property for income tax purposes may save many times the small estate tax payment in future income tax payments. It may pay you to see a reliable tax planning man.

## Hamlin VFW Groups To Attend District Meeting at Stamford

Several members of the Hamlin Post of the Veterans of Foreign Wars are scheduled to attend a district conference Saturday and Sunday of VFW and Ladies' Auxiliary members from Central West Texas at Stamford.

Announcement came this week from Richard Cox of Ranger, commander of the posts in Jones, Haskell, Throckmorton, Stephens, Shackelford, Fisher, Scurry, Taylor, Nolan, Mitchell, Comanche, Callahan, Eastland and Brown Counties.

Registration of members attending will begin at 10:00 o'clock Saturday morning at the home of Post No. 9179 on Highway 277 in South Stamford. The ladies will be hosts for a tea on Saturday from 4:00 to 5:00 p. m., and a dance is scheduled for those attending Saturday night.

### LITTLE FAULTS.

It's generally a chain of circumstances that shows up the weak link in a man's character.

**GRAND CHAMPION HEREFORD BULL**—J. P. McNatt of Greenville (left) hit the jackpot in the Hereford show at the Pan-American Livestock Exposition of the State Fair of Texas when his two-year-old bull, M. Zato Heir T-7th, won championship honors. This was McNatt's first year of showing after more than 17 years of Hereford breeding. His ranch manager, Francis Hill, hold the prize sire.

## FFA Boys Take in State Fair of Texas Over Week-End, Return Fagged Out

A tired but happy bunch of Future Farmers of America boys from Hamlin High School returned Saturday night after their trip to the State Fair of Texas at Dallas.

At the fair the boys saw everything from exhibits to livestock. There were new as well as old cars—cars of the future and sports cars. In the electric building there were exhibits of all the modern electric appliances. There were food exhibits, health exhibits, exhibits of farm machinery and agriculture. There were many different breeds of cattle, horses, sheep, goats, hogs, rabbits, turkeys and chickens.

Friday night some of the boys went to the SMU-Missouri football game in the Cotton Bowl, which turned out to be very exciting.

The boys left the fair grounds Saturday evening at 2:00 o'clock and returned home Saturday night about 8:00.

T. C. Blankinship, one of the Hamlin VA teachers, accompanied the 38 boys. Those who made the trip were Jim Hester, Richie Smith, Bob Martin, Gene Murff, Boyce Blankinship, Red Fowler, Jerry Crowley, Joe Deel, Linnie

Johnson, Gerald Renfro, Durwood Boyd, Teddy Westmoreland, Billy Jack Perryman, Marion Carter, Steve Stephens, Tobe Shields, Dale Ponder, William Cranford, Charles Scott, Mike Brandon, Terry Scott, Lynn Wright, Larry Moore, Junior Lee, Dwight Griggs, Sam Mack, Jimmy Beasley, Tommy Bonds, Ronnie Dodd, Billy Hallmark, Dudley Griggs, Ronnie Hill, Sam Bryson, Victor Criswell, Ronnie Rowland and Wesley Acklin.

## McCaulley Woman Attends SS Confab

Among the 5,000 Sunday School enthusiasts attending the twelfth annual national Sunday School convention in Los Angeles, October 9 to 11, were Mrs. Bertha L. Davison of McCaulley and Jewell Davison of Lakewood, California. The three-day sessions, held in the combined facilities of the Bible Institute of Los Angeles and the Church of the Open Door, majored in the practical. Eighty workshop sessions stressed the application of modern educational techniques and teaching tools to the Sunday School.

## Everett Beaver Speaks to Rotary On School Topic

Everett Beaver, county superintendent of schools, explained legislation passed by the last session of the Texas Legislature that affects the schools when he spoke at last Wednesday's regular weekly luncheon meeting of the Hamlin Rotary Club at the oil mill guest house.

The school official explained that more legislation pertaining to schools of the state was passed by the last Legislature than by any previous session. Most of the bills were helpful, a few hurtful or ineffective for the smaller city and rural schools, he said.

He explained item by item the bills that affect mentally retarded children, factors determining transportation aid, publication of financial statements by school districts, budgets for common school districts, budget hearings, school employees under social security, investment of bond money, minimum teacher salaries of \$3,204, transfers of school funds, audits of school finances, placements of students (aimed at avoiding integration), maximum tax and bond rates, maximum bond issuance up to 10 per cent of total valuations, committee to study tax structures, laws regulating the passing of school buses, teacher jury service exemption, etc.

It was announced that this week's Rotary program will feature Bill Ledbetter and Sam Baugh of the athletic department of Hardin-Simmons University at Abilene.

A joint meeting of the Rotary and Lions Club will be held October 23 to study reorganization of the Chamber of Commerce, it was announced. President Gene Prewitt named Wesley Nail, Weldon Johnson and E. S. Maddox as representatives from the Rotary Club to arrange the program.

Besides the speaker, other guests at the Wednesday luncheon included W. M. Blackburn of Stamford, Bill Murff and Joe Stephens. The latter two were Junior Rotarians for September and October.

## Funeral Services For D. L. Bristow Held Thursday

Funeral services for D. L. Bristow, 83-year-old pioneer Hamlin area resident, who died last Tuesday night in Anson General Hospital, were conducted at 10:00 o'clock Thursday morning at the Hamlin First Baptist Church.

Bristow was visiting in Anson with a daughter when he became suddenly ill following a heart attack. He passed away shortly after being taken to the hospital. He had not been seriously ill.

Officiating in the final rites was Rev. Calvin Bailey, pastor of the church, where Bristow had been a deacon for several years. Burial was in the Hamlin East Cemetery under the direction of Lawrence Funeral Home of Anson.

Bristow was born March 13, 1874, in Bell County. He moved to Jones County with his family at the age of 15, settling in the Neinda community, south of Hamlin. He was married to the former Hallie B. Williams on December 22, 1897. Mrs. Bristow died in 1949.

Surviving the octogenarian are a son, Roy Bristow of San Angelo; three daughters, Mrs. L. B. Ray of Anson, Mrs. G. T. Harber of Abilene and Mrs. B. A. Ellison of Houston; a sister, Mrs. Claude Dean of Weatherford; 11 grandchildren and 16 great-grandchildren.

### WRONG GROUCH.

"I've been nursing a grouch all day."  
"Gee! I didn't know your forearm was sick."

It's grand as a SAUCE...a salad dressing and a spread!

## Baptist Men of Area To Hear A. C. Wimpee At Stamford Clinic

Several men of Baptist Churches of the area are scheduled to go next Thursday evening to a Baptist Brotherhood rally and clinic for area churches at the Trinity Baptist Church in Stamford.

To be featured at the program, beginning at 7:30 o'clock, will be A. C. Wimpee, associate secretary of the Baptist Brotherhood of Texas, with headquarters in Dallas. Wimpee has spoken several times to audiences in Hamlin, and is known for his quick wit and interesting addresses, especially appealing to young people.

Five conference groups will be conducted for the five different officers of church brotherhoods, declares Rev. Calvin Bailey of Hamlin, Jones County Baptist Association, international Brotherhood leader. Louis Timberlake of Stamford is associational president.

## Abshers Go to New Army Assignment

Mrs. Charles Absher, the former Faith Simpson, spent 10 days recently with her parents, Mr. and Mrs. Joe Simpson, and Carol Jo. She left Monday, accompanied by the Simpsons, to join her husband in his new assignment at Fort Huachuca, Arizona. He is in the teletype department.

The Abshers live at Bisbee, Arizona, about 30 miles from the Army post. The Simpsons returned home Tuesday.

### TRUE TO LIFE.

Posing the farmer with his college age son for a picture, the photographer suggested that the boy stand with his hand on his father's shoulder.

"If you want it to look natural," said the long suffering parent, "he could put his hand in my pocket."

The scales of justice might well be called the trial balance.

## Muriel Mehaffey and J. W. Scifres Say Wedding Vows in Church Rites

An impressive double ring ceremony Friday evening at the Sunset Baptist Church in Hamlin united in marriage Muriel Evaline Mehaffey and J. W. Scifres. Officiating at the rites was Rev. R. B. Tiner, pastor of the church.

The bride is the daughter of Mr. and Mrs. Tom Mehaffey of Roby, and the bridegroom is the

## Model Meeting Held By Beta Theta Group At Tuesday Session

Annual model meeting of the chapter was featured when members of the Beta Theta chapter of Beta Sigma Phi met in regular session Tuesday afternoon in the home of Mrs. Arlie Cassle.

Eleven members and three new pledges were present. The pledges are Mmes. D. C. Andrews, Neal Laminack and Max Murrell. Mrs. Jimmy Vaughan, a transfer from the Dalhart chapter, was welcomed into Beta Theta.

The business session was conducted by Mrs. Earl Smith, president.

Mrs. L. C. Bonds presented the program on "Self Estimate." She illustrated with questions and answers from a book by Dr. Norman Vincent Peale.

Next meeting of the sorority will be October 22 in the home of Mrs. Bill Foster.

## North Central Church Girls' Class Elects

Members of the eight-year-old girls' Sunday School Class of the North Central Avenue Baptist Church recently organized and elected officers. The name for the class was selected as the Busy Bees.

Officers elected were: Barbara Embrey, president; Sheila Stone, vice president; Delia Nichols, secretary; Carolyn McHugh, reporter. Mrs. Jackie Embrey is teacher of the group.

You can place your order now at Your Local Authorized Chevrolet Dealer's

## Officers Elected at Thursday Session of McCaulley Women

Officers were elected for the coming year when members of the McCaulley Home Demonstration Club met Thursday afternoon in the home of Mrs. Willie Fancher at Hamlin.

Named were: Mrs. Ted Abbott, president; Mrs. Willie Fancher, vice president; Mrs. Billie Jeffrey, secretary-treasurer; Mrs. Frank Kemp, council delegate; Mrs. Armond Smith, reporter; Mrs. Jerry Maberry, recreation director. Special committee were also named as follows: Mrs. L. H. Boyd, civil defense; Mrs. Ray Maberry, THDA chairman; Mrs. Lon Andrews, citizenship; Mrs. Glen Henderson, health and safety.

Plans were made for a Thanksgiving dinner in November.

Mrs. Frank Kemp gave a demonstration on oyster stuffing.

Refreshments were served to 13 members who attended.

Next meeting of the McCaulley will be October 17 in the home of Mrs. Frank Kemp. The program will be on "Ideas for Christmas Gifts."

## Friendship Club Sets New Meeting Time At Recent Gathering

A new meeting time of 3:00 o'clock was approved for the club when members of the Friendship Home Demonstration Club met at the oil mill guest house.

A council report was given. The program was on "Gift Suggestions," with members showing some hand-made gifts for Christmas.

Present for the session were Mmes. Fred Carpenter, Richard Young Sr., Fred Carpenter, M. S. Johnson, John Hix, S. E. Branscum, W. H. Murphree and Gean Witt.

Friendship Home Demonstration Club met October 11 at the oil mill guest house with seven members present.

A short business meeting was conducted. Mrs. M. H. Murphree was elected council delegate.

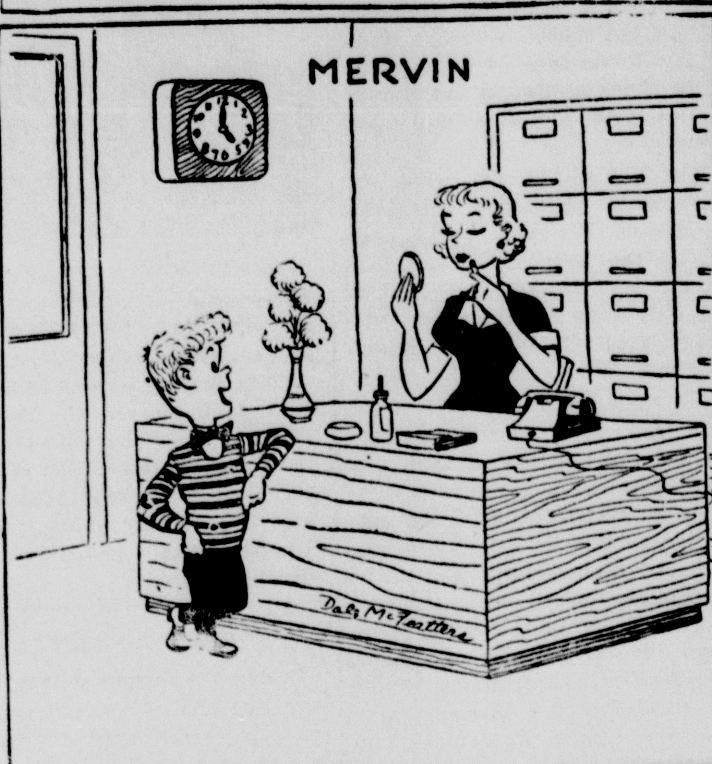

Mrs. John Hix gave a demonstration on how to make planters using cans and plaster. Some very pretty pieces were shown.

Next meeting of the club will be October 25, when a cooking demonstration will be given by the food leaders.

The man who knows when to keep still should be given a prize for having a fine command of language.

"Well, another Friday—another week closer to retirement!"

## Tooth Decay Continues to Be One of Major Diseases Among Americans

One of our most important public health enemies in America today is tooth decay, a virtually incurable chronic disease which must be prevented if it is to be conquered at all. The ailment is so widespread that it involves 95 of every 100 persons and is still increasing.

It is estimated that there are now 1,000,000,000 cavities in the mouths of Americans, mostly children of elementary school age. And for every cavity a dentist fills six are left unfilled because of failure to visit a dentist.

Dental authorities say the situation is now so acute that at its present rate of increase, within 10 years decay will have turned us into a nation of dental cripples.

## Grade B Eggs as High In Food Value as More Costly Grades

Grade B eggs are just as high in food value as grade A and AA, according to extension foods and nutrition specialists. They cost considerably less in most food markets, especially right now when they are in plentiful supply.

Grade A and AA eggs are a must only for poaching, where a high, firm yolk and thick white are essential to the appearance of the dish; and for soft cooking in the shell, where delicacy of flavor is all important.

For all other ways to cook eggs—scrambled, baked, in omelets, souffles and in countless dishes of which they are an essential part (custards, puddings, ice cream, cakes, sauces) grade B eggs can be used with complete success and at lower cost.

Thrifty homemakers need not shy away from grade B eggs but rather take advantage of the plentiful supply and lower price by serving egg main dishes often and by stepping up the richness of many other foods with added eggs.

## Reception Follows Mehaffey-Scifres Rite

Following the Mehaffey-Scifres wedding last Friday evening, a reception for the wedding party was given in the home of Mr. and Mrs. Louis E. Johnson on Northwest Avenue D.

After a wedding trip to East Texas the couple will be at home in Hamlin.

The bride attended McCaulley Schools, and is employed as a practical nurse at Hamlin Memorial Hospital. The bridegroom attended Hamlin Schools and is employed at Hamlin Sand & Gravel Company northeast of the city.

## NATURALLY!

Marge had just made two pies, one raisin and one mince. She marked them both with a "TM." When asked how she could tell them apart, she replied, "This one 'tis mince and this one 'tain't mince."

**Relieves Painful Monthly Cramps For 3 out of 4 Women Tested! Gives Greater Relief Than Aspirin!**

For millions who suffer torture of cramps, nervous tension every month, an amazing new tablet brings greater relief than aspirin! Its unique combination of medicines acts on the cause of distress. (Even contains blood-building iron.) For 3 out of 4 women

tested, pains and cramps were stopped or strikingly relieved. Called "Lydia Pinkham's Tablets," they're sold at all drug stores. Try Pinkham's Tablets yourself. See if you don't escape much of the irritability and discomfort during your period! All druggists today also have famous Lydia E. Pinkham's Vegetable Compound.

## Athea Lea Grice to Wed Lubbock Man in December Rituals

The approaching marriage of Athea Lea Grice to Ronald J. McKim has been announced by her parents, Mr. and Mrs. Clyde Grice of Hamlin. Parents of the prospective bridegroom are Mr. and Mrs. Donald G. McKim of Lubbock.

The wedding will be solemnized at 6:30 p. m. December 21 at the First Baptist Church in Hamlin. A reception will follow the ceremony at the home of the parents of the bride-elect.

Miss Grice is a graduate of Hamlin High School and Texas Technological College at Lubbock. She is teaching in the Shallowater Public Schools. In college she was a member of Delta Gamma, Phi Upsilon Emicron and the Home Economics Club. Her fiancé is a pre-law major at Texas Technological College, where he is affiliated with Phi Delta Theta.

Angela Malouf will serve as maid-of-honor, and Decker G. McKim will serve his brother as best man. Ushers will be Gene Grice of Littlefield, brother of the bride-elect, and Merle McKim, brother of the bridegroom-elect.

The Herald has carbon paper.

## Woman's Literary Club Begin Year's Club Work with Luncheon at Abilene

Woman's Literary Club launched its club year with the president's luncheon and golden anniversary celebration last Friday afternoon at the Abilene Country Club at 1:00 p. m.

Hostesses were Mmes. R. D. Moore, second vice president, Mrs. Holly Toler, Mrs. Bowen Pope and Mrs. Duane Stallcup.

"Our Heritage" is the theme for the year, as announced by the yearbook committee.

## Xi Gamma Pi Hears Program Thursday

Mrs. John C. Bryant gave the program on "Good Lives" when members of the Xi Gamma Pi chapter of Beta Sigma Phi Sorority met last Thursday afternoon in the home of Mrs. Jim Ballard.

Following the program, refreshments were served to the following: Mmes. George Poe, Jerry Waggoner, M. L. Smith, Gerald Young, Holly Toler, E. D. Perrin, E. J. Hawkins, C. W. Griggs, Weldon Carlton, John C. Bryant, Jim Ballard and W. T. Johnson.

Honored speaker for the occasion was Mrs. Dick Maberry, club president, who spoke on "Our American Heritage." Response followed by Mrs. Virgil Steele, first vice president.

Musical numbers were presented by Mrs. J. W. McCrary, club musician, followed by the presentation of new members, Mrs. Perry Sparks and Mrs. John Ed Day.

Next meeting of the Woman's Literary Club will be October 18 in the home of Mrs. John D. Ferguson, it was announced.

### TEXANS IN WASHINGTON

By Tex Easley, AP Washington Correspondent

Washington.—The Air Force is throwing up a radar screen along the Texas border that should prevent manned enemy aircraft from crossing undetected into this country from the south.

Details of the protective project are handled through the Air Force Defense Force headquarters at Granview, Missouri.

A Pentagon spokesman said 16 "prime" sites had been selected in Texas for radar stations to detect approaching unidentified aircraft or objects.

Some sites are along the Mexican border; some are deeper in the state. Construction on some of the 16 has been completed. On others it is well underway. Work has been deferred on two sites pending further consideration of all conditions involved.

Among the 16 sites are those at Zapata, Port Isabel, Ozona, Fyote, Valentine, Lufkin, Killeen, Rockport, Eagle Pass.

In addition to these "prime" sites, there are to be a number of unmanned "gap filler" stations, which as the name implies, would keep watch in the areas midway between the scanning range of the manned radar stations. These "gap filler" station sites include Delmita, Carrizo Springs and McCarney. They are usually in extremely isolated places.

Uncertainty as to eventual construction of stations at all these sites, and as to the personnel strength at each, stems from the present indecision as to how much of the Air Force efforts should be directed to development of guided missiles and anti-missile missiles.

A typical manned radar station such as those erected or being erected in Texas comprise about 100 officers and men, with possibly a small number of civilian employees, and a total annual payroll approximating a half million dollars.

It would be in operation 24 hours daily and could detect approaching objects as much as 150 miles away. Storms, and even flocks of birds, will register "dots" on the radar screens.

A Pentagon officer recalled as a "dot" was sounded in Korea, unknown objects showed up on radar screens as approaching North Korea. These turned out to be flocks of birds.

Inter-continental missiles should be on the Texas radar screens also, but in view of the fact the warning time would be most negligible.

Should an unidentified object or aircraft be spotted coming from the direction of Mexico, the Pentagon officer continued, the information instantly would be sent into a central communications center. From a fighter base jet planes go out to identify the strange object, with orders to "kill" if there is not immediate compliance with signals for identification.

—

Around the capital:

The deans of engineering and research at Texas A. & M. College and the University of Texas were among delegates to the recent conference called by President Eisenhower for a discussion of the problems of small businessmen.

The deans—Dr. John C. Calhoun Jr. of A. & M. and Dr. W. R. Woolrich—think a similar meeting held on a state or regional basis should be helpful.

"This conference has emphasized the value of research for the small businessman," commented Dr. Calhoun.

"The nation's big industrial firms have long realized its worth, and have had the money to do something about it. This is an attempt to see what can be done along similar lines for employers with small payrolls and limited capital."

He cited as an example the experience of a Midwest dog food manufacturer, related to delegates at the national meeting.

It seems that this manufacturer had a survey made to find out

### Safety Measures of Country Save Many Lives Every Year

Sixty thousand lives were saved last year—through safety.

The 1957 edition of "Accident Facts," the statistical yearbook of the National Safety Council, which is just off the press, shows that the accident death rate in 1956 was nearly 40 per cent lower than for the five-year period of 1908-1912—or 60,000 fewer than would have been killed at the old rate. This progress was achieved despite present day hazards growing out of the speed-up mechanical age.

Greatest improvement in accident prevention ranged from 31 per cent for persons 65 years old and over to 54 per cent for children four years old and younger.

The death rate for persons 15-24 years old was as high as it was nearly 50 years ago.

### Milk Producers Get \$5.85 in September

Daily Class I sales by Central West Texas handlers of milk during September were 7.75 per cent more than during August, 1957, and 6.65 per cent more than the daily sales during September, 1956.

Minimum uniform price to be paid to producers, including several in the Hamlin territory, for 4.0 per cent milk by Central West Texas handlers during September will be \$5.85 per 100, according to Byford W. Bain, market administrator.

Rubber bands at The Herald

### NEW SCHOOL BUS LAW.

J. O. Musick, general manager of the Texas Safety Association, says, "There are approximately 8,000 school busses in Texas. These busses make thousands of stops each day. If you overtake or meet a school bus that is loading or unloading passengers, the Texas law requires that you come to a complete stop. You may then proceed—with caution—at a speed not to exceed 10 miles per hour. For the children's sake, and your own, please obey this law."

### CAN'T GET AROUND.

The world is so full of a number of things that it's hard to keep up the payments on them.

RIGHT...

It is right if you buy the right merchandise at the right price—or we will make it RIGHT!

what housewives wanted in the way of food for their dogs. It turned out that a big complaint was that, while the food might have an appetizing odor for dogs, it often was revolting to these good ladies. So he developed a happy combination that pleased both, and greatly increased his sales.

Dr. Woolrich said he thought a state-wide meeting giving small businessmen from all parts of Texas opportunity to exchange ideas would prove beneficial.

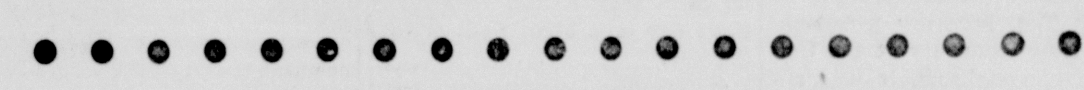

On the program could be speakers with helpful information, he added, such as qualified individuals explaining all of the ways a small businessman could get assistance through various credit agencies.

# Happiness is not guaranteed by a more prosperous community but it sure helps

THE RECIPE for true happiness calls for various ingredients to satisfy different people . . . just as cakes are baked with a variety of frostings and flavorings to please different palates. But . . . with cakes . . . the basic ingredients are always the same . . . flour sugar shortening, etc. Much the same thing is true of happiness

No matter what type of trimmings each of us may prefer on our happiness, the fundamental ingredients are about the same for all . . . first, good health . . . then a good job or a prosperous business, good schools for our children, strongly supported churches in which to worship . . . and many good neighbors, friendly and secure.

These latter things . . . call them the material ingredients of happiness, if you will . . . can be assured by a substantial and ever-growing trade volume in our community. Which we ourselves can create if all of us spend our money here . . . where we live, and make our living. Spending away from home strengthens the foundations of our city neighbors' happiness, weakens our own.

## Trade in Hamlin

... where your trade flourishes the material ingredients of your own happiness

It Pays to Buy Where You Live!

Of all the business establishments in the world—only those in Hamlin are sincerely interested in the future of Hamlin and in the future of YOU who live here . . .

## Chevrolet Trucks For 1958 to Go on Display Monday

An expanded, widely diversified line of trucks featured by a redesigned new 348-cubic inch V-8 of 230 horsepower, many chassis improvements and more powerful and durable sixes and V-8s is announced by Chevrolet Motor Division.

Fresh new front end styling includes modern dual headlamps and redesigned grille, hood and fenders.

Scheduled for display at dealer showrooms nationally, concurrent with the debut of 1958 Chevrolet passenger cars October 31, the new truck line lists 12 new models for a total of 128, up 10 per cent over the number available in 1957.

For the first time Chevrolet will assume body production responsibility for three forward control "step van" models. The same warranty and parts service will be extended to these bodies that now apply to company built panels, pick-ups, stakes and cab chassis models. Also of major interest is the addition to the line of nine new medium duty cab chassis models.

An innovation in the 1958 line is the assigning of names to each of the three light weight classifications. They are:

The Apache—Light duties with GVW ratings up to 9,600 pounds, and available on six different wheel bases.

The Viking—Medium duties, available on 12 wheel bases with GVW ratings up to 21,000 pounds.

The Spartan—Heavy duties with GVW ratings up to 25,000 pounds, and offered on nine wheel bases.

The new models will be available at Carl Murrell Chevrolet Company at Hamlin Monday.

## Kent Westbrook Is Official for Fraternity

Kent Westbrook of Hamlin has been selected to serve as engineering council representative for Pi Epsilon Tau, honorary petroleum engineering fraternity at the University of Oklahoma. It was announced this week in a release to The Herald from Norman, Oklahoma.

Westbrook is the son of Mr. and Mrs. W. C. Westbrook of 44 Northwest Avenue C in Hamlin. He is a senior student at the University and is majoring in petroleum engineering.

An honor student, Westbrook has been ranked in the top third of his class.

STYLE AND POWER MARK 1958 CHEVROLET TRUCKS—

Fresh styling, more power and many chassis improvements mark the 1958 Chevrolet truck line which go on display at Carl Murrell Chevrolet Company and other dealers all over the country next Monday. This low cab forward heavy duty model has a new 348-cubic-inch 230-horsepower engine designed for durability with sodium-cooled valves, heavy bearings and other heavy service features. Combustion chamber is wholly within the cylinder bore. All 1958 Chevrolet trucks have dual headlamps, redesigned grille, hood and fenders.

## "Slow Down at Sundown" Is Advice For Motorists from Safety Official

"Slow down at sundown," J. O. Musick, general manager of the Texas Safety Association, warned motorists this week. His appeal came as a part of the safety-after-dark program of TSA for October.

"Since nighttime doubles traffic troubles, the driver has to soft pedal the gas pedal—he has to watch out for the lives of others as well as his own."

He emphasized that a driver must be alert at all times and expect the unexpected. Sometimes children dart out from behind parked cars, or bicycle riders make turns without signaling, or an animal wanders onto the highway. Musick also mentioned that when drivers become drowsy or fatigued, they should stop for a short nap or a brisk walk around the car.

"If a driver must stop at night, it is imperative that he always pull completely off the road and leave on his parking and dome lights," Musick said.

He particularly stressed the fact that nighttime driving is different from daytime driving. Motorists must adjust to that difference by putting their guard up when the sun goes down.

"Fourteen per cent of the 2,611 traffic fatalities in Texas last

year occurred in the three-hour period from 5:00 p. m. to 8:00 p. m.," Musick said. "Thus, emphasizing the slogan that 'Dusk brings death' on the highways."

## Texas Farm Bureau Can Be South Biggest

Texas can have the largest Farm Bureau organization in the South and fourth largest in the nation if each county organization in the state meets its goal, the president of the Texas Farm Bureau has announced from his headquarters at Waco.

J. Walter Hammond said that thousands of voluntary membership workers are still busily signing up farmers and ranchers in the organization. Deadline for enrolling members for 1957 is October 31, the end of the TFB's fiscal year.

County quotas in 185 organized county Farm Bureaus add up to 75,300, which is the state quota for 1957.

## CAR NOT TO BLAME

J. O. Musick, general manager of the Texas Safety Association, says that "Ordinarily you can't blame your car for an accident any more than you can blame your mirror for the way you look."

## VETERAN QUESTIONS

The questions and answers below about veteran problems are carried as a service to present and former service connected personnel by The Herald. Material for this column is supplied by the area office of the Veterans Administration at Lubbock.

Question.—My husband, a World War II veteran, bought a house with a GI loan. Shortly afterward, he died of a service connected condition. As an unmarried widow, would I still be entitled to a GI loan even though he used his benefit before his death?

Answer.—Yes. The service connected death of your husband would entitle you to a GI loan even though he obtained one before he died.

Q.—A friend of mine died without choosing a method of settlement of his GI insurance policy. But he did name his wife as beneficiary. How will she receive the insurance proceeds?

A.—She will receive the proceeds in 36 monthly installments. But she does have the right to choose any other installment option of payment. She cannot, however, receive the money in one lump sum.

Q.—I was in military service for one year when I was wounded in Korea and had to be discharged for disability. How much vocational rehabilitation training will I be entitled to?

A.—Vocational rehabilitation training does not depend upon your length of service. You may train for as long as is necessary to restore your employability, up to a maximum of four years and in some cases even longer.

Q.—I am going to a trade school under the Korean GI bill, and I understand I am allowed up to 30 days of absence a year. Do legal holidays count as absences?

A.—No. Legal holidays do not count as absences.

## DELAYED ACTION.

Jump Master—"When you bail out, count 10, and then pull the handle that releases your parachute."

Two paratroopers were floating gently to earth when a third man went plummeting by, his parachute unopened.

"Poor guy," said one. "I knew he'd never make it. He stutters."

## O, COME NOW.

Albert—"The Navy must have relaxed its rules on size."

Filbert—"How so?"

Albert—"It tells here about a sailor who went to sleep on his watch."

## Safety Clubs Formed by Students in Fifth Grades at School

Safety clubs have recently been organized in the fifth grade at Hamlin Elementary School.

In the classes the following officers have been chosen:

Grade 5-A—Elizabeth Cunningham, president; Carolyn Reynolds, vice president; Connie Jo Duncan, secretary; Paula Kim, treasurer; Kathy Butler, Allen Cumbie and Marolyn Reynolds, program committee.

Class 5-B—Johnny Overman, president; Clifford Sharer, vice president; Reha Law, secretary; Jack Townley, treasurer; Charles Prewitt, Christy Wallace and Nancy Ford, program committee; Mike Shivers, Dannie Maberry and Delia Nichols, good citizenship committee.

## Poor Eating Habits Can Result in Many Bodily Disorders

Poor eating habits can result in many bodily disorders. Nervousness, night blindness, improper growth in children, skin irritations, tooth decay, and loss of weight and energy are just a few symptoms that may result.

Eating habits are something that most people talk about but few do anything to improve.

A leaflet recently released by the Texas Agricultural Extension Service, L-352, "Are You a Good Eater?" provides a standard by which we may measure our diet and eating habits. It lists the more important elements needed by the body and then gives food sources for each as well as some of the results of a deficiency in these foods.

Also contained in the leaflet is a Texas food standard by which

RAYBURN DEDICATES LIBRARY—Speaker of the House Sam Rayburn delivers the dedicatory address at the opening of his library at Bonham. Former President Harry S. Truman (front row right) was among dignitaries who attended the dedication of the building which will house Speaker Rayburn's mementoes.

## RAIL EMPLOYEES.

More than 1,000,000 American citizens are required to operate the American railroads. Together with their families, they constitute a group of some 3,500,000 persons—more than are in North and South Dakota, Montana, Idaho and Utah combined.

A person's diet may be planned to give proper nutrition.

This leaflet is available from local county home demonstration agents or from the Agricultural Information Office in College Station.

## ACCOMMODATING.

The tired clerk had pulled down blanket after blanket until only one was left on the shelf. Then the customer remarked:

"I don't really want to buy today. I was looking for a friend." "Well, madam," said the clerk, "I'll take down the last one if you think he's in it."

## POLICE INVITATION.

A sign in a butcher shop, directly over the sausage grinding machine, declared: "Go ahead. We don't mind you sticking your nose in our business."

## Tax Planning Works For Farmer and Big Corporation Alike

The time for farmers to read their tax instructions or the Farmers Tax Guide printed by the Internal Revenue Service is in the fall, reminds Tax Man Sam in a release to The Herald for Hamlin area farmers and ranchers. Tax planning works for a farmer on the same basis as it works for a big corporation.

The big corporation always knows how much tax a sale or trade will cost them. Unfortunately a lot of farmers do their income tax planning after the end of the tax year on December 31. When a farmer is selling his crops and buying his supplies for the next year it may make a big difference in the amount of taxes he pays whether he buys or sells in December instead of January. Selling a farm, selling timber or even dying requires a man to think about the tax problems he may create.

## Jack W. Rodgers, 88, Retired Farmer, Dies

Jack W. Rodgers, 88-year-old retired farmer of the Hamlin area, who had lived in Jones County since 1936, died Monday at 12:30 noon at the Starr Nursing Home in Merkel after a long illness.

Rodgers was born in Clarksville on February 15, 1869. He had farmed and ranched in several sections of the state. He had lived in Hamlin for the last two years.

Graveside services were conducted last Tuesday afternoon at 2:30 o'clock at the Melinda Cemetery, south of Hamlin. Officiating was Rev. M. E. Randolph, pastor of the Fairview Baptist Church, seven miles southeast of Hamlin. Mr. Rodgers had never married and there are no known survivors.

# R. B. SPENCER & COMPANY

Free Seedlings for Farmers of Area Again Available

Over 250,000 tree seedlings will be available to Central and West Texas land owners for windbreak plantings in early 1958. Don Young, head of the Forest Management Department of the Texas Forest Service, announced this today.

Land owners in critical areas could establish farmstead or field windbreaks to prevent wind erosion of their valuable top soil," Young said. Austrian pine, Ponderosa pine, live oak and red cedar will be available for the 1958 winter planting season. These seedlings, procured from the Oklahoma State nursery at Norman and Boyd's nursery at McMinnville, Tennessee, will be sold for \$3 per 100. The price includes the cost of packing to land owners. Application blanks for ordering seedlings can be procured from county agents and Soil Conservation District offices in the Central and West Texas area. In addition, forms are available upon request from the Director, Texas Forest Service, College Station.

Estimated Two from County Included in November Draft Call

An estimated two young men in Jones County will be included in the state quota for Texas draft boards in November. The state quota calls for 346 in Jones County. Colonel Morris S. Schwartz, selective service director, Friday, said the state's November call of compares with a quota of 338 in October and 387 for September. The November call is the state's share of a national call of 7,000 men. Colonel Schwartz said no men are scheduled to take pre-induction physical and mental examinations in November except possible transfers from other states. The November quota will be shared with men who are at least 18 years old on November 1, with a portion of volunteers or draftees who may be younger.

IT'S THE LAW IN TEXAS

A Public Service Feature of the State Bar of Texas  
(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

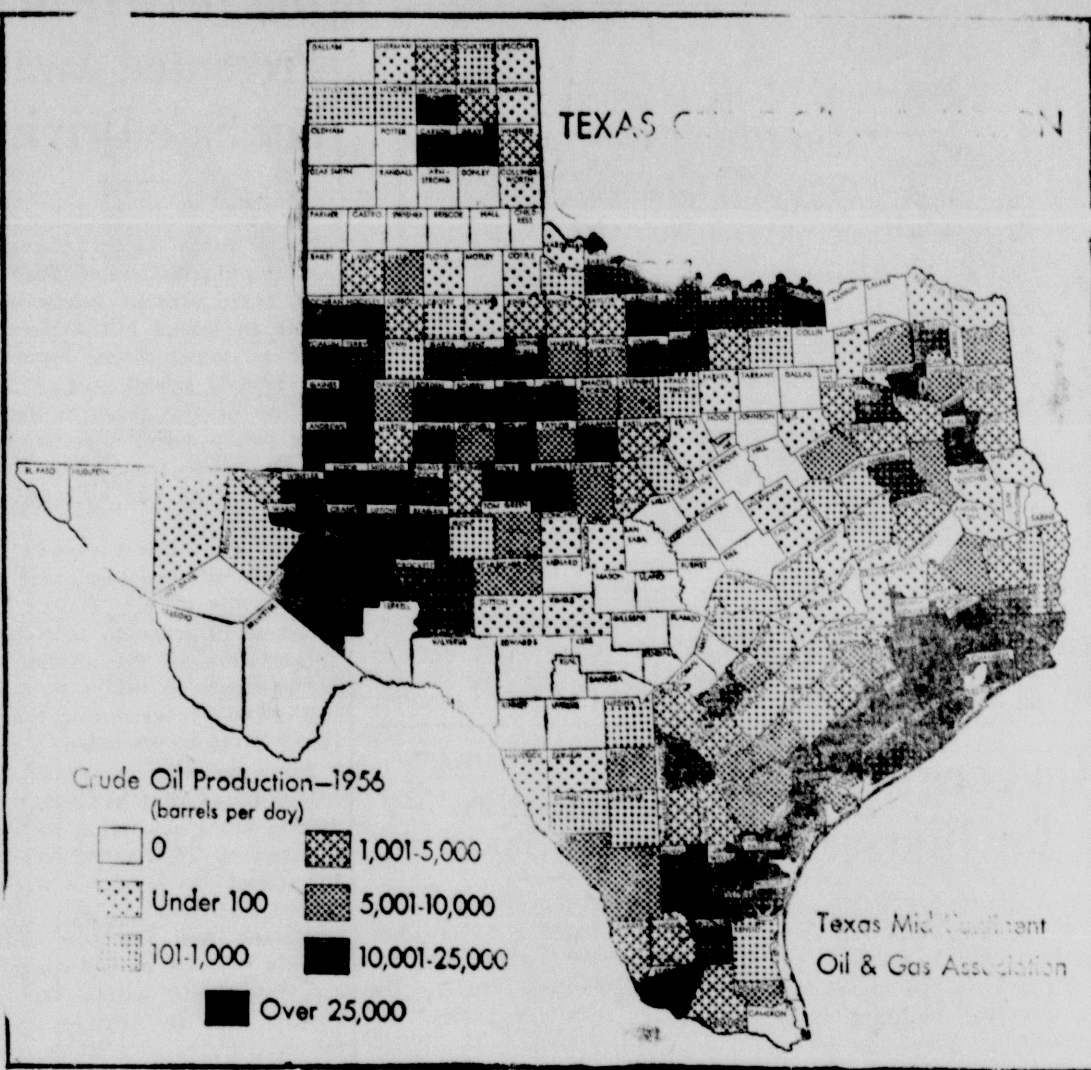

AGENCY, LAW EXPLAINED.

Suppose you that hire your neighbor's teen-age son, Jimmy, to cut your grass, and he runs your new mower into another neighbor's hedge. The hedge is ruined. Are you responsible for the damages? Quite likely you are. Or let us suppose that you find you need a loaf of bread for the evening meal. You ask a friend to take your car and run to the store for it. On the way, he runs down old Mr. Peabody, seriously injuring him. Can you be held responsible? It is possible that you can. In both instances an "agent" was acting for you. His acts while performing those duties are, in the eyes of the law, your acts. In legal terms, you are the "principal."

You may be liable despite the fact that you may have cautioned him to be extremely careful. The average individual expects to answer for his own actions. He does not usually consider that he may be responsible for the actions of other persons. That, however, is frequently the case. Suppose you ask another person to do something for you; that is, to act as your agent. You may pay him or he may be doing it without compensation. You may ask him to buy or sell property for you. Or, his responsibility may be to negotiate an agreement for you with a third person. If representations or warranties are made by your agent in performing the task which you assigned to him, you are responsible. In a like manner, you are responsible for the contract made by him while he was acting for you. You may be held responsible for the acts of a person who customarily represents you even though he entered into a contract for you without your consent or approval. For example, you may have a partner in a business, and you and he have agreed that certain contracts shall be made only upon the signature of both of you. Unknown to you and without your consent, your partner signs such a contract with a third person involving a partnership business. If the person with whom this contract is made has no knowledge of the terms of your partnership agreement, you are responsible for the contract which your partner has made. You may have agreed between you that neither of you would buy without the other's consent any items of merchandise costing more than \$50 total. You did not give this information to salesmen who called on you. In your absence on a Thursday afternoon your partner ordered merchandise for your store costing more than the \$50 limit. When the merchandise is delivered, you can not refuse to accept it because you can be bound by the contract of your partner. This is true in many situations, and the salesman is not bound by your partnership agreement because you did not advise him of the \$50 limitation. As the actions of your agent are considered to be your actions, you assume the responsibility of his doing them correctly.

Supt. Cook Named to Administrators' Post

C. F. Cook, superintendent of Hamlin Schools, recently has been named chairman of the bi-district Texas Association of School Administrators workshop section. He will help direct a program of guidance, physical education, reading, science, mathematics, school finances and pupil differences for the association in the region.

TEXAS CRUDE OIL PRODUCTION came from 194 counties during the 1956 fiscal year, according to this map by the Texas Mid-Continent Oil & Gas Association. Four counties produced gas only. Lipscomb County in the northeastern Panhandle broke into the production column for the first time, while Edwards County in Southwest Texas dropped out. Culberson County in far West Texas resumed production during the fiscal year after a year's absence. The Hamlin area is well represented in production.

Winter Peas and Vetch Planted Among Other Crops Will Help Enrich Soil

Farmers have an excellent opportunity to plant winter peas or vetch for soil improvement and cover in the blank rows in cotton and on maize and wheat fields that are not to be planted to wheat this fall, say officials of the Soil Conservation Service. Soil bank land also provides a good place for planting winter cover crops.

A vegetative cover on the land not only protects the soil surface from wind and water erosion, but the millions of small roots provide channels for water to enter the soil, states E. L. Cowger, soil conservationist, assisting the California Creek Soil Conservation District. The vegetative material, both on the surface and in the soil, also furnishes food for the small organisms that are necessary to give the soil real life.

Further Declines in Total Sunday School Attendance Recorded

Further decline in total attendance at Sunday Schools of the 13 reporting Hamlin churches was recorded Sunday. The 1,211 total was 33 less than the previous week and 144 below the year ago total.

Attendance, by churches, for October 13, October 6 and a year ago follows:

Churches—	Oct.	Oct. 6	Year Ago
Church of Christ.....	174	144	167
Assembly of God.....	40	40	50
United Pentecostal.....	19	19	16
Oak Gr. Col. Baptist.....	34	49	42
Sunset Baptist.....	53	53	45
Calvary Baptist.....	42	44	54
Foursquare Gospel.....	48	52	51
Faith Methodist.....	33	52	51
First Methodist.....	184	203	264
Mexican Baptist.....	43	45	49
First Baptist.....	381	387	403
No. Cen. Baptist.....	78	82	100
Ch. of Nazarene.....	82	86	83

Rates of seeding Austrian winter peas are suggested as follows: Eight to 10 pounds per acre in rows; 20 to 30 pounds per acre drilled alone; 15 to 20 pounds per acre drilled with small grain. Time of seeding, September 1 to November 1. Rates of seeding vetch: Three to seven pounds per acre in rows; 15 to 25 pounds per acre drilled alone; 10 to 15 pounds per acre drilled with small grain. Time of planting, September 1 to December 1.

"Your Home Town Paper"

THE WONDROUS YEARS OF OUR TIME...

Man's use of petroleum — of oil and natural gas — began before the first records of history. But petroleum's full usefulness to man has been a matter of decades only.

They have been wondrous years, those decades. Years that saw automobiles built by the millions because gasoline was available as a cheap source of power. Years that saw the oceans dwindle under the high speed of great ships powered by oil. Years that saw the evolution of a more comfortable living in homes warmed by oil and natural gas. Years that saw rubber, fibers, paints and many other useful items of everyday living produced from petroleum's hydrocarbons. Years that saw the earth shrink under the wings of the airplane, and great wars decided by the availability of oil.

Thus, the oil industry has led the way into the wondrous years of our time. The industry, through foresight, ingenuity, research, and risk-taking, has found and produced the oil required in greater quantity each year, has conserved

oil for the future, has devised the transportation systems that move oil economically, has built the refineries and plants that convert crude oil and natural gas to the hundreds of useful products needed by a growing United States.

The Humble Company, founded in 1917, has participated in petroleum's progress during four great decades, and has pioneered in the development of many current techniques for finding, producing and refining oil. This week, with the industry, Humble invites you to consider the variety and extent of oil's progress. . . Surely no other industry has contributed more to the making of modern America.

HUMBLE OIL & REFINING COMPANY

1917 Forty Years of Progress 1957

## District 17 Meet of Baptists Slated at Eastland Church

Several Hamlin area Baptists will be among attendants at the annual convention of District 17 of the Baptist General Convention of Texas which convenes at the First Baptist Church at Eastland Thursday and Friday of this week. Presiding officer will be Rev. Harvey Kimbler, president and host pastor.

The convention includes over 165 churches numbering 53,000 members in a 12-county area including Taylor, Nolan, Callahan, Eastland, Fisher, Jones, Shackelford, Stephens, Kent, Stonevall, Haskell and Knox. The first session will begin at 7:00 p. m. on Thursday (this evening).

The two days will be given to business and inspiration. Reports of accomplishments of the past year and plans for the future will be presented in each area of Baptist life. The theme, "Looking Ahead," will be featured.

Officers bringing reports and presenting plans include: Training Union director, Mrs. W. T. Gambill of Stamford; Sunday School superintendent, M. D. Rexrode of Haskell; Brotherhood president, Clifford Leddy of Abilene; Leaders Encampment president, Byron Bryant of Breckenridge; W. M. U. president, Mrs. George Graham of Abilene; District missions secretary, L. L. Trott of Abilene; evangelism chairman, C. G. Sewell of Merkel.

Rev. Kimbler is a native of Hamlin, having attended grade and high school in Hamlin. He moved to Abilene in 1938.

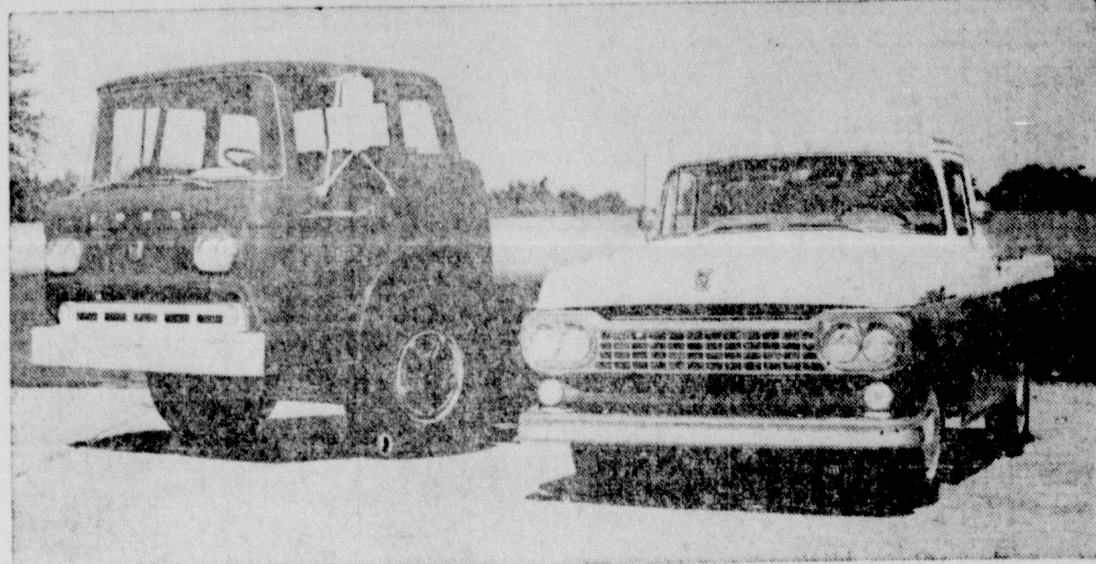

## Freight Carloadings For Santa Fe Decline

Freight carloadings for the Santa Fe Railway System for the week ending October 5, 1957, were 24,527 compared with 23,836 for the same week in 1956, reflecting an increase from a year ago. Cars moved from connections totaled 24,527 compared with 23,836 for the same week in 1956, also a decline.

Total cars moved were 87,712 compared with 40,564 for the same week in 1956. Santa Fe handled a total of 34,045 cars in the preceding week this year.

## If You Need a JEWELER'S SERVICE

See  
**Knabel Jewelers**  
238 South Central Avenue  
Hamlin, Texas

FORD TRUCKS which led the industry in retail sales for 1957 will offer in 1958 the widest coverage of any manufacturer in the volume truck market. The wide range of utility and work capacity is demonstrated by the powerful tilt-cab (left) and the spectacularly successful Styleside pick-up. Mechanical and design advances include new grilles and safety dual headlights, customized interiors and modern styling, and increased horsepower and payload capacity in many models. The new models are on display at Hamlin Motor Company.

## Proper Eating Habits Go Long Way in Helping Build Defense for Illnesses

Your general state of health can be a first line of defense against illness, particularly now that the season of infectious diseases is here, Hamlin area people are reminded this week by Dr. Henry A. Holle, commissioner of the Texas State Department of Health.

Resistance to complications of colds, "flu" and other illnesses is influenced by how you eat, sleep, exercise and relax before you get sick.

Food means different things to different people, but the net effect is the same: Food not only supplies energy to the human machine but also provides building materials to renew body tissues.

Good nutrition is largely a matter of getting enough of the right foods. And since this is true, it is a good idea to take a look at your eating habits. Your regular diet should be built around:

A daily serving of meat or fish, about four eggs a week, some cheese, at least two glasses of milk daily, two daily servings of raw or slightly cooked green or yellow vegetables, two servings of fruit, and some potatoes, bread or other grain products.

Desserts, candy and beverages such as soft drinks and coffee are not essentials, but they are sometimes pleasant additions.

Other items in your diet can be as extensive or as limited as you wish, provided you watch for "spoon-in-the-mouth diseases" that lead to overweight.

One fact about food that cannot be over-emphasized is the value of a good breakfast. And a coffee break isn't breakfast. Many people find the demands of their job in home or office takes so much out of them they feel all used up at the end of the day. This is apt to be literally true,

especially if breakfast has been bypassed.

Many times an "all gone" feeling in the late morning comes about like this: When you get up in the morning you've been without food for a good many hours. Yet you may not experience a feeling of hunger. You seem to get along for a few hours on a sub-standard breakfast, but about 11:00 o'clock you can't wait for lunch. Errors in your work are most apt to happen at this time.

To forestall fatigue, to reduce errors, to assure yourself of a steady level of health, fortify yourself with a sure combination—a good night of sleep and a really basic breakfast, such as fruit, toast, eggs, cereal and milk. If you can't eat breakfast through lack of appetite, start now to cultivate the habit of a good morning meal and soon you'll find you can't do without it.

Remember, too, as you review your eating habits to take a look at your ways of eating as well. The relaxed, pleasant meal . . . tempting and colorful dishes . . . quiet conversation are all tools for better health.

### IT WAS GOOD TRY.

During a geography class the teacher asked: "Willie, can you name the principal river of Egypt?"

"It's the Nile, ma'am," Willie said.

"That's right. Now can you tell me the names of some of the smaller tributaries?"

Willie hesitated, then smiled. "The juveniles?"

### A LITTLE OVERSIZE.

Mr. X—"Why didn't you tell me we were buying chandeliers?"

Mrs. X—"Don't be silly—those are my new ear-rings."

## First Baptist WMS Groups Meet in Circles for Study

Members of the Woman's Missionary Society of the First Baptist Church met in circles Monday afternoon for Bible study. The lesson was from the book, "Soul Winning Experiences in the Bible." Subject of the lesson was "The Jewish Maid."

The Littleton Circle met with Mrs. A. H. Trotter. Mrs. Bowen Pope taught the lesson. Those present were Mmes. Bowen Pope, S. C. Ferguson Sr., L. A. Joiner, L. E. Prewitt and the hostess.

The Locket Circle met with Mrs. W. A. Albritton. Mrs. W. V. Walton taught the lesson. Those present were Mmes. James Fitzgerald, W. S. Graham, Tom Routh, Bill Shira, A. Spencer, W. V. Walton, Aaron Wells and the hostess. Mrs. Labrand was a visitor.

The Lois Glass Circle met with Mrs. Charles Lovell. Mrs. LaFoy Patterson taught the lesson. Those present were Mmes. I. D. Miller, LaFoy Patterson, E. B. Watson, Edgar Duncan, Neil Laminack, and the hostess.

The Mae Davis Circle met with Mrs. Cecil Sellers. Mrs. J. C. Greenway taught the lesson. Attendees were Mmes. J. C. Greenway, A. F. Dixon, Johnnie Hines, Esther Carmichael, R. C. Ritchey, H. S. Stovall, Jack Collins and the hostess.

The Nannie David Circle met with Mrs. Charlie Abbott. Mrs. L. B. Shelburne taught the lesson. Those present were Mmes. Orbie Fannin, Clyde Grace, Vernon Sharer, Mattie Bruner, W. L. Boyd, L. B. Shelburne, Bill Harbert and the hostess.

## Fashion Designers Call for Stockings in Colors for This Fall

This fall fashion designers are talking a lot about the "one color" look. This means everything should be the same color—hat, dress, handbag, gloves, shoes—even the stockings.

To stocking manufacturers, who have been trying for years to find a way to persuade women to buy a wardrobe of stockings, this is great news.

Further to do about shorter skirts pleases the hosiery makers even more. If women are going to be showing more leg, and if the leg must match the dress, the inevitable result is that women are going to be buying a lot more stockings.

So this fall you'll be seeing nylons in every color of the rainbow. For daytime wear the colors are discreet, giving just a hint of tint on the leg. But for evening wear brilliant jewel-toned stockings are going to be all over the place—with shoes to match. Colors available at present include ruby, sapphire, emerald, amethyst, garnet and topaz. And there are even iridescent stockings in pastel or deep toned changeable colors.

Most popular for daytime wear will be the fur colors, to match the important fur accessories of the season. The tones, in soft beiges, browns and taupes, have fur names: Golden sable, honey sable, red fox, nutria, mink, black mink and—for an iridescent stocking—leopard.

Excalibur was the name of the famous mystic sword of King Arthur.

## Bus Drivers to Be Presented Awards For Safe Driving

J. O. Musick, general manager of the Texas Safety Association, announced this week that TSA will again present safety certificates to school bus drivers who hold an accident-free record for the 1956-57 school year.

"One of the primary purposes of a public safety organization is to recognize the safety accomplishments of our citizens," Musick explained.

"The school bus drivers in Texas have one of the finest safe driving records of any state. Thus, it seems in order to show public appreciation for the efficient and safe manner in which they completed their tasks during the past year," Musick concluded.

Texas operates more than 8,000 school buses that average a half million miles of driving each day. Records of TSA show less than 300 school bus accidents were recorded last year.

Musick said the safe driving awards will be mailed to school superintendents within the next Hamlin will be eligible for the certificates in most cases will be made during a school's general assembly. Several bus drivers at Hamlin will be eligible for the awards.

## Greenhands Initiated By FFA Group at Monday Gathering

Twenty new Greenhands were initiated into the chapter when the Hamlin Future Farmers of America unit met last Monday night at the vocational agriculture building.

The Greenhands are Bob Murff, David Bonds, Craig Hester, Clyde Hodnett, George Deel, John Ed Scott, Henry O'Neal, Wesley Cummings, Peanut Boatwright, Jody Ford, Melburn Crawford, Norman Cranford, Ray Johnson, Gerald McCanlies, Cecil Robinson, Bobby Ellison, Robert Rangel, Rowland Rivera, Phil Smith and Gary Williams.

The 45 members present also nominated the FFA sweetheart for the 1957-58 school year. The girl who won this honor will be announced later. The meeting was closed with the regular closing ceremony.

TEXAS HANDICAPPED PERSON OF THE YEAR—Barney Capshaw (left) was presented the Texas Handicapped Person of the Year award by Governor Price Daniel at Austin. Capshaw, of Fort Worth, lost a leg 10 years ago in a head-on collision between two locomotives.

## Land Commissioner Says Market for Land Type Bond Improves

Land Commissioner Earl Rudder noted at Austin Friday that the bond market seems to be growing more favorable for the sale of some part of \$100,000,000 of veterans' land bonds. Several Hamlin area veterans have been interested in buying lands through the program when it can be financed.

The bonds were offered for sale in May by the Veterans' Land Board. No bids were received. "The average interest rate on bonds of our type was 3.50 per cent this week," Commissioner Rudder said. "The market has got to go down a long way yet," he added. The average interest rate on the market was 3.57 per cent several weeks ago.

The state constitution says the Veterans' Land Board can pay no more than three per cent interest on its bonds.

"One of two things must happen before we can sell our bonds," Commissioner Rudder said: 1. The constitution must be amended so that more interest can be paid; or 2. Bond market interest rates must drop considerably."

What this world needs is theories that are non-explosive.

Lightweight, yet powerful enough to handle heavy mixing jobs. Larger, full-mix beaters. Thumb-tip control of six mixer speeds and beater ejector. Available in white, chrome, yellow, pink, turquoise.

"I'm cooking dinner with my CLEAN, AUTOMATIC Electric RANGE"

and nothing is as COOL, FAST and SAFE as Electric Cooking—

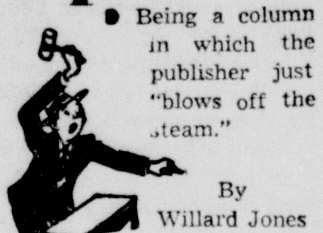

As this modern kitchen clearly shows, today's trend is to electricity. And perhaps the best example of this is the electric range. Smart looking, convenient. Insulated on all 6 sides (as are all electric ovens) you get even, steady heat for baking and broiling. No guesswork with electric surface units either. The heat you set is yours automatically every time. And the heat goes directly into the bottom of the pan, not up the sides and into your kitchen.

But the thing you'll appreciate most is the way your electric range stays modern—year after year.

By Willard Jones

AN ANSON YOUNG MAN, calling the other evening on a Hamlin girl friend, is reported to have been met at the door after he rang the doorbell by the girl's father.

"Is Geraldine at home?" the young fellow asked the dad.

"She's 'round at the rear," replied the man.

"Yes, I know, said the Anson lad, "but is she home?"

R. H. McCURDY, long time resident of West Texas who has been connected with the cotton business most of his life, is a go-getter and believes his admitted age of three score and ten years.

His erstwhile position is manager of the Western Compress & Storage Company at Hamlin, and his employers say he is a wheel-horse for work.

Moreover, his wife declares he is a wheel-horse or something to that effect. McCurdy declares that his wife recently told him that she knew very well what he would say when his final summons comes. She said he must grab his hat and start for the door with these words:

"Wait a minute, Lord; I've got to run out to the compress!"

A FELLOW reminded us the other day that, in case we didn't know it, we are now observing Lessons in Truth Week. He said special classes are being held for golfers, fishermen and politicians.

LEISURE is a wonderful thing, but so many of us use it to advantage. We are too busy to miss the things too much of the time.

M. Davies writes these lines in support of using our leisure to love ourselves and others:

It is this life if, full of care, we have no time to stand and stare.

No time to stand beneath the boughs

And stare as long as sheep or cows.

No time to see, when woods we pass,

Where squirrels hide their nuts in grass.

No time to see, in broad daylight,

Streams full of stars, like stars at night.

No time to turn at Beauty's glance

And watch her feet, how they can dance.

No time to wait till her mouth can Enrich that smile her eyes began.

A poor life this if, full of care, we have no time to stand and stare!

WE PICKED UP these daffynitions the other day from a civic club magazine:

A Smile: A curve that can set a lot of things straight.

Artist's Model: A girl who barely makes a living.

Hobby: Something you get goofy about to keep from going nuts about things in general.

Egotist: A conceited fool who thinks he knows as much as you do.

GOVERNOR KEEPS PROMISE—Governor Price Daniel is welcomed to the pulpit of the First Covenant Church in Dallas by the pastor, Dr. J. A. Lovell, thus fulfilling a promise made some 30 years ago. When they were high school chums in Fort Worth, Daniel vowed he would some day be governor, and Lovell said he wanted to be a preacher, and would like the governor to speak at his church. Daniel promised he would if their dreams were realized. The governor of Texas delivered the morning message to the congregation of Dr. Lovell's church.

## Rains Keep Cotton Pickers from Fields

Cotton pulling in the Hamlin territory has taken a terrible setback in recent days because of the rains and muddy fields, and farmers are becoming concerned about the quality and quantity of their harvest.

On top of the rains that the first of last week totaled from two to four inches in the region, and kept cotton pickers out of the fields most of last week, more rains came Sunday and Monday of this week to further stifle the harvesting. Drizzles Tuesday and

until press time Wednesday at noon still were keeping pickers out of the fields.

Rains first of this week averaged about an inch in the Hamlin territory, which brought the year's total to nearly 21 inches, which is two inches more than the average annual rainfall for this area.

Cotton quality had begun to improve, say ginner, from the first that was brought in, which had been graded down by classes because of bad spots. The down-grading had caused penalties of from one to three cents per pound because of the grading.

Although prospects are for a bumper crop in the territory, the supply of labor continued to hold up fairly well. Some farmers, however, plan to use mechanical pickers late in the season after frost or chemicals cause the leaves to fall from the stalks.

## Revival Services at Church of Nazarene Run Through Sunday

Revival services at the Church of the Nazarene will continue through Sunday, reminds Rev. Bill Hanna, pastor. Good crowds have been attending the services which began last week.

Rev. Milton Poole of Lubbock is guest evangelist. Special activities this week included Sunday School Night on Tuesday and Church Members Night on Wednesday. Friday night has been designated Homecoming Night, and services will begin at 6:30 to allow persons time for the service to attend the high school activities. Saturday night has been set aside as Youth Night.

Sunda plans include a high attendance in Sunday School. The public is invited to attend these services, says the pastor.

## Mumps Reported in Hamlin Community

In addition to scores of cases of the flu of several types that have been making the community in recent weeks, now come reports of the mumps in the Hamlin territory.

Several cases of the "big jaw" were reported over the week-end, according to doctors and others.

The flu epidemic seems to be somewhat alleviated from its wide incidence of two or three weeks ago.

## Superintendent of Schools C. F. Cook Gives Welcome to Homecoming Exes

Hamlin Schools are cooperating in every way with the Hamlin High School Ex-Students Association to help make the third annual homecoming a success, declares Superintendent of Schools C. F. Cook, who says things are in readiness to entertain hundreds of exes as they come "back home" to the schools.

Cook declares that all facilities of the school will be open for visit and inspection by the scores of former students who may want to go back to their former classrooms or to visit the new school buildings that have replaced older units that were in use when many were in class in Hamlin.

Superintendent Cook makes the following statement:

It is again my sincere pleasure to say "Welcome" to all the ex-students and faculty of Hamlin High School. The entire faculty of the school joins me in this welcome.

It has been a thrill for the past two years to see the homecoming of all exes. It makes us feel

humble to see all of you return to Hamlin and take part in this event. We want you to feel at home, and if there is anything we can do to make your visit more pleasant please call on us.

The leaders of the Ex-Student Association are to be commended for their fine efforts and accomplishments.

I would especially like to welcome all former teachers and administrators to the homecoming. What success we have these years is due to the hard and diligent work that these predecessors have done. The foundation that you laid are what we can build on in years to come.

It is our most earnest desire that you have another good homecoming this year. We hope that we can have a small part in making this one the best, and we pledge our efforts to you. I hope that you can always say, "I am proud to be an ex of Hamlin High School." I can say it is great to be the superintendent of the Hamlin Schools.

## Town Decorates With Welcomes And Old Pictures

Hamlin community has been all a-buzz for several days with preparations for the third annual Hamlin High School ex-student homecoming that convenes Friday and Saturday.

Store fronts have been decorated with welcoming signs for ex-students. Several empty store buildings have been decorated with greetings, and numerous pictures and stories of former school students and buildings remind one of art galleries in many of the stores.

Many combined hours of time have already been spent by citizens of the territory in examining the pictures that have brought to mind the good old school days of the past 50 years at Hamlin.

Hamlin Schools were established in 1906 shortly after the town came into being following construction of the Orient Railway (now the Santa Fe) into the area.

Business men and civic and women's clubs are cooperating with the sponsoring Hamlin Ex-Students Association in arrangements for the homecoming.

Business houses will be represented at most of the festivities of the gathering, and special invitations have been extended to the business firms to send representatives to the noon barbecue Saturday at the high school gymnasium.

## J. P. Maberry Well at Sylvester Good for 210 Barrels of Oil

William D. Austin et al of Abilene has completed its No. 1 J. P. Maberry test, one mile south of Sylvester in Fisher County, south-west of Hamlin. It is three-eighths of a mile west of the nearest well in the Sylvester (Goen) Field. Site is in Lot 56 of Bastrop County School Lands Survey.

No. 1 Maberry had an eight-hour potential of 210 barrels of 52-gravity oil. Flow was through on 18-64 inch choke with 700 pounds casing and 600 pounds tubing pressures and from 100 perforations at 5,340-50 feet. Casing is set at 5,414 feet, and the hole bottomed at 5,416 feet. Gas-oil ratio was 500 to one.

## Primary Pupils Taken For Fire Truck Rides

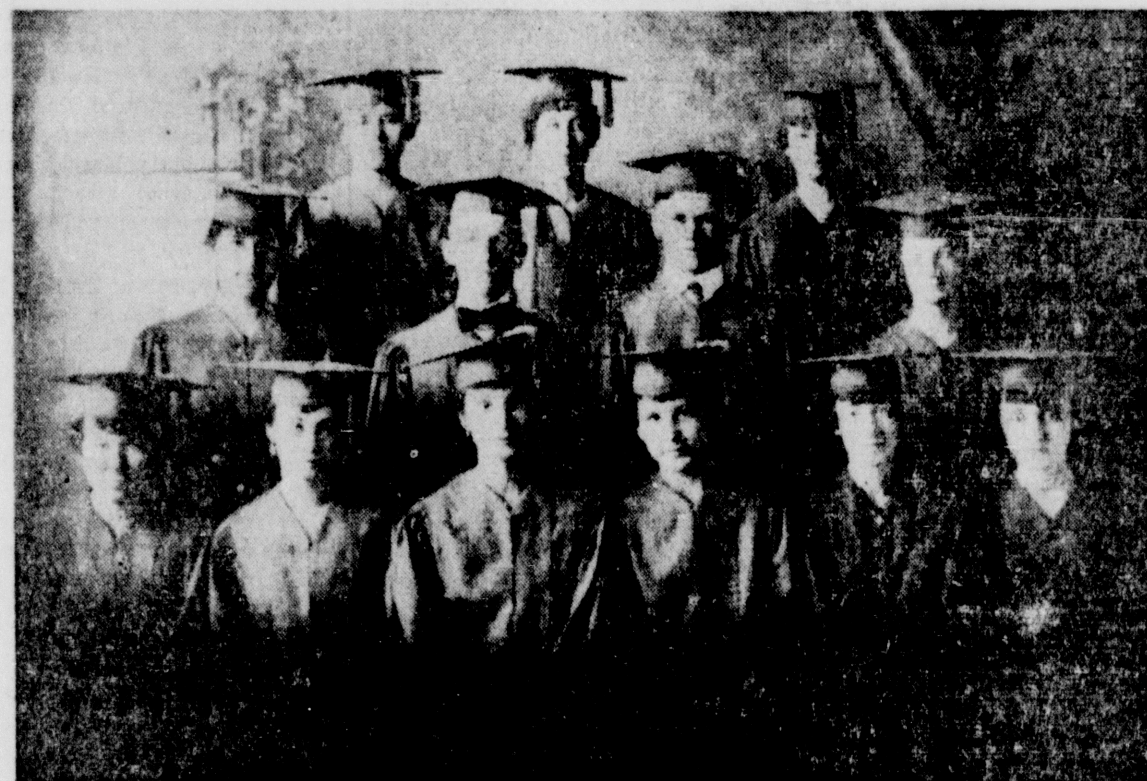

Students and teachers of the Hamlin Primary School were treated to rides on fire trucks last Friday afternoon by Ed Branscum and Othell Murphree, members of the Volunteer Fire Department. The rides were features for the children of observance of Fire Prevention Week.

The children were taken a room at a time on rides around the school area. Teachers ask The Herald to express appreciation to the firemen for the treat.

COX AND WIFE AT TRIAL—Former State Representative James E. Cox chats with his wife in district court at Austin where he is on trial accused of agreeing to accept a bribe.

# Hundreds of Ex-Students Due Here at Homecoming

FIRST CAPS AND GOWNS were used by graduates of Hamlin High School in 1918 when the above picture was made. Members of the class were: Back row (left to right): Vera Noble Schrimsher, Miss Earl Underwood and Jennie Barnett Moore; second row (left to right): Myrtle Bates Weatherby, Carl Holden, Basil Teague and Fannie Mae Boyd Harrell; bottom row (left to right): Chlorene Vaughan Harwood, Inez Fletcher McWilliams, Verda Salmon Reynolds, Vencie Bowen Walton, Florene Darden Miller and Emma Harris.

## Over 100 in Area Already Signed For Get-Together

Hamlin will be host this week-end to hundreds of former students of Hamlin High School as the third annual homecoming of exes is staged Friday and Saturday. The event is being sponsored by the Hamlin Ex-Students Association.

Everything is in readiness to entertain the homecomers, who will begin registering at 3:30 o'clock Friday afternoon at the downtown headquarters in the former city hall, established by members of the Hamlin Business and Professional Women's Club.

More than 100 ex-students of the Hamlin territory had registered for the gathering at mid-week, reports Joe Ford, president of the Ex-Students Association.

Highlight of the Friday festivities will be the football game at 7:30 between the Hamlin Pled Pipers and the Albany Lions at Pled Piper stadium. Between halves a Homecoming Queen will be crowned.

Following the game a coffee and get-together will be conducted at the new high school gymnasium.

All Hamlin High School students and their dates are invited to the lawn of the First Baptist Church after the game Friday night for a program of out-of-town entertainment and singing. Refreshments will be served by women of the church.

Saturday morning's homecoming activities will continue with business sessions and class meetings at the high school auditorium. A barbecue will be given for attendants at noon at the gymnasium. Business men of the town who are not necessarily ex-students of the school are invited to attend the barbecue.

## Organization Meet For Heart Group Slated Thursday

Organization meeting for a Jones County Heart Association will be held this (Thursday) evening in the district court room of the county courthouse at Anson, leaders in the movement have announced. The meeting is set for 7:30 o'clock.

Orville Tolbert, state organizer, will be present for the session to assist in organization plans.

Representatives from civic and women's clubs and other organizations in Hamlin are being urged to attend the session. The public, of course, is invited to attend and participate in the organization.

Hamlin people interested in the efforts to promote more concern and education on heart disease point out that this malady is the leading cause of death below the age of 65 in the United States, yet little united action is being taken to study and provide means of avoiding many of these deaths.

More people die each year in the United States of heart disease than from the next most prevalent cause of death, cancer. Total of 232,750 people died in 1954 (latest available figures) from heart disease compared with 113,360 from cancer. Accidents accounted for 66,010 deaths, pneumonia caused 20,060 deaths, 12,340 committed suicide and 11,540 died of cirrhosis of the liver.

Moreover, below the age of 65, deaths from diseases of the heart and blood vessels exceeded the combined total from the next five causes in the same age group, it is declared.

Following the organization of a Jones County Heart Association it is planned to conduct a financial drive to raise funds for work of education and research. Eighty per cent of the funds so raised will remain in the county.

Principle is an opinion that has stood the test of time.

# No Trace Found of Pair Who Robbed Woman of Big Roll

## Rev. Victor Ortiz Made Chaplain by Westex Firemen

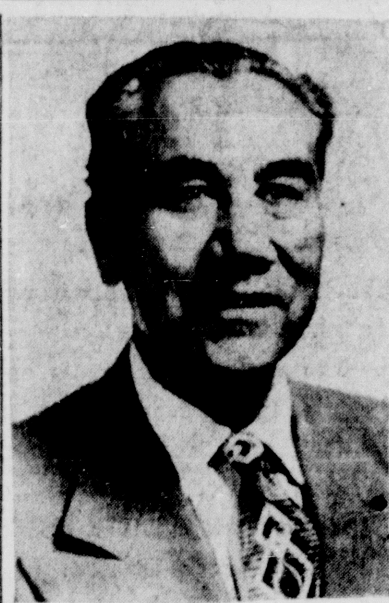

Rev. Victor Ortiz, pastor of the Mexican Baptist Church in Hamlin, was elected chaplain of the West Texas Firemen's Association which met last Thursday in semi-annual convention at Hamlin. He has been chaplain of the Hamlin Volunteer Fire Department for two years. Rev. Ortiz succeeds Dr. Lawrence Hayes, former pastor of the Rotan First Baptist Church, who recently resigned and moved to Lubbock.

Semi-annual program sessions of the firemen's group were held last Thursday afternoon at the Ferguson Theater, with WTFA President Bill Brown of Snyder presiding. Regular officers of the association are named at the fall convention of the group.

Chief O. A. Kimbrough of the Dyess Air Force Base at Abilene was the principal speaker at the session Thursday afternoon.

In the races conducted Thursday afternoon as a big feature of the meeting, Haskell firemen won in the pumper race with a time of 21.5 seconds. Snyder won the six-man hook-up in 12.9 seconds. Rotan was first in the two-man hook-up with 13.1 seconds.

A barbecue supper was served to about 300 attendants Thursday at 6:00 o'clock at the City Park. A dance that evening at the L. R. Witt cabins at Hamlin West Lake climaxed the day's activities.

NEW CHAPLAIN of the West Texas Firemen's Association is Rev. Victor Ortiz (above) pastor of the Mexican Baptist Church in Hamlin. He was elevated to the post last Thursday in business sessions of the firemen's semi-annual meeting held at Hamlin. He succeeds Dr. Lawrence Hayes, former pastor at Rotan, who recently moved to Lubbock.

## Good Results Had on Band Fund Campaign

Good results are reported from the annual fund raising campaign for the Hamlin High School Pled Piper Band that was conducted Saturday, according to Mac Fullerton, director.

Deviating from the usual routine of selling candy, the band this year organized a bottle drive. The band students were divided into groups of four, each group canvassing an assigned district.

It was impossible to cover the city completely, and for those who did not have a chance to make a donation, the band is still accepting donations of milk and soda pop bottles. Donations may be taken to the band hall, Fullerton says.

## North Jones County Singing Set Sunday

Several special singing groups are expected at the regular North Jones County singing convention Sunday afternoon at the Assembly of God Church, near the McCaulley Y in South Hamlin.

Singing will get underway at 2:00 o'clock. Everyone is invited to attend.

About 20 miles wide, the Strait of Dover is the narrowest part of the English Channel.

## \$514 Taken from Negro Who Had Just Drawn Cash

No trace of the negro man and woman who Monday afternoon snatched a money clip containing \$514 from a Hamlin colored woman had been found Wednesday morning, according to Chief of Police E. B. (Buddy) Watson.

Area officers had been alerted to be on the look-out for the pair shortly after the robbery about 2:30 p. m. at the rear of the Farmers & Merchants National Bank.

Losser of the money was Mrs. Lenora Brown, about 60, of Route 4, Hamlin. She had gone to the bank Monday afternoon to withdraw the \$514 from her account to pay for adding a room to her house, according to her report to the police chief. She said she walked to the alley back of the bank and was putting the money in her purse when another negro woman snatched it from her and disappeared down the alley north of the bank. She was joined by a negro man, Mrs. Smith reported, as she fled.

Mrs. Smith reported that she had first met the younger woman inside the bank when the stranger engaged her in conversation. The woman then left the bank and apparently lay in wait outside.

Chief Watson declared that the thieves probably were professionals, as they apparently were not known here. The women taking the money was described as light complexioned, tall, slender, wearing a checked dress and plaid coat.

Mrs. Smith said the \$514 represented a large part of her bank savings. When asked why she did not use a check to pay her bill at a local lumber yard, she declared she did not know.

## Fifty-Two Study Club Sets Chili Feed Friday

As a service to attendants at the third annual Hamlin High School homecoming this week-end and to others who may want to "celebrate" by eating out before the Hamlin-Albany football game, members of the Fifty-Two Study Club are staging a chili supper tomorrow (Friday) evening at the high school cafeteria. Serving hours will be from 5:00 till 7:00 o'clock. Price of the supper is 75 cents per person.

Net proceeds from the supper will be used by the club to apply on a college scholarship for a colored girl, club officials said.

## WATER BONDS MERIT EVERY VOTER'S SUPPORT

There is not a man, woman or child in Texas but who has been adversely affected in some degree or other by the protracted drought conditions of the last eight years.

The underground water table, which supplies many scores of community water systems and is depended on by a large population rural area for their water needs has been deeply affected by the impact of the long-time drought and failure of needed replenishment.

The story of the drought, broken for a time by this spring's record rains, is a story of many millions of loss to the Texas economy on which every Texan depends. It has been tragic for farmers and raisers of livestock. It has cost inconvenience and hardship to many hundreds of thousands in cities and smaller communities which have had to resort to water rationing, or have had to have water hauled in from other places to meet the simplest wants.

Many Texans long have been deeply concerned over water, which they well know is the No. 1 problem of this, the nation's largest, state.

Industrial development has been affected by dearth of water, and several large industries of the state have faced an emergency which meant last year that for a time they were threatened by having to close down when supplies were reduced to weeks, even days. Only the arrival of long delayed, but dependable rains, enabled them to keep going, and keep an unestimated number of personnel on the job instead of being forced out of work.

## High Living Costs Problem

There is no doubt that the high cost of living is our major domestic problem.

There may be times and circumstances in which our people benefit by a tightening of credit policies. But as an "anti-inflation" move for the present, "tight money" has been a miserable failure.

Tight money has increased the federal, state and local tax burden. Tight money has denied needed credit to small businessmen. Tight money has added to the troubles of our farmers. Tight money has lowered the value of the dollar for the borrower, and increased the value of the dollar for the lender.

But one thing it has not done is to lower the weekly grocery bills of our people.

Our national representatives in Washington predict the Congress will refuse to go along with any efforts by the administration to raise legal interest rates and make the present "tight" money market any tighter. And there will be a strong effort to lower those which have already been raised.

The Congress will insist on a strong and broadly based program to achieve stable living costs in contrast to the administration's policy of putting all of its eggs in the tight money basket.

## God Has a Hand

Bird lovers should note this with special interest. It is really educational. A Connecticut lady called in an expert ornithologist to help her identify a bird whose strange cry she had been unable to identify. The learned gentleman plodded hopefully to the indicated spot, where a landscaping project was in process, and listened intently. Then he came back and reported. The bulldozer on the job was in need of oil.

Two reporters were on a tour of a new telephone building. As they viewed the maze of equipment, one of them was intrigued on observing a small bowl in the midst of all the ingenious mechanisms. It was filled with water, wherein a pair of goldfish swam. "What is that for?" the curious newsman asked. "That," replied his companion, "was probably put there to remind mortals that some very wonderful things were also invented by God."

Water scarcity has a direct effect on many kinds of jobs and the continued employment of those holding them.

Next November 5 the voters of Texas will have an opportunity to make a vital decision, that of passing the \$200,000,000 bond issue amendment submitted by the last Legislature for the development and conservation of the state's water resources.

It involves a plan, to assist communities and districts otherwise unable to finance a program of their own.

The bond issue will be painless. The money will be repaid in easy stages as the work of constructing projects proceeds, the last 10 per cent of these jurisdictional obligations to be paid back on certification by the State Board of Water Engineers that the work is completed and is satisfactory.

We think every qualified voter of Texas should support this measure which, after more than a score of years of talking about it and agreeing that the problem ranks as the No. 1 Texas problem, now is being submitted in a form that deserves the support of everyone aware that unless this opportunity is seized it is possible for a drought, going even deeper than the one we have gone through and may continue to go through, to create havoc with the state's economy.

Development of the Double Mountain Fork of the Brazos River north of Hamlin could be included in projects to be financed by the bond issue. Hamlin area residents are reminded. This plan has been declared feasible by engineers.

## Words of Wisdom

Secrecy—How can we expect another to keep our secret if we cannot keep it ourselves?—La Rochefoucauld.

Opportunity—There sometimes wants only a stroke of fortune to discover numberless latent good or bad qualities, which would otherwise have been eternally concealed; as words written with a certain liquor appear only when applied to the fire.—Greville.

Consciousness—Two men look out through the same bars: One sees the mud, the one the stars.—Frederick Langbridge.

## How Much Worry?

Some careful observer of life has constructed a "Worry Table." He has classified various types of worries, and through considerable research has determined which are most popular among the large number of professional worriers:

1. Worry about disasters which, as later events proved, never happened—40 per cent.
2. Worry about decisions in the past that cannot be recalled or remedied—30 per cent.
3. Worry about possible sickness that never came—12 per cent.
4. Worries about children and friends—10 per cent.
5. Worries that have a real foundation—8 per cent.

## Editorial of the Week

### WATER PROBLEMS JUST STARTING

The scientist from Colorado who two years ago predicted the current break in the long drought over the Great Plains believes that an even more intense period of drought may grip the same area in three to six years.

"We are likely to see the conditions that caused the American desert occur again," according to Dr. Walter Orr Roberts, director of the high altitude observatory at the University of Colorado.

Not wishing to be considered a "sensational" forecaster, Dr. Roberts emphasizes that both this prognostication and the prediction of two years ago are based on an unproved theory that the sun's activities have an effect on the earth's weather.—Texas Professional Engineer.

## RECALLING Other Years

★ Being news items taken from old files of Your Home - Town Newspaper, The Herald.

### TWENTY YEARS AGO.

Goings-on in the Hamlin community 20 years ago are reflected in the following news briefs, reproduced from the issue of The Hamlin Herald dated October 15, 1937:

Albany Lions took the third football game of the season Friday night from the Hamlin High School Pled Pipers by a 27 to 0 score.

Mrs. A. G. Hudson and daughter, Pearl Hudson, Mr. and Mrs. A. Hudson and John Hudson visited Mr. and Mrs. Cling Hudson and family at Cross Plains Sunday.

Freshman class at Hamlin High School was organized this week. Officers named were: Donald Cherry, president; Harold Fleethor, vice president; Charlotte Dillingham, secretary; and Glen D. Adkins, reporter.

Coy Magee, son of Dr. and Mrs. L. S. Magee of Hamlin, and Dorothy Marie Coe of Stamford were married Saturday night at Stamford.

Stennis Brown of Breckenridge is the new man at Reynolds Drug Store.

Mr. and Mrs. T. A. Hicks of Wichita Falls were guests Sunday and Monday in the home of Mr. and Mrs. Bowen Pope.

### TEN YEARS AGO.

Among items of interest in the Hamlin area 10 years ago were the following, taken from the issue of The Hamlin Herald dated October 17, 1947:

Hamlin's Pled Pipers face the Stamford Bulldogs tonight in a crucial football game, being the underdogs to the bigger Stamford crew. The Pipers last Friday lost to the Throckmorton Greyhounds by a 38 to 6 score.

For the first time in the bank's history, deposits at the Farmers & Merchants National Bank this week topped the \$4,000,000 mark, officials of the institution report.

Opening of The Style Mart, a new business for Hamlin, is announced this week by Pearl Hudson, Mrs. W. C. Matchett and Mrs. A. Hudson, owners of the concern.

Dr. J. F. Hocott will head the staff of the new Hamlin Memorial Hospital, it was announced this week by members of the board of directors of the hospital association. The institution is slated to be opened before Christmas, it is announced.

Hamlin Rotary and Lions Club have voted to each furnish a room at the new Hamlin Memorial Hospital. The VFW post also has voted to furnish the lobby.

### FIVE YEARS AGO.

Local happenings in the Hamlin territory five years ago included the following condensed from the issue of The Hamlin Herald dated October 17, 1952:

Cotton ginnings for Jones County prior to October 1 totaled only 349 bales, according to the latest government report.

Harold E. Austin, private first class in the Army, formerly of McCaulley, has been reported wounded in action in Korea.

Officers and directors of the Hamlin Memorial Hospital Association were reelected Sunday at the annual stockholders' meeting at the high school auditorium. Good condition was reported in the financial statement of the organization.

Street paving and recreational facilities for the City of Hamlin head the list of projects submitted in the Chamber of Commerce program of work clinic conducted last week.

### ONE YEAR AGO.

Of interest in the Hamlin community a year ago were the news briefs below, reprinted from the issue of The Hamlin Herald dated October 18, 1956:

More than 600 former students of Hamlin High School attended the second annual homecoming last week-end. Joe Ford of Hamlin was elected president of the group in final business sessions.

Mrs. B. S. Ferguson this week announced the sale of the Hamlin Theaters to Carl Benefield of Amarillo and Ed Green of Dallas.

Rev. Bill Hanna, formerly of St. Joseph, Missouri, has accepted the call to the Hamlin Church of the Nazarene. He succeeds Rev. Donald Wellman.

### NO TROUBLE AT ALL.

The fellow was making his first ocean voyage, and the water was a little turbulent, with its usual reaction on some of those aboard. Ship Captain—"Sorry, sir, you can't be sick here." Passenger—"I can't! You just watch me!"

## Rains Hamper Livestock Movement to Market, But Fair Prices Hold Steady

There is nothing like a rain to put starch in the cattle market. Receipts Monday at Fort Worth were curtailed sharply by the general rains, and except on dry lot fed steers, the trade opened with a rush and prices were unevenly higher on both slaughter and replacement kinds, declares Ted Gouldy, special market reporter for The Herald, in his weekly release. The release continues:

It took some doing, but by the time a slow clearance was complete most of the grain-fed cattle were also steady.

Stockers poured into the market and the board demand soaked up a good many cattle and calves which normally might have sold into slaughter channels, with the result that prices were upped. Slaughter and stocker calves and yearlings were around 50 cents or more higher. Some feeder steers shared the advance. Replacement cows were very scarce.

Comparative prices: Good and choice steers and yearlings, \$18.50 to \$23; and medium and lower grade, \$13 to \$18.50; fat cows, \$13.50 to \$15.50; canners and cutters, \$8 to \$13.50; bulls, \$11 to \$16; slaughter calves of good and choice kind, \$19 to \$21, some baby beefs higher; common and medium sorts, \$13 to \$18; rannies, \$11 to \$13; stocker steer calves, \$23 down; stocker steer yearlings, \$21 down; two-year-old feeder cattle, \$19.50 down; a few stocker cows, \$13 to \$15.

The strangest development in a long time at Fort Worth's market was noted Monday when packing sows and choice butcher hogs both topped at \$18. The weird situation was brought about by the fact supplies of sows, the No. 1 item in sausage making, have been light at Fort Worth and all over the country as hog men are getting back in the business post haste.

Big supplies of feed grains and the favorable ratio between grain prices and swine prices is at the root of the build-up in hog populations. Corn Belt observers have predicted 1958's fall marketings may surpass 1955. This period saw top hogs sell down to \$10 and below in the Corn Belt.

One observer at Fort Worth explained the high sow price this way: Check the meat counter, see what good sausage is bringing in comparison to the other pork cuts. Incidentally, with both top butchers and sows at \$18, Fort Worth prices on them were 50 to \$1 or more above Midwest tops the same day. Medium to good butchers sold Monday at \$16.50 to \$17.50 at Fort Worth.

Limited offerings of all kinds of sheep and lambs (half of the run was New Mexico sheep by

rail) at Fort Worth Monday faced strong prices. Fat lambs of good or choice kinds, with either No. 2, No. 1 or up to a full wool pelt, sold from \$20 to \$21.50, some of all of these pelt lengths at the top. Cull to medium killers drew \$16 to \$20. A few fairish feeders cashed at \$20 to \$20.50.

Slaughter ewes brought \$8 to \$8.50. Some clipped aged wethers cashed at \$13. Other kinds were scarce.

The annual livestock pest control clinic is set for Fort Worth November 18, and it will be a most important meeting for stockmen.

Nationally prominent authorities will speak at the meeting, which is open to all livestock producers and others interested in the control of livestock pests.

Arrangements for the November 18 meeting are being made jointly by the Texas Producers of Veterinary Supplies, the Fort Worth Chamber of Commerce and the Fort Worth Farm and Ranch Club. The session will be the first such in the North Central Texas area. Those attending will be livestock producers, county agents, dealers of veterinary products and representatives of governmental and state experimental stations and the state extension services.

The all-day meeting will be devoted to informational and educational discussions on livestock pest control. No commercial exhibits will be permitted.

The speakers, men who are actually engaged in this specialized work, will cover such topics as control of lice, fleas, screw worms and ticks; safe use of various insecticides including amount to use for effective control; and precautions against over-doses to animals. Gene Bales is president of the Fort Worth Farm and Ranch Club; Clay Berry is president of the Chamber of Commerce; and James McBryer is president of the Texas Producers of Veterinary Supplies. W. A. King and Dr. R. L. Rogers of Fort Worth are in charge of program arrangements.

## Hamlin People Urged To Attend Concerts of Abilene Symphony

Hamlin area people are being extended invitations to attend the opening concert of the Abilene Symphony Orchestra on the evening of Tuesday, October 22. The orchestra is a part of the youth program in Abilene.

Free admission is extended to members of the school bands, senior class and choral groups for one of the concerts during the year. Advance notice should be given the Abilene Symphony Orchestra, 155 Cedar Street, however, of group attendance.

Season memberships for all five concerts are \$9 for reserved seats, \$7 general admission and \$3 for students.

Dates for the concerts are October 22, December 3, February 25, March 25 and April 29 at 8:00 o'clock p. m.

## Greens at Preview of New Dodge Models

Mr. and Mrs. John F. Green of the John F. Green Motor Company, Hamlin Dodge dealers, attended a special preview showing of the 1958 line of Dodge passenger cars and trucks at Fort Worth last week.

Also attending the meeting, one of 17 similar showings held across the country, were officials of the Detroit auto firm, who introduced the new models to local dealers and outlined selling plans for the coming year.

Public announcement of the 1958 Dodge is scheduled for November 6.

# State Capitol NEWS

By Vern Sanford, Manager, Texas Press Association.

Austin—There is talk now of not just one, but two special sessions of the Legislature.

East Texas House members, who served as a tightly knit team in pushing pro-segregation laws last spring, are asking Governor Price Daniel for a chance to put through some more.

Texas needs laws to prevent the kind of trouble that developed in Little Rock, say the East Texans. Specifically, they propose (1) a law to allow local boards to close schools in case of riots or occupation by troops; and (2) a measure directing the attorney general to assist local school systems involved in federal suits to enforce integration.

Daniel said, "It may be we should take some further action." But he said he thought the East Texans were wise in not suggesting the segregation issues be added to the agenda of the session, which opened Monday. It was called to work on lobby registration, registration of practice before state agencies, water conservation and crime study. Most observers think thrashing out all the details on these will take a full 30 days.

Four Indictments.—Travis County courts, which serve as the arena in which state officials are taken to task, are due many more months of state-wide attention.

After four months of studying the history of the ICT Insurance Company, a Travis County grand jury returned perjury indictments against Former Insurance Commissioners Garland A. Smith and J. Byron Saunders. It also indicted ICT's one-time manager, Ben Jack Cage, on charges of bribing the commissioners. Also Smith's son-in-law, May Wayne Rycklik, on perjury charges.

Jurors recommended state laws be strengthened, particularly in regard to liabilities and responsibilities of company officers and board members.

There wasn't time to go into legislative lobbying, said the weary jury. But it urged a law requiring registration and expense reports by lobbyists.

Proof that the jury's tiresome

task took its toll was the hospitalization of one member just as the term ended, reportedly suffering from "physical exhaustion."

Water Preview.—Sectional rivalries and lack of money have hobbled past efforts for an overall water conservation program in Texas. So said speakers at the Texas Water Conservation Association meeting where water problems confronting the special legislative session were previewed.

State Water Board Chairman R. M. Dixon said his department has never had enough money to carry out its assigned duties. He asked for more money to gather data and pay salaries comparable with other state departments.

House Speaker Waggoner Carr pointed out that legislators have had trouble getting together on a water program because they reflect the conflicting ideas of their constituents, said Carr. He urged cooperation.

Governor Daniel recommended a water plan to take care of the needs up to the year 2000. "We can go forward," he said, "and guarantee the future growth and prosperity of our state, or do nothing and face economic stagnation."

Water Amendment.—Governor Daniel has expressed great pleasure over the widespread interest in passage of the constitutional amendment for water development.

He pointed out that the measure, which is third on the November 5 ballot, has received the endorsement of the state's leading organizations and associations.

"Each day's mail brings additional support from local Chambers of Commerce and other civic organizations, as well as private citizens interested in the welfare of Texas," the governor added.

Rod and Gun Statistics.—Texans spend twice as much money to hunt and fish as they do for admission to all football, baseball and basketball games, plus all other spectator sports, plus all the movies and other theatrical attractions combined.

So said L. A. Wilke of the Texas Game and Fish Commission at a Rotary Club luncheon in Austin.

Here are some other facts with which Wilke surprised the Austin Rotarians: Anglers and hunters outnumber golfers nine to one. They also spend more on hunting and fishing than all Texans spend on medical and dental care and hospitalization insurance.

Cotton Forecast Up.—Texas' 1957 cotton crop will be 83 per cent of normal, says the U. S. Department of Agriculture. October estimate is for 4,100,000 bales—half a million more than was expected in September.

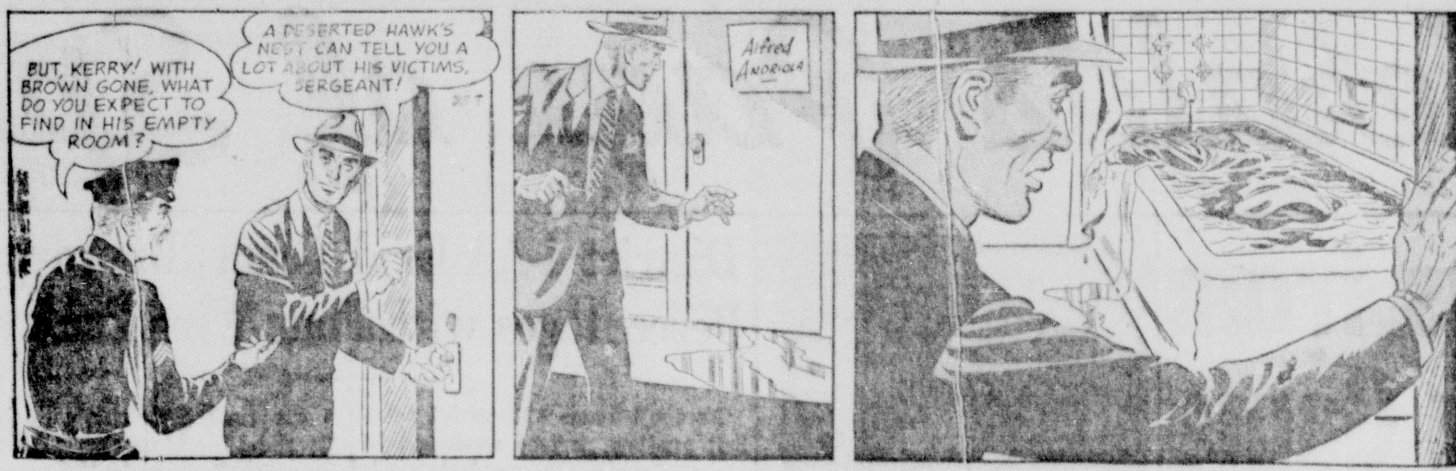

USDA also reported that mild fall weather was helping farmers in many areas. Scattered showers brought up winter wheat on the Plains and encouraged volunteer oats and other pasture for cattle over wide areas. Weather also was favorable for harvesting peanuts, rice and sweet potatoes.

Appointed by Governor.—Named by Governor Daniel to serve on state boards are:

W. W. Heath, Austin attorney, rancher and banker . . . to the State Board for Hospitals and Special Schools.

Dr. R. B. Brown of Dallas (re-appointed) and Dan McKnight of

## KERRY DRAKE

Rock Springs to the State Board of Pharmacy.

Dr. Elmer C. Baum to Austin, Cyrus Hill Lambert, a pharmacist of El Paso, and Dr. William Hibbitts of Texarkana, to the State Board of Health.

Dale Broussard of Beaumont and Norman Bratcher of Denison to the State Board of Morticians.

Flu Cases Pile Up.—"That foreign flu" is getting familiar in Texas. Reported cases doubled in a week, according to the State Health Department, bringing the total of flu-like illnesses to 63,319. A number of schools had to

close after absences skyrocketed. Many others cancelled football games, band concerts and other special events.

Short Snorts.—People in Brazos County, home of Texas A. & M. College, are unhappy. Their county was assigned auto license plates with the prefix TU. That, to the Aggies, sounds too much like the initials of their arch-rival, the University of Texas. What they don't know is that tags with AM letters now are appearing on Austin cars. . . . Texans leaving the armed forces in September was more than double the number en-

tering service, reports State Selective Service headquarters. . . . Despite an attorney general's ruling that the House speaker and lieutenant governor are legally entitled to capitol living quarters, former State Senator Joe Hill is still trying to get them thrown out. Hill has carried his fight to the Court of Civil Appeals where he contended the practice was unconstitutional and "ridiculous" besides.

The scheme of life seems to be that one-half of it is ruined by our parents, and the other half by our children.

"Happy" Selected as Name for Bluebirds

Members of the second grade Bluebird group of Camp Fire Girls have selected "Happy" as their group name.

The Happy members are Deborah Blanton, Jeannette Brown, Celestia Brown, Sharon Hawkins, Sally Carlton, Paula Kay Helms, Joyce Ann Hill, Alice Lovell, Mary Linda McDuff, Teresa Perrin, Diana Vaughan, Jayne Carol Turner, Sharon Sturrock, Cathy Marlene Cronk, Margaret Cooper and Dianne Sellers.

## Pied Pipers Meet Lions from Albany in Homecoming Game

### Last Non-League Game Will Match Two Fast Crews

Riding high on a no-loss record and with one tie marring a perfect slate, the Hamlin High School Pied Pipers go to battle in an exhibition with the Albany Lions Friday night before hundreds of Hamlin High ex-students.

Hamlin has four victories and the tie, while Albany has five wins and one defeat.

Class A Albany has defeated Class AA Olney, Munday and Winters and Class A DeLeon and Eastland. Last Friday night the Lions dropped their first game to Anson of District 4-AA by a 20 to 13 count. Both Albany and Hamlin have defeated the Hamlin Blizzards of Winters, which puts the teams on nearly equal footing for Friday night's tilt.

Hamlin Head Coach D. C. Andrews says his boys are in good condition for the homecoming encounter, having taken a rest last week-end from outside competition. Strenuous work-outs on defensive plays against Albany tactics have put the gridders in fine fettle for the melee, Andrews declares.

The Albany Lions have on over-all good team, fair in size, with good speed and a fine passing game, say those who have seen the Lions in action.

Game time is 7:30 at the Pied Piper stadium.

Special half-time festivities for the game Friday night will feature the crowning of the Homecoming Queen of Hamlin High School.

### Most District Teams Play for Keeps Friday

After piddling around for six weeks of the football season all members of the District 4-AA loop except Hamlin get down to the business of conference games this week-end.

The district teams have one of the best non-conference records in the history of the schools, having won 18 games, lost five and tied two for a loop average of .678.

Anson plays at Stamford Friday night and Haskell plays at Seymour in district tussles, while Albany comes to Hamlin for the final non-conference game on the Pied Pipers' schedule.

## DISTRICT 4-AA STANDINGS

Those Panthers from Seymour continued to command the lead position in standings of District 4-AA football teams after six weeks of non-conference play by the five member teams. All the district teams won their tilts except the Hamlin Pied Pipers, who were sitting out an open date.

Standings after last Friday's encounters looked like this for the district teams:

Teams—	P.	W.	L.	T.	Pct.
Seymour .....	5	5	0	0	1.000
Hamlin .....	5	4	0	1	.900
Stamford .....	6	5	1	0	.833
Anson .....	6	4	1	1	.759
Haskell .....	6	3	3	0	.500

### Results Last Week.

Stamford 25, Brownwood 13.  
Seymour 35, Dumas 6.  
Haskell 27, Cisco 7.  
Anson 20, Albany 13.

### Where They Play Friday.

Anson at Stamford.  
Albany at Hamlin.  
Haskell at Seymour.

## Intensive Search for Tax Refunds Made By Internal Revenue

Some folks may think we ought to leave the folks alone who move off and forget to tell the Internal Revenue Service where to mail their refund checks, declares an official of the service in a release to The Herald.

The Dallas district has accumulated about 40,000 such checks over the years. There are several thousand for this year in the files now in spite of one newspaper printing all the names and helping to clear out thousands of them. The tax refund lady gets old clippings from our comments on the checks.

If you have a refund coming and have moved from your old address or forgot to put your address on your tax return and you were not notified that your return was selected for a pre-refund audit, you ought to look at your copy of your 1956 return and see if you did have a refund coming.

If you were due a refund and are sure you haven't received it you should write to: Tax Refund Lady, Internal Revenue Service, 2101 Pacific Avenue, Dallas. Be sure and give full details.

## Mighty Mice Take Last First-Round Tilt at Rotan 27-6

After being held to a 6 to 0 lead at the half the Hamlin Junior High School gridders rolled up three touchdowns the second half last Tuesday night to maintain their first place position in the area conference. Hamlin's win, plus an Anson win over Albany, stakes the Mighty Mice to a game and a half lead over second place Rotan. The final score was 27 to 6.

Hamlin received the opening kick-off and drove to the Rotan one-yard spot before losing the ball on downs. Rotan punted short and Hamlin tallied when Bill Richey scored on a short plunge. The most thrilling play of the game occurred on the last play of the first half when Frankie Lee circled his own left end and streaked 60 yards only to fall untouched on the 10-yard line.

The Hamlin boys came to life the second half with the hard charging Frankie Lee leading the way. Lee tallied all the second half points except one touchdown which he carried over but fumbled. Center Rayford Williams recovered the fumble for the marker.

Rotan scored after Hamlin subs entered the game. Goodrum skirted his left end for 30 yards and the Rotan tally in the last minute of play.

The entire defensive line played excellent ball for Hamlin, holding Rotan backs to short gains. Linemen for Hamlin were Jerry Smith, Jesse Mendoza, Johnny Stovall, Jerry Duncan, Rayford Williams, Jimmy Cooper and Stanley Austin. Alvin Houghton intercepted a Rotan pass. Wayne Baize did an excellent job in leading the Mice to their fourth straight win with his quarterbacking.

### DISCIPLINE DELUXE.

Little Claude's mother had reluctantly allowed her precious child to attend public school. She gave the teacher a long list of instructions.

"My Claude is so sensitive," she explained, "don't ever punish him. Just slap the boy next to him. That will frighten Claude."

Actions speak louder than words—but not so often.

VOGUE FOR FALL.—Pretty Janet Meyer of San Antonio was dressed for fall when fall arrived. Close to six inches of rain brought out the bathing suit—and what is better for chilly temperatures than a mink coat? Perhaps a reversible mink coat, says Janet.

## Hamlin Junior High Squad Continues to Hold League Lead

Hamlin Junior High School's football crew, the Mighty Mice, continued their command of the five-member area junior high conference last week by defeating the last of their four opponents in the first round of a double round-robin conference schedule. Coach Harry Martin's charges, therefore, are on the top of the heap in the standings so far.

After last week's engagements, the standings looked like this:

Teams—	P.	W.	L.	T.	Pct.
Hamlin .....	4	4	0	0	1.000
Rotan .....	3	1	1	1	.500
Anson .....	3	1	2	0	.333
Albany .....	3	1	2	0	.333
Merkel .....	3	0	2	1	.166

### Results October 8

Anson 21, Albany 19.  
Hamlin 27, Rotan 6.

### Games October 13

Merkel at Anson.  
Rotan at Albany.  
Hamlin—Open date.

## Par For Lakeview Golf Course Lowered For Women Players

Members voted to lower the ladies' par for the Lakeview Golf Club from 47 to 39 when the Hamlin Ladies' Golf Association met for lunch and a business session at the club house.

It was reported that this organization has made improvements to the club house that amounted to more than \$200 the past year.

A standing vote of thanks was extended to Mrs. B. O. Bell for the new flags for the golf course, and to Mrs. M. L. Smith for her work as tournament chairman.

New officers elected at the business session were: Mrs. Bill Feagan, president; Mrs. B. O. Bell, first vice president, who will serve as tournament chairman; Mrs. Art Carmichael, second vice president; Mrs. Jerry Waggoner, secretary-treasurer; and Mrs. Joe League, reporter.

### HOW SHOCKING.

## District 4-AA Grid Teams Improve Percentages with Four Wins Friday

Football teams of District 4-AA had another perfect week-end in non-conference games last week as four of the five crews took the measures of area opponents. One of the five crews, Hamlin, had an open date on its schedule.

Defending state AA champion Stamford again proved the Bulldogs have lost little power this season by topping the Class AAA Brownwood Lions 25 to 13. First place Seymour kept its record clean by beating Dumas 35 to 6; Anson Tigers tripped the Albany Lions 20 to 13; and Haskell's Indians defeated the Cisco Lobos 27 to 0.

Class AAA Brownwood was stunned Friday night when the rampaging Stamford Bulldogs took the long end of a 25 to 13 score in a thrill-packed game at Brownwood. Scoring for Stamford were Don Davis, Charles Helmer (two) and Fred Upshaw. Stamford recorded 14 first downs to 12 for Brownwood, and racked up 380 yards rushing to 128 for the Lions. Brownwood made 137 yards passing by completing 10 of 18, while Stamford connected on three of seven aerials for 50 yards.

Seymour's Panthers, sitting on top of the heap in pre-conference play of District 4-AA teams, kept their slate clean by taking their fifth straight victory in a 35 to 6 romp over the Dumas crew. The tilt was played at Seymour. Scoring for the Panthers were Larry Martin (two), Billy Ryan (two) and Joe Chandler. Bill Moss boot-ed all five extra points after the touchdowns. Scoring for Dumas

## Hamlin Athletes to Play with McMurry

McMurry College fleet halfback Jim Boyd of Hamlin, the Tribe's leading ground gainer, lost his rabbit's foot against the small, potent Texas Lutheran College Bulldogs last week.

Boyd, former Hamlin High School speedster, emerged from the TLC tilt with only eight yards rushing. And he was thrown for lost yardage, one yard, the first time this season.

Boyd and another Hamlin product, Dee Prewitt, will be playing before a familiar crowd Saturday night against East Texas State College in Stamford. Prewitt, a freshman, is being groomed for spotty assignments.

## Mighty Mice to Meet Albany Lads Tuesday

Harry Martin's Mighty Mice of Hamlin Junior High School journey to Albany next Tuesday night to start the second half of the grid season.

Hamlin is in an excellent position to capture the championship as they enjoy a game and a half lead over the rest of the field.

Game time for the Tuesday night tilt at Albany is 7:00 o'clock.

### POINT OF VIEW.

To be happy with a man, you must love him a little and understand him a lot; to be happy with a woman, you must love her a lot and try not to understand her at all.

## Hamlin Drive-In

Every Wednesday, Thursday and Friday during the month of October is 50c-a-Carload Night

So get the family and your neighbors together and come out and see a wonderful movie in the comfort of your car!

WEDNESDAY, THURSDAY, FRIDAY, OCT. 16, 17, 18—

CLARK GABLE and SPENCER TRACY, IN

"BOOM TOWN"

REMEMBER . . . IT'S ONLY 50 CENTS A CARLOAD!

## LEADING GROUND GAINERS

Do you really know what your car requires

in a gasoline? What it takes to make

the miles speed easily and silently by?

To deliver all the energy in your engine

under any driving conditions? The answer

is reserve power . . . and Cosden has it.

If yours is a late-model car, Cosden's

Premium Ethyl packs the new, added

power-rating that high-compression engines

require.

If your car is older, Cosden's higher

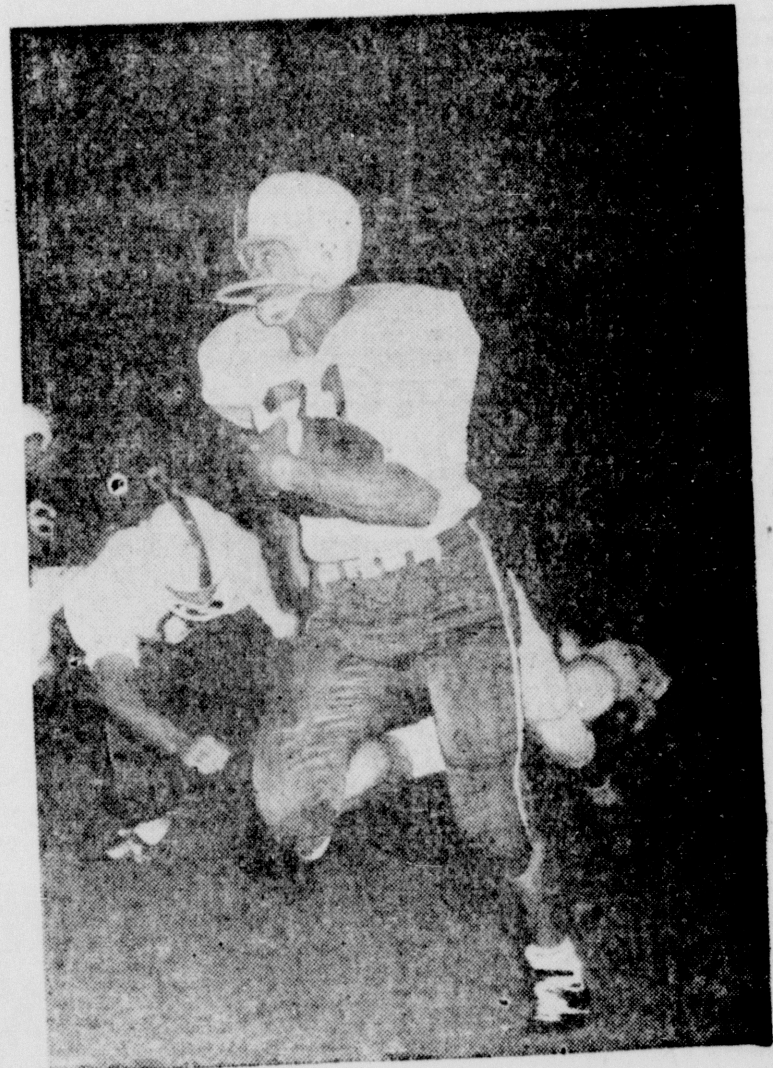

Octane Regular, too, gives it a new

power bonus for mile-saving economy.

Fill up and find out. You'll see

that Cosden—premium or regular grade—makes

a leading ground gainer of your car.

DISTRICT 4-AA FRIDAY SCHEDULE

Anson at Stamford  
Albany at Hamlin.  
Haskell at Seymour.

## Texans May Help Determine Estate Tax on Incomes

The community property laws make a lot of difference in how much estate tax a man dying in Texas may owe, reminds Tax Man Sam in a release to The Herald. Generally speaking, the estate can be twice as large in Texas as in non-community property states before any estate tax is due.

Since the wife owns half of the community property the estate must be worth \$120,000 instead of \$60,000 before any federal taxes are due. However, on the date of your death the value of your half and the widow's half of your property assume a new value for future income tax purposes.

After the death of either the husband or wife in a community property state, land bought for \$1 an acre may be worth \$1,000 an acre for future income tax purposes or on the other hand you may have paid \$1,000 an acre and it will only be worth \$1 an acre in the future. This makes it profitable for many small taxpayers to get a reliable appraisal of their property as of the date of death.

It also makes it profitable for many people to pay an estate tax because the increased value of the widow's property for income tax purposes may save many times the small estate tax payment in future income tax payments. It may pay you to see a reliable tax planning man.

## Hamlin VFW Groups To Attend District Meeting at Stamford

Several members of the Hamlin Post of the Veterans of Foreign Wars are scheduled to attend a district conference Saturday and Sunday of VFW and Ladies' Auxiliary members from Central West Texas at Stamford.

Announcement came this week from Richard Cox of Ranger, commander of the posts in Jones, Haskell, Throckmorton, Stephens, Shackelford, Fisher, Scurry, Taylor, Nolan, Mitchell, Comanche, Callahan, Eastland and Brown Counties.

Registration of members attending will begin at 10:00 o'clock Saturday morning at the home of Post No. 9179 on Highway 277 in South Stamford. The ladies will be hosts for a tea on Saturday from 4:00 to 5:00 p. m., and a dance is scheduled for those attending Saturday night.

### LITTLE FAULTS.

It's generally a chain of circumstances that shows up the weak link in a man's character.

**GRAND CHAMPION HEREFORD BULL**—J. P. McNatt of Greenville (left) hit the jackpot in the Hereford show at the Pan-American Livestock Exposition of the State Fair of Texas when his two-year-old bull, M. Zato Heir T-7th, won championship honors. This was McNatt's first year of showing after more than 17 years of Hereford breeding. His ranch manager, Francis Hill, held the prize sire.

## FFA Boys Take in State Fair of Texas Over Week-End, Return Fagged Out

A tired but happy bunch of Future Farmers of America boys from Hamlin High School returned Saturday night after their trip to the State Fair of Texas at Dallas.

At the fair the boys saw everything from exhibits to livestock. There were new as well as old cars—cars of the future and sports cars. In the electric building there were exhibits of all the modern electric appliances. There were food exhibits, health exhibits, exhibits of farm machinery and agriculture. There were many different breeds of cattle, horses, sheep, goats, hogs, rabbits, turkeys and chickens.

Friday night some of the boys went to the SMU-Missouri football game in the Cotton Bowl, which turned out to be very exciting. The boys left the fair grounds Saturday evening at 2:00 o'clock and returned home Saturday night about 8:00.

T. C. Blankinship, one of the Hamlin VA teachers, accompanied the 38 boys. Those who made the trip were Jim Hester, Richie Smith, Bob Martin, Gene Murff, Boyce Blankinship, Red Fowler, Jerry Crowley, Joe Deel, Linnie

Johnson, Gerald Renfro, Durwood Boyd, Teddy Westmoreland, Billy Jack Perryman, Marion Carter, Steve Stephens, Toke Shields, Dale Ponder, William Cranford, Charles Scott, Mike Brandon, Terry Scott, Lynn Wright, Larry Moore, Junior Lee, Dwight Griggs, Sam Mack Hodges, Jimmy Beasley, Tommy Bonds, Ronnie Dodd, Billy Hallmark, Dudley Griggs, Ronnie Hill, Sam Bryson, Victor Criswell, Ronnie Rowland and Wesley Acklin.

## McCaulley Woman Attends SS Confab

Among the 5,000 Sunday School enthusiasts attending the twelfth annual national Sunday School convention in Los Angeles, October 9 to 11, were Mrs. Bertha L. Davison of McCaulley and Jewell Davison of Lakewood, California. The three-day sessions, held in the combined facilities of the Bible Institute of Los Angeles and the Church of the Open Door, majored in the practical. Eighty workshop sessions stressed the application of modern educational techniques and teaching tools to the Sunday School.

## Everett Beaver Speaks to Rotary On School Topic

Everett Beaver, county superintendent of schools, explained legislation passed by the last session of the Texas Legislature that affects the schools when he spoke at last Wednesday's regular weekly luncheon meeting of the Hamlin Rotary Club at the oil mill guest house.

The school official explained that more legislation pertaining to schools of the state was passed by the last Legislature than by any previous session. Most of the bills were helpful, a few hurtful or ineffective for the smaller city and rural schools, he said.

He explained item by item the bills that affect mentally retarded children, factors determining transportation aid, publication of financial statements by school districts, budget's for common school districts, budget hearings, school employees under social security, investment of bond money, minimum teacher salaries of \$3,204, transfers of school funds, audits of school finances, placements of students (aimed at avoiding integration), maximum tax and bond rates, maximum bond issuance up to 10 per cent of total valuations, committee to study tax structures, laws regulating the passing of school buses, teacher jury service exemption, etc.

It was announced that this week's Rotary program will feature Bill Ledbetter and Sam Baugh of the athletic department of Hardin-Simmons University at Abilene.

A joint meeting of the Rotary and Lions Club will be held October 23 to study reorganization of the Chamber of Commerce, it was announced. President Gene Prewitt named Wesley Nail, Weldon Johnson and E. S. Maddox as representatives from the Rotary Club to arrange the program.

Besides the speaker, other guests at the Wednesday luncheon included W. M. Blackburn of Stamford, Bill Murff and Joe Stephens. The latter two were Junior Rotarians for September and October.

## Funeral Services For D. L. Bristow Held Thursday

Funeral services for D. L. Bristow, 83-year-old pioneer Hamlin area resident, who died last Tuesday night in Anson General Hospital, were conducted at 10:00 o'clock Thursday morning at the Hamlin First Baptist Church.

Bristow was visiting in Anson with a daughter when he became suddenly ill following a heart attack. He passed away shortly after being taken to the hospital. He had not been seriously ill.

Officiating in the final rites was Rev. Calvin Bailey, pastor of the church, where Bristow had been a deacon for several years. Burial was in the Hamlin East Cemetery under the direction of Lawrence Funeral Home of Anson.

Bristow was born March 13, 1874, in Bell County. He moved to Jones County with his family at the age of 15, settling in the Neinda community, south of Hamlin. He was married to the former Hallie B. Williams on December 22, 1897. Mrs. Bristow died in 1949.

Surviving the octogenarian are a son, Roy Bristow of San Angelo; three daughters, Mrs. L. B. Ray of Anson, Mrs. G. T. Harber of Abilene and Mrs. B. A. Ellison of Houston; a sister, Mrs. Claude Dean of Weatherford; 11 grandchildren and 16 great-grandchildren.

### WRONG GROUCH.

"I've been nursing a grouch all day."  
"Gee! I didn't know your foreman was sick."

It's grand as a SAUCE...a salad dressing and a spread!

Miracle Sandwich Spread

## Baptist Men of Area To Hear A. C. Wimpee At Stamford Clinic

Several men of Baptist Churches of the area are scheduled to go next Thursday evening to a Baptist Brotherhood rally and clinic for area churches at the Trinity Baptist Church in Stamford.

To be featured at the program, beginning at 7:30 o'clock, will be A. C. Wimpee, associate secretary of the Baptist Brotherhood of Texas, with headquarters in Dallas. Wimpee has spoken several times to audiences in Hamlin, and is known for his quick wit and interesting addresses, especially appealing to young people.

Five conference groups will be conducted for the five different officers of church brotherhoods, declares Rev. Calvin Bailey of Hamlin, Jones County Baptist Association, local Brotherhood leader. Louis Timberlake of Stamford is association president.

## Abshers Go to New Army Assignment

Mrs. Charles Absher, the former Faith Simpson, spent 10 days recently with her parents, Mr. and Mrs. Joe Simpson, and Carol Jo. She left Monday, accompanied by the Simpsons, to join her husband in his new assignment at Fort Huachuca, Arizona. He is in the teletype department.

The Abshers live at Bisbee, Arizona, about 30 miles from the Army post. The Simpsons returned home Tuesday.

### TRUE TO LIFE.

Posing the farmer with his college age son for a picture, the photographer suggested that the boy stand with his hand on his father's shoulder.

"If you want it to look natural," said the long suffering parent, "he could put his hand in my pocket."

The scales of justice might well be called the trial balance.

# The Herald's Page for Women

## Muriel Mehaffey and J. W. Seifres Say Wedding Vows in Church Rites

An impressive double ring ceremony Friday evening at the Sunset Baptist Church in Hamlin united in marriage Muriel Mehaffey and J. W. Seifres. Officiating at the rites was Rev. R. B. Tiner, pastor of the church.

The bride is the daughter of Mr. and Mrs. Tom Mehaffey of Roby, and the bridegroom is the son of Mrs. Eva Seifres of Hamlin.

## Model Meeting Held By Beta Theta Group At Tuesday Session

Annual model meeting of the chapter was featured when members of the Beta Theta chapter of Beta Sigma Phi met in regular session Tuesday afternoon in the home of Mrs. Arlie Cassle.

Eleven members and three new pledges were present. The pledges are Mmes. D. C. Andrews, Neal Laminack and Max Murrell. Mrs. Jimmy Vaughan, a transfer from the Dalhart chapter, was welcomed into Beta Theta.

The business session was conducted by Mrs. Earl Smith, president.

Mrs. L. C. Bonds presented the program on "Self Estimate." She illustrated with questions and answers from a book by Dr. Norman Vincent Peale.

Next meeting of the sorority will be October 22 in the home of Mrs. Bill Foster.

## North Central Church Girls' Class Elects

Members of the eight-year-old girls' Sunday School Class of the North Central Avenue Baptist Church recently organized and elected officers. The name for the class was selected as the Busy Bees.

Officers elected were: Barbara Embrey, president; Sheila Stone, vice president; Della Nichols, secretary; Carolyn McHugh, reporter; Mrs. Jackie Embrey is teacher of the group.

## Jones County Club Women Attend Area Recreation School

Nine Jones County Home Demonstration Club women and Mary Y. Newberry, home demonstration agent, attended a two-day recreation school at Haskell last week. It was conducted by Lucille Moore, recreation specialist from A. & M. College at College Station. Women and agents from Knox and Haskell Counties also attended the meeting.

Miss Moore instructed the women on the things to remember in planning a good party, the 10 points for game leadership and how recreation should be conducted. The women participated in different types of games suitable for all ages and any kind of activity.

Women from Jones County attending were Mrs. Clyde Chaney, Mrs. Ed Lynn, Mrs. W. C. Glazner, Mrs. Mack Doty, Mrs. Helen Haynes, Mrs. George Pearce, Mrs. Charles Rust, Mrs. Walter Grimm and Mrs. Ira Treadwell.

## Naomi Class Meets in Social-Business Meet

Members of the Naomi Sunday School Class of the First Baptist Church had their first business and social meeting of the new church year last Tuesday afternoon in the basement of the church. Five members of the group were present — Mrs. Jim Lain, Mrs. Ruby Perryman, Mrs. Billie Goodman, Mrs. Carl Young and the teacher, Mrs. W. V. Walton.

## Officers Elected at Thursday Session of McCaulley Women

Officers were elected for the coming year when members of the McCaulley Home Demonstration Club met Thursday afternoon in the home of Mrs. Willie Fancher at Hamlin.

Named were: Mrs. Ted Abbott, president; Mrs. Willie Fancher, vice president; Mrs. Billie Jeffrey, secretary-treasurer; Mrs. Frank Kemp, council delegate; Mrs. Armond Smith, reporter; Mrs. Jerry Maberry, recreation director. Special committee were also named as follows: Mrs. L. H. Boyd, civil defense; Mrs. Ray Maberry, THDA chairman; Mrs. Lon Andress, citizenship; Mrs. Glen Henderson, health and safety.

Plans were made for a Thanksgiving dinner in November.

Mrs. Frank Kemp gave a demonstration on oyster stuffing.

Refreshments were served to 13 members who attended. Next meeting of the McCaulley will be October 17 in the home of Mrs. Frank Kemp. The program will be on "Ideas for Christmas Gifts."

## Friendship Club Sets New Meeting Time At Recent Gathering

A new meeting time of 3:00 o'clock was approved for the club when members of the Friendship Home Demonstration Club met at the oil mill guest house.

A council report was given. The program was on "Gift Suggestions," with members showing some hand-made gifts for Christmas.

Present for the session were Mmes. Fred Carpenter, Richard Young Sr., Fred Carpenter, M. S. Johnson, John Hix, S. E. Branscum, W. H. Murphree and Gean Witt.

Friendship Home Demonstration Club met October 11 at the oil mill guest house with seven members present.

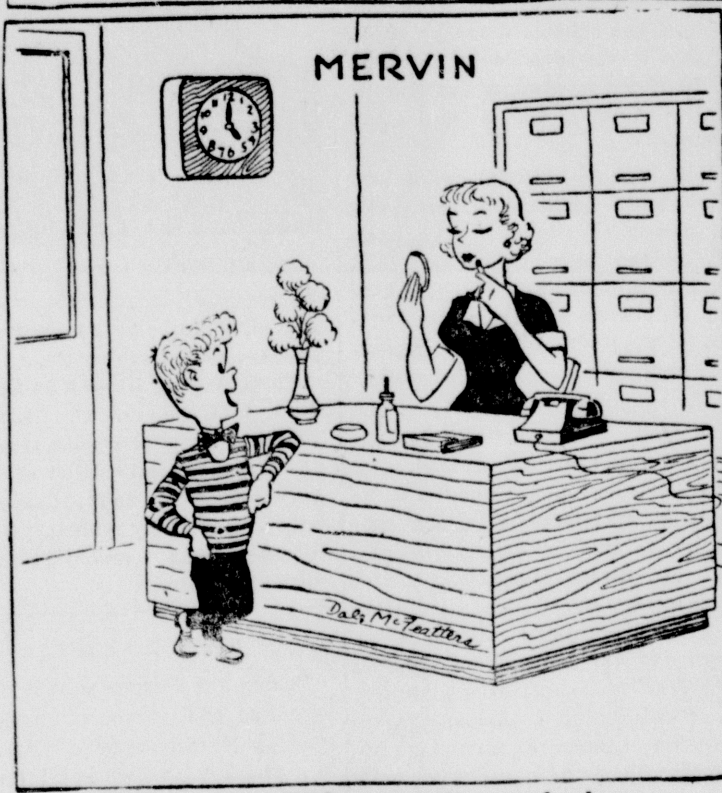

A short business meeting was conducted. Mrs. M. H. Murphree was elected council delegate. Mrs. John Hix gave a demonstration on how to make planters using cans and plaster. Some very pretty pieces were shown.

Next meeting of the club will be October 25, when a cooking demonstration will be given by the food leaders.

The man who knows when to keep still should be given a prize for having a fine command of language.

## STRICTLY BUSINESS

by McFeathers

## Tooth Decay Continues to Be One of Major Diseases Among Americans

One of our most important public health enemies in America today is tooth decay, a virtually incurable chronic disease which must be prevented if it is to be conquered at all. The ailment is so widespread that it involves 95 of every 100 persons and is still increasing.

It is estimated that there are now 1,000,000,000 cavities in the mouths of Americans, mostly children of elementary school age. And for every cavity a dentist fills six are left unfilled because of failure to visit a dentist.

Dental authorities say the situation is now so acute that at its present rate of increase, within 10 years decay will have turned us into a nation of dental cripples.

## Grade B Eggs as High in Food Value as More Costly Grades

Grade B eggs are just as high in food value as grade A and AA, according to extension foods and nutrition specialists. They cost considerably less in most food markets, especially right now when they are in plentiful supply.

Grade A and AA eggs are a must only for poaching, where a high, firm yolk and thick white are essential to the appearance of the dish; and for soft cooking in the shell, where delicacy of flavor is all important.

For all other ways to cook eggs—scrambled, baked, in omelets, souffles and in countless dishes of which they are an essential part (custards, puddings, ice cream, cakes, sauces) grade B eggs can be used with complete success and at lower cost.

Thrifty homemakers need not shy away from grade B eggs but rather take advantage of the plentiful supply and lower price by serving egg main dishes often and by stepping up the richness of many other foods with added eggs.

## Reception Follows Mehaffey-Seifres Rite

Following the Mehaffey-Seifres wedding last Friday evening, a reception for the wedding party was given in the home of Mr. and Mrs. Louis E. Johnson on Northwest Avenue D.

After a wedding trip to East Texas the couple will be at home in Hamlin.

The bride attended McCaulley Schools, and is employed as a practical nurse at Hamlin Memorial Hospital. The bridegroom attended Hamlin Schools and is employed at Hamlin Sand & Gravel Company northeast of the city.

## NATURALLY!

Marge had just made two pies, one raisin and one mince. She marked them both with a "T.M."

When asked how she could tell them apart, she replied, "This one 'tis mince and this one 'tain't mince."

**Relieves Painful Monthly Cramps For 3 out of 4 Women Tested! Gives Greater Relief Than Aspirin!**

For millions who suffer torture of cramps, nervous tension every month, an amazing new tablet brings greater relief than aspirin! Its unique combination of medicines acts on the cause of distress. (Even contains blood-building iron.) For 3 out of 4 women

tested, pains and cramps were stopped or strikingly relieved. Called "Lydia Pinkham's Tablets," they're sold at all drug stores. Try Pinkham's Tablets yourself. See if you don't escape much of the irritability and discomfort during your period! All druggists, today, also have famous Lydia E. Pinkham's Vegetable Compound.

## Athea Lea Grice to Wed Lubbock Man in December Rituals

The approaching marriage of Atha Lea Grice to Donald J. McKim has been announced by her parents, Mr. and Mrs. Clyde Grice of Hamlin. Parents of the prospective bridegroom are Mr. and Mrs. Donald G. McKim of Lubbock.

The wedding will be solemnized at 6:30 p. m. December 21 at the First Baptist Church in Hamlin. A reception will follow the ceremony at the home of the parents of the bride-elect.

Miss Grice is a graduate of Hamlin High School and Texas Technological College at Lubbock. She is teaching in the Shallowater Public Schools. In college she was a member of Delta Gamma, Phi Upsilon Emicron and the Home Economics Club. Her fiancé is a pre-law major at Texas Technological College, where he is affiliated with Phi Delta Theta.

Angela Malouf will serve as maid-of-honor, and Decker G. McKim will serve his brother as best man. Ushers will be Gene Grice of Littlefield, brother of the bride-elect, and Merle McKim, brother of the bridegroom-elect.

The Herald has carbon paper.

## Woman's Literary Club Begin Year's Club Work with Luncheon at Abilene

Woman's Literary Club launched its club year with the president's luncheon and golden anniversary celebration last Friday afternoon at the Abilene Country Club at 1:00 p. m.

Hostesses were Mmes. R. D. Moore, second vice president, Mrs. Holly Toler, Mrs. Bowen Pope and Mrs. Duane Stallcup.

"Our Heritage" is the theme for the year, as announced by the yearbook committee.

## Xi Gamma Pi Hears Program Thursday

Mrs. John C. Bryant gave the program on "Good Lives" when members of the Xi Gamma Pi chapter of Beta Sigma Phi Sorority met last Thursday afternoon in the home of Mrs. Jim Ballard.

Following the program, refreshments were served to the following: Mmes. George Poe, Jerry Waggoner, M. L. Smith, Gerald Young, Holly Toler, E. D. Perrin, E. J. Hawkins, C. W. Geiggs, Weldon Carlitor, John C. Bryant, Jim Ballard and W. T. Johnson.

Honored speaker for the occasion was Mrs. Dick Maberry, club president, who spoke on "Our American Heritage." Response followed by Mrs. Virgil Steele, first vice president.

Musical numbers were presented by Mrs. J. W. McCrary, club musician, followed by the presentation of new members, Mrs. Perry Sparks and Mrs. John Ed Day.

Next meeting of the Woman's Literary Club will be October 18 in the home of Mrs. John D. Ferguson, it was announced.

**Starts FRIDAY at 9 A. M.**

**SEE OUR BIG SALES CIRCULAR FOR PRICES!**

But we are doing more than quoting low prices!

Every adult can participate in awarding of

**\$52.80 IN PRIZES!**

to be given as follows:

No purchase necessary. The first one to be given on Opening day, Friday, at 4:00 p. m.

**A BEAUTIFUL \$14.95 VALUE BEDSPREAD**

If you are an adult you can register your name and address on a slip and put it in the Prize Box at our store.

The next Prize

**A PRETTY \$9.95 PURREY BLANKET**

To be given Saturday, October 19, at 7:00 p. m.

Then on the following Monday at 3:00 p. m.

**A \$12.95 FIELD CREST BLANKET**

Then the GRAND PRIZE to be given the following Saturday, October 26, at 7:00 p. m.

**FABULOUS \$19.95 ELECTRIC BLANKET**

You can register each day FREE for any and all prizes.

**Extra Feature after each Drawing for Everybody Present!**

You can place your order now at Your Local Authorized Chevrolet Dealer's

## TEXANS IN WASHINGTON

By Tex Easley, AP Washington Correspondent

Washington.—The Air Force is throwing up a radar screen along the Texas border that should prevent manned enemy aircraft from crossing undetected into this country from the south.

Details of the protective project are handled through the Air Force Defense Force headquarters at Granview, Missouri.

A Pentagon spokesman said 16 "prime" sites had been selected in Texas for radar stations to detect approaching unidentified aircraft or objects.

Some sites are along the Mexican border; some are deeper in the state. Construction on some of the 16 has been completed. On others it is well underway. Work has been deferred on two sites pending further consideration of all conditions involved.

Among the 16 sites are those at Zapata, Port Isabel, Ozona, Fyote, Valentine, Lufkin, Killeen, Rockport, Eagle Pass.

In addition to these "prime" sites, there are to be a number of unmanned "gap filler" stations, which as the name implies, would keep watch in the areas midway between the scanning range of the manned radar stations. These "gap filler" station sites include Delmita, Carrizo Springs and McCarney. They are usually in extremely isolated places.

Uncertainty as to eventual construction of stations at all these sites, and as to the personnel strength at each, stems from the present indecision as to how much of the Air Force efforts should be directed to development of guided missiles and anti-missile missiles.

A typical manned radar station such as those erected or being erected in Texas comprise about 100 officers and men, with possibly a small number of civilian employees, and a total annual payroll approximating a half million dollars.

It would be in operation 24 hours daily and could detect approaching objects as much as 150 miles away. Storms, and even flocks of birds, will register "dots" on the radar screens.

A Pentagon officer recalled a radar alert was sounded in Korea when unknown objects showed up on radar screens as approaching North Korea. These turned out to be flocks of birds.

Inter-continental missiles should be on the Texas radar screens also, but in view of the warning time would be most negligible.

Should an unidentified object or aircraft be spotted coming from the direction of Mexico, the Pentagon officer continued, the information instantly would be sent into a central communications center. From a fighter base jet planes go out to identify the strange object, with orders to "kill" if there is not immediate compliance with signals for identification.

### Around the capital:

The deans of engineering and research at Texas A. & M. College and the University of Texas were among delegates to the recent conference called by President Eisenhower for a discussion of the problems of small businessmen.

The deans—Dr. John C. Calhoun Jr. of A. & M. and Dr. W. R. Woolrich—think a similar meeting held on a state or regional basis should be helpful.

"This conference has emphasized the value of research for the small businessman," commented Dr. Calhoun.

"The nation's big industrial firms have long realized its worth, and have had the money to do something about it. This is an attempt to see what can be done along similar lines for employers with small payrolls and limited capital."

He cited as an example the experience of a Midwest dog food manufacturer, recited to delegates at the national meeting.

It seems that this manufacturer had a survey made to find out

what housewives wanted in the way of food for their dogs. It turned out that a big complaint was that, while the food might have an appetizing odor for dogs, it often was revolting to these good ladies. So he developed a happy combination that pleased both, and greatly increased his sales.

Dr. Woolrich said he thought a state-wide meeting giving small businessmen from all parts of Texas opportunity to exchange ideas would prove beneficial.

On the program could be speakers with helpful information, he added, such as qualified individuals explaining all of the ways a small businessman could get assistance through various credit agencies.

## Safety Measures of Country Save Many Lives Every Year

Sixty thousand lives were saved last year—through safety.

The 1957 edition of "Accident Facts," the statistical yearbook of the National Safety Council, which is just off the press, shows that the accident death rate in 1956 was nearly 40 per cent lower than for the five-year period of 1908-1912—or 60,000 fewer than would have been killed at the old rate. This progress was achieved despite present day hazards growing out of the speed-up mechanical age.

Greatest improvement in accident prevention ranged from 31 per cent for persons 65 years old and over to 54 per cent for children four years old and younger.

The death rate for persons 15-24 years old was as high as it was nearly 50 years ago.

## Milk Producers Get \$5.85 in September

Daily Class I sales by Central West Texas handlers of milk during September were 7.75 per cent more than during August, 1957, and 6.65 per cent more than the daily sales during September, 1956.

Minimum uniform price to be paid to producers, including several in the Hamlin territory, for 4.0 per cent milk by Central West Texas handlers during September will be \$5.85 per 100, according to Byford W. Bain, market administrator.

## NEW SCHOOL BUS LAW.

J. O. Musick, general manager of the Texas Safety Association, says, "There are approximately 8,000 school busses in Texas. These busses make thousands of stops each day. If you overtake or meet a school bus that is loading or unloading passengers, the Texas law requires that you come to a complete stop. You may then proceed—with caution—at a speed not to exceed 10 miles per hour. For the children's sake, and your own, please obey this law."

## CAN'T GET AROUND.

The world is so full of a number of things that it's hard to keep up the payments on them.

**Happiness** is not guaranteed  
by a more prosperous community  
but it sure helps

THE RECIPE for true happiness calls for various ingredients to satisfy different people . . . just as cakes are baked with a variety of frostings and flavorings to please different palates. But . . . with cakes . . . the basic ingredients are always the same . . . flour sugar shortening, etc. Much the same thing is true of happiness.

No matter what type of trimmings each of us may prefer on our happiness, the fundamental ingredients are about the same for all . . . first, good health . . . then a good job or a prosperous business, good schools for our children, strongly supported churches in which to worship . . . and many good neighbors, friendly and secure.

These latter things . . . call them the material ingredients of happiness, if you will . . . can be assured by a substantial and ever-growing trade volume in our community. Which we ourselves can create if all of us spend our money here . . . where we live, and make our living. Spending away from home strengthens the foundations of our city neighbors' happiness, weakens our own.

## Trade in Hamlin

... where your trade flourishes the material ingredients of your own happiness

**It Pays  
to Buy Where  
You Live!**

Of all the business establishments in the world—only those in Hamlin are sincerely interested in the future of Hamlin and in the future of YOU who live here . . .

## Chevrolet Trucks For 1958 to Go on Display Monday

An expanded, widely diversified line of trucks featured by a rugged new 348-cubic inch V-8 of 230 horsepower, many chassis improvements and more powerful and durable sixes and V-8s is announced by Chevrolet Motor Division.

Fresh new front end styling includes modern dual headlamps and redesigned grille, hood and fenders.

Scheduled for display at dealer showrooms nationally, concurrent with the debut of 1958 Chevrolet passenger cars October 31, the new truck line lists 12 new models for a total of 128, up 10 per cent over the number available in 1957.

For the first time Chevrolet will assume body production responsibility for three forward control "step van" models. The same warranty and parts service will be extended to these bodies that now apply to company built panels, pick-ups, stakes and cab chassis models. Also of major interest is the addition to the line of nine new medium duty cab chassis models.

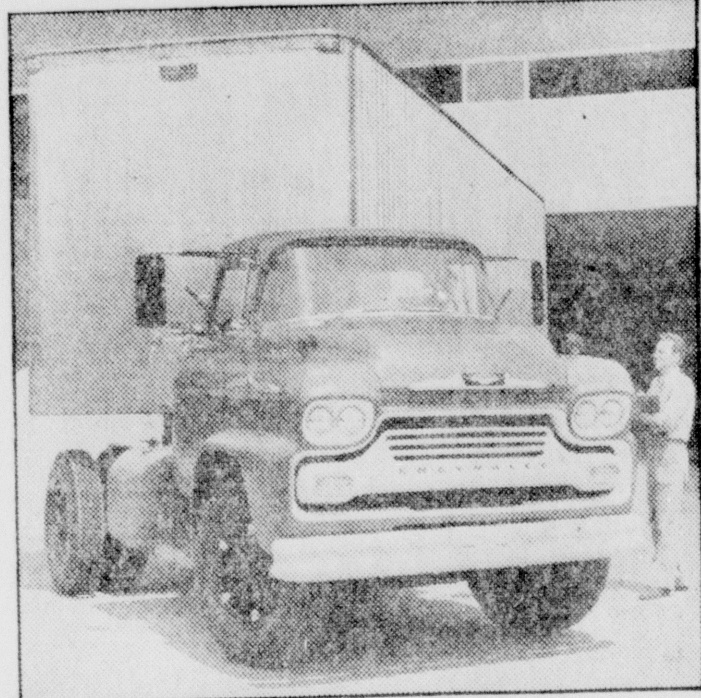

An innovation in the 1958 line is the assigning of names to each of the three light weight classifications. They are:

The Apache—Light duties with GVW ratings up to 9,600 pounds, and available on six different wheel bases.

The Viking—Medium duties, available on 12 wheel bases with GVW ratings up to 21,000 pounds.

The Spartan—Heavy duties with GVW ratings up to 25,000 pounds, and offered on nine wheel bases.

The new models will be available at Carl Murrell Chevrolet Company at Hamlin Monday.

**STYLE AND POWER MARK 1958 CHEVROLET TRUCKS**—Fresh styling, more power and many chassis improvements mark the 1958 Chevrolet truck line which go on display at Carl Murrell Chevrolet Company and other dealers all over the country next Monday. This low cab forward heavy duty model has a new 348-cubic-inch 230-horsepower engine designed for durability with sodium-cooled valves, heavy bearings and other heavy service features. Combustion chamber is wholly within the cylinder bore. All 1958 Chevrolet trucks have dual headlamps, redesigned grille, hood and fenders.

## "Slow Down at Sundown" Is Advice For Motorists from Safety Official

"Slow down at sundown," J. O. Musick, general manager of the Texas Safety Association, warned motorists this week. His appeal came as a part of the safety-after-dark program of TSA for October.

"Since nighttime doubles traffic troubles, the driver has to soft pedal the gas pedal—he has to watch out for the lives of others as well as his own."

He emphasized that a driver must be alert at all times and expect the unexpected. Sometimes children dart out from behind parked cars, or bicycle riders make turns without signaling, or an animal wanders onto the highway. Musick also mentioned that when drivers become drowsy or fatigued, they should stop for a short nap or a brisk walk around the car.

"If a driver must stop at night, it is imperative that he always pull completely off the road and leave on his parking and dome lights," Musick said.

He particularly stressed the fact that night driving is different from daytime driving. Motorists must adjust to that difference by putting their guard up when the sun goes down.

"Fourteen per cent of the 2,611 traffic fatalities in Texas last

year occurred in the three-hour period from 5:00 p. m. to 8:00 p. m.," Musick said. "Thus, emphasizing the slogan that 'Dusk brings death' on the highways."

## Texas Farm Bureau Can Be South Biggest

Texas can have the largest Farm Bureau organization in the South and fourth largest in the nation if each county organization in the state meets its goal, the president of the Texas Farm Bureau has announced from his headquarters at Waco.

J. Walter Hammond said that thousands of voluntary membership workers are still busy signing up farmers and ranchers in the organization. Deadline for enrolling members for 1957 is October 31, the end of the TFB's fiscal year.

County quotas in 185 organized county Farm Bureaus add up to 75,300, which is the state quota for 1957.

### CAR NOT TO BLAME

J. O. Musick, general manager of the Texas Safety Association, says that "Ordinarily you can't blame your car for an accident any more than you can blame your mirror for the way you look."

## VETERAN QUESTIONS

The questions and answers below about veteran problems are carried as a service to present and former service connected persons by The Herald. Material for this column is supplied by the area office of the Veterans Administration at Lubbock.

**Question**—My husband, a World War II veteran, bought a house with a GI loan. Shortly afterward, he died of a service connected condition. As an unmarried widow, would I still be entitled to a GI loan even though he used his benefit before his death?

**Answer**—Yes. The service connected death of your husband would entitle you to a GI loan even though he obtained one before he died.

**Q**—A friend of mine died without choosing a method of settlement of his GI insurance policy. But he did name his wife as beneficiary. How will she receive the insurance proceeds?

**A**—She will receive the proceeds in 36 monthly installments. But she does have the right to choose any other installment option of payment. She cannot, however, receive the money in one lump sum.

**Q**—I was in military service for one year when I was wounded in Korea and had to be discharged for disability. How much vocational rehabilitation training will I be entitled to?

**A**—Vocational rehabilitation training does not depend upon your length of service. You may train for as long as is necessary to restore your employability, up to a maximum of four years and in some cases even longer.

**Q**—I am going to a trade school under the Korean GI bill, and I understand I am allowed up to 30 days of absence a year. Do legal holidays count as absences?

**A**—No. Legal holidays do not count as absences.

### DELAYED ACTION

**Jump Master**—"When you bail out, count 10, and then pull the handle that releases your parachute."

Two paratroopers were floating gently to earth when a third man went plummeting by, his parachute unopened.

"Poor guy," said one. "I knew he'd never make it. He stutters."

### O, COME NOW

**Albert**—"The Navy must have relaxed its rules on size."

**Filbert**—"How so?"

**Albert**—"It tells here about a sailor who went to sleep on his watch."

## Safety Clubs Formed by Students in Fifth Grades at School

Safety clubs have recently been organized in the fifth grade at Hamlin Elementary School.

In the classes the following officers have been chosen:

Grade 5-A—Elizabeth Cunningham, president; Carolyn Reynolds, secretary; Paula Kim, treasurer; Kathy Butler, Allen Cumble and Marlyn Reynolds, program committee.

Class 5-B—Johnny Overman, president; Clifford Sharer, vice president; Reba Law, secretary; Jack Townley, treasurer; Charles Prewitt, Christy Wallace and Nancy Ford, program committee; Mike Shivers, Dannie Maberry and Della Nichols, good citizenship committee.

## Poor Eating Habits Can Result in Many Bodily Disorders

Poor eating habits can result in many bodily disorders. Nervousness, night blindness, improper growth in children, skin irritations, tooth decay, and loss of weight and energy are just a few symptoms that may result.

Eating habits are something that most people talk about but few do anything to improve.

A leaflet recently released by the Texas Agricultural Extension Service, L-352, "Are You a Good Eater?" provides a standard by which we may measure our diet and eating habits. It lists the more important elements needed by the body and then gives food sources for each as well as some of the results of a deficiency in these foods.

Also contained in the leaflet is a Texas food standard by which

**RAYBURN DEDICATES LIBRARY**—Speaker of the House Sam Rayburn delivers the dedicatory address at the opening of his library at Bonham. Former President Harry S. Truman (front row right) was among dignitaries who attended the dedication of the building which will house Speaker Rayburn's mementoes.

### RAIL EMPLOYEES

More than 1,000,000 American citizens are required to operate the American railroads. Together with their families, they constitute a group of some 3,500,000 persons—more than are in North and South Dakota, Montana, Idaho and Utah combined.

A person's diet may be planned to give proper nutrition.

This leaflet is available from local county home demonstration agents or from the Agricultural Information Office in College Station.

### ACCOMMODATING

The tired clerk had pulled down blanket after blanket until only one was left on the shelf. Then the customer remarked:

"I don't really want to buy today. I was looking for a friend." "Well, madam," said the clerk, "I'll take down the last one if you think he's in it."

### POLICE INVITATION

A sign in a butcher shop, directly over the sausage grinding machine, declared: "Go ahead. We don't mind you sticking your nose in our business."

## Tax Planning Works For Farmer and Big Corporation Alike

The time for farmers to read their tax instructions or the Farmers Tax Guide printed by the Internal Revenue Service is in the fall, reminds Tax Man Sam in a release to The Herald for Hamlin area farmers and ranchers. Tax planning works for a farmer on the same basis as it works for a big corporation.

The big corporation always knows how much tax a sale or trade will cost them. Unfortunately a lot of farmers do their income tax planning after the end of the tax year on December 31. When a farmer is selling his crops and buying his supplies for the next year it may make a big difference in the amount of taxes he pays whether he buys or sells in December instead of January. Selling a farm, selling timber or even dying requires a man to think about the tax problems he may create.

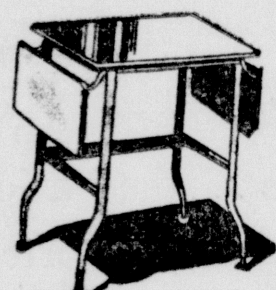

## Jack W. Rodgers, 88, Retired Farmer, Dies

Jack W. Rodgers, 88-year-old retired farmer of the Hamlin area, who had lived in Jones County since 1936, died Monday at 12:30 noon at the Starr Nursing Home in Merket after a long illness.

Rodgers was born in Clarksville on February 15, 1869. He had farmed and ranched in several sections of the state. He had lived in Hamlin for the last two years.

Graveside services were conducted last Tuesday afternoon at 2:30 o'clock at the Neinde Cemetery, south of Hamlin. Officiating was Rev. M. E. Randolph, pastor of the Fairview Baptist Church, seven miles southeast of Hamlin. Mr. Rodgers had never married and there are no known survivors.

# R. B. SPENCER & COMPANY

## Free Seedlings for Farmers of Area Again Available

Over 250,000 free seedlings will be available to Central and West Texas land owners for windbreak plantings in early 1958. Don Young, head of the Forest Management Department of the Texas Forest Service, announced this week.

"Land owners in critical areas could establish farms and or field windbreaks to prevent wind erosion of their valuable top soil," Young said.

Austrian pine, Ponderosa pine, liriodendron and red cedar will be available for the 1958 winter planting season. These seedlings, procured from the Oklahoma State nursery at Norman and Boyd's nursery at McMinnville, Tennessee, will be sold for \$3 per 100. This price includes the cost of shipping to land owners.

Application blanks for ordering seedlings can be procured from county agents and Soil Conservation District offices in the Central and West Texas area. In addition, forms are available upon request from the Director, Texas Forest Service, College Station.

## Estimated Two from County Included in November Draft Call

An estimated two young men in Jones County will be included in the state quota for Texas draft boards in November. The state quota calls for 346 in Jones County, S. Schwartz, selective service director, said Friday.

The state's November call of compares with a quota of 338 in October and 387 for September. The November call is the state's share of a national call of 7,000 men.

Colonel Schwartz said no men are scheduled to take pre-induction physical and mental examinations in November except possible transfers from other states isolated special cases in Texas. The November quota will be shared with men who are at least 18 years old on November 1, with a portion of volunteers or draftees who may be younger.

## IT'S THE LAW IN TEXAS

A Public Service Feature of the State Bar of Texas

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

## AGENCY LAW EXPLAINED.

Suppose you that hire your neighbor's teen-age son, Jimmy, to cut your grass, and he runs your new mower into another neighbor's hedge. The hedge is ruined. Are you responsible for the damages? Quite likely you are.

Or let us suppose that you find you need a loaf of bread for the evening meal. You ask a friend to take your car and run to the store for it. On the way, he runs down old Mr. Peabody, seriously injuring him. Can you be held responsible? It is possible that you can.

In both instances an "agent" was acting for you. His acts while performing those duties are, in the eyes of the law, your acts. In legal terms, you are the "principal."

You may be liable despite the fact that you may have cautioned him to be extremely careful.

The average individual expects to answer for his own actions. He does not usually consider that he may be responsible for the actions of other persons. That, however, is frequently the case.

Suppose you ask another person to do something for you; that is, to act as your agent. You may pay him or he may be doing it without compensation.

You may ask him to buy or sell property for you. Or, his responsibility may be to negotiate an agreement for you with a third person.

## IT'S THE LAW IN TEXAS

A Public Service Feature of the State Bar of Texas

You may be liable despite the fact that you may have cautioned him to be extremely careful.

The average individual expects to answer for his own actions. He does not usually consider that he may be responsible for the actions of other persons. That, however, is frequently the case.

Suppose you ask another person to do something for you; that is, to act as your agent. You may pay him or he may be doing it without compensation.

You may ask him to buy or sell property for you. Or, his responsibility may be to negotiate an agreement for you with a third person.

If representations or warranties are made by your agent in performing the task which you assigned to him, you are responsible.

In a like manner, you are responsible for the contract made by him while he was acting for you.

You may be held responsible for the acts of a person who customarily represents you even though he entered into a contract for you without your consent or approval.

For example, you may have a partner in a business, and you and he have agreed that certain contracts shall be made only upon the signature of both of you.

Unknown to you and without your consent, your partner signs such a contract with a third person involving a partnership business.

If the person with whom this contract is made has no knowledge of the terms of your partnership agreement, you are responsible for the contract which your partner has made.

You may have agreed between you that neither of you would buy without the other's consent any items of merchandise costing more than \$50 total. You did not give this information to salesmen who called on you. In your absence on a Thursday afternoon your partner ordered merchandise for your store costing more than the \$50 limit.

When the merchandise is delivered, you can not refuse to accept it because you can be bound by the contract of your partner. This is true in many situations, and the salesman is not bound by your partnership agreement because you did not advise him of the \$50 limitation.

As the actions of your agent are considered to be your actions, you assume the responsibility of his doing them correctly.

## Supt. Cook Named to Administrators' Post

C. F. Cook, superintendent of Hamlin Schools, recently has been named chairman of the bi-district Texas Association of School Administrators workshop section.

He will help direct a program of guidance, physical education, reading, science, mathematics, school finances and pupil differences for the association in the region.

ness. If the person with whom this contract is made has no knowledge of the terms of your partnership agreement, you are responsible for the contract which your partner has made.

You may have agreed between you that neither of you would buy without the other's consent any items of merchandise costing more than \$50 total. You did not give this information to salesmen who called on you. In your absence on a Thursday afternoon your partner ordered merchandise for your store costing more than the \$50 limit.

When the merchandise is delivered, you can not refuse to accept it because you can be bound by the contract of your partner. This is true in many situations, and the salesman is not bound by your partnership agreement because you did not advise him of the \$50 limitation.

TEXAS CRUDE OIL PRODUCTION came from 194 counties during the 1956 fiscal year, according to this map by the Texas Mid-Continent Oil & Gas Association. Four counties produced gas only. Lipscomb County in the northeastern Panhandle broke into the production column for the first time, while Edwards County in Southwest Texas dropped out. Culberson County in far West Texas resumed production during the fiscal year after a year's absence. The Hamlin area is well represented in production.

## Winter Peas and Vetch Planted Among Other Crops Will Help Enrich Soil

Farmers have an excellent opportunity to plant winter peas or vetch for soil improvement and cover in the blank rows in cotton and on maize and wheat fields that are not to be planted to wheat this fall, say officials of the Soil Conservation Service. Soil bank land also provides a good place for planting winter cover crops.

A vegetative cover on the land not only protects the soil surface from wind and water erosion, but the millions of small roots provide channels for water to enter the soil, states E. L. Cowger, soil conservationist, assisting the California Creek Soil Conservation District. The vegetative material, both on the surface and in the soil, also furnishes food for the small organisms that are necessary to give the soil real life.

## Further Declines in Total Sunday School Attendance Recorded

Further decline in total attendance at Sunday Schools of the 13 reporting Hamlin churches was recorded Sunday. The 1,211 total was 33 less than the previous week and 144 below the year ago total.

Attendance, by churches, for October 13, October 6 and a year ago follows:

Churches—	Oct. 13	Oct. 6	Year Ago
Church of Christ.....	174	144	167
Assembly of God.....	40	40	50
United Pentecostal.....	19	19	16
Oak Gr. Col. Baptist.....	34	49	42
Sunset Baptist.....	53	53	45
Calvary Baptist.....	42	44	54
Foursquare Gospel.....	48	52	51
Faith Methodist.....	33	52	51
First Methodist.....	184	203	264
Mexican Baptist.....	43	45	49
First Baptist.....	381	387	403
No. Cen. Baptist.....	78	82	100
Ch. of Nazarene.....	82	86	83

Rates of seeding Austrian winter peas are suggested as follows: Eight to 10 pounds per acre in rows; 20 to 30 pounds per acre drilled alone; 15 to 20 pounds per acre drilled with small grain. Time of seeding, September 1 to November 1.

Rates of seeding vetch: Three to seven pounds per acre in rows; 15 to 25 pounds per acre drilled alone; 10 to 15 pounds per acre drilled with small grain. Time of planting, September 1 to December 1.

THE WONDROUS YEARS OF OUR TIME...

Man's use of petroleum — of oil and natural gas — began before the first records of history. But petroleum's full usefulness to man has been a matter of decades only.

They have been wondrous years, those decades. Years that saw automobiles built by the millions because gasoline was available as a cheap source of power. Years that saw the oceans dwindle under the high speed of great ships powered by oil. Years that saw the evolution of a more comfortable living in homes warmed by oil and natural gas. Years that saw rubber, fibers, paints and many other useful items of everyday living produced from petroleum's hydrocarbons. Years that saw the earth shrink under the wings of the airplane, and great wars decided by the availability of oil.

Thus, the oil industry has led the way into the wondrous years of our time. The industry, through foresight, ingenuity, research, and risk-taking, has found and produced the oil required in greater quantity each year, has conserved

oil for the future, has devised the transportation systems that move oil economically, has built the refineries and plants that convert crude oil and natural gas to the hundreds of useful products needed by a growing United States.

The Humble Company, founded in 1917, has participated in petroleum's progress during four great decades, and has pioneered in the development of many current techniques for finding, producing and refining oil. This week, with the industry, Humble invites you to consider the variety and extent of oil's progress. . . Surely no other industry has contributed more to the making of modern America.

## District 17 Meet of Baptists Slated at Eastland Church

Several Hamlin area Baptists will be among attendants at the annual convention of District 17 of the Baptist General Convention of Texas which convenes at the First Baptist Church at Eastland Thursday and Friday of this week. Presiding officer will be Rev. Harvey Kimbler, president and host pastor.

The convention includes over 165 churches numbering 53,000 members in a 12-county area including Taylor, Nolan, Callahan, Eastland, Fisher, Jones, Shackelford, Stephens, Kent, Stonewall, Haskell and Knox. The first session will begin at 7:00 p. m. on Thursday (this evening).

The two days will be given to business and inspiration. Reports of accomplishments of the past year and plans for the future will be presented in each area of Baptist life. The theme, "Looking Ahead," will be featured.

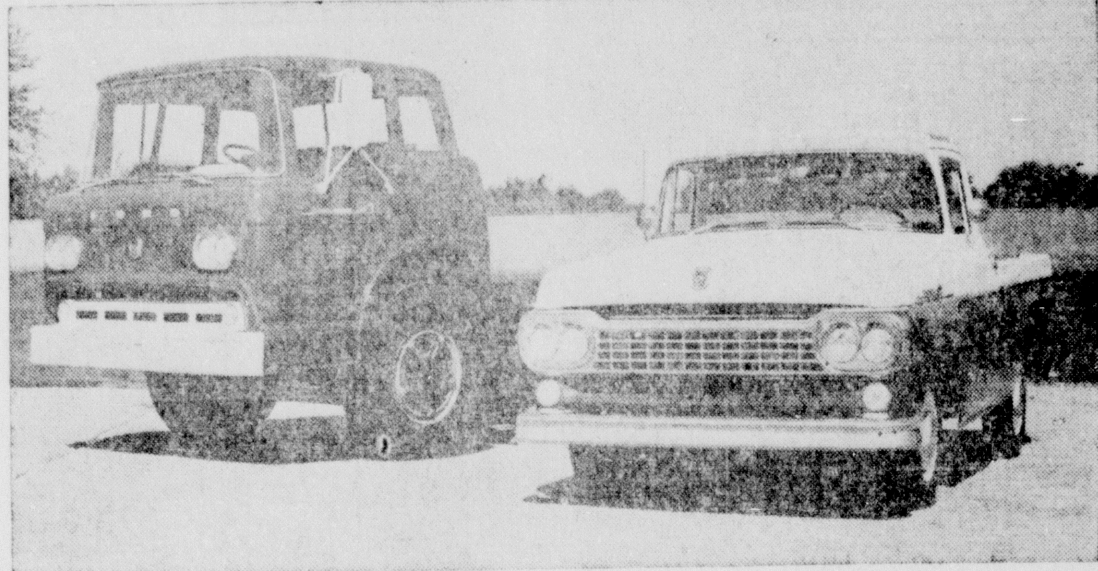

Officers bringing reports and presenting plans include: Training Union director, Mrs. W. T. Gambill of Stamford; Sunday School superintendent, M. D. Rexrode of Haskell; Brotherhood president, Clifford Leddy of Abilene; Leagues Encampment president, Byron Bryant of Breckenridge; W. M. U. president, Mrs. George Graham of Abilene; District missions secretary, L. L. Trott of Abilene; evangelism chairman, C. G. Sewell of Merkel.

Rev. Kimbler is a native of Hamlin, having attended grade and high school in Hamlin. He moved to Abilene in 1938.

## Freight Carloadings For Santa Fe Decline

Freight carloadings for the Santa Fe Railway System for the week ending October 5, 1957, were 24,217 compared with 23,886 for the same week in 1956, reflecting a decline of 331 cars a year ago. Cars moved from connections totaled 11,575 compared with 13,678 for the same week in 1956, also a decline.

Total cars moved were 35,712 compared with 40,564 for the same week in 1956. Santa Fe handled a total of 34,045 cars in the preceding week this year.

FORD TRUCKS which led the industry in retail sales for 1957 will offer in 1958 the widest coverage of any manufacturer in the volume truck market. The wide range of utility and work capacity is demonstrated by the powerful tilt-cab (left) and the spectacularly successful Styleside pick-up. Mechanical and design advances include new grilles and safety dual headlights, customized interiors and modern styling, and increased horsepower and payload capacity in many models. The new models are on display at Hamlin Motor Company.

## Proper Eating Habits Go Long Way in Helping Build Defense for Illnesses

Your general state of health can be a first line of defense against illness, particularly now that the season of infectious diseases is here, Hamlin area people are reminded this week by Dr. Henry A. Holle, commissioner of the Texas State Department of Health.

Resistance to complications of colds, "flu" and other illnesses is influenced by how you eat, sleep, exercise and relax before you get sick.

Food means different things to different people, but the net effect is the same: Food not only supplies energy to the human machine but also provides building materials to renew body tissues.

Good nutrition is largely a matter of getting enough of the right foods. And since this is true, it is a good idea to take a look at your eating habits. Your regular diet should be built around:

A daily serving of meat or fish, about four eggs a week, some cheese, at least two glasses of milk daily, two daily servings of raw or slightly cooked green or yellow vegetables, two servings of fruit, and some potatoes, bread or other grain products.

Desserts, candy and beverages such as soft drinks and coffee are not essentials, but they are sometimes pleasant additions.

Other items in your diet can be as extensive or as limited as you wish, provided you watch for "spoon-in-the-mouth diseases" that lead to overweight.

One fact about food that cannot be over-emphasized is the value of a good breakfast. And a coffee break isn't breakfast. Many people find the demands of their job in home or office takes so much out of them they feel all used up at the end of the day. This is apt to be literally true,

especially if breakfast has been bypassed.

Many times an "all gone" feeling in the late morning comes about like this: When you get up in the morning you've been without food for a good many hours. Yet you may not experience a feeling of hunger. You seem to get along for a few hours on a sub-standard breakfast, but about 11:00 o'clock you can't wait for lunch. Errors in your work are most apt to happen at this time.

To forestall fatigue, to reduce errors, to assure yourself of a steady level of health, fortify yourself with a sure combination—a good night of sleep and a really basic breakfast, such as fruit, toast, eggs, cereal and milk. If you can't eat breakfast through lack of appetite, start now to cultivate the habit of a good morning meal and soon you'll find you can't do without it.

Remember, too, as you review your eating habits to take a look at your ways of eating as well. The relaxed, pleasant meal . . . tempting and colorful dishes . . . quiet conversation are all tools for better health.

### IT WAS GOOD TRY.

During a geography class the teacher asked: "Willie, can you name the principal river of Egypt?"

"It's the Nile, ma'am," Willie said.

"That's right. Now can you tell me the names of some of the smaller tributaries?"

Willie hesitated, then smiled. "The juveniles!"

### A LITTLE OVERSIZE.

Mr. X—"Why didn't you tell me we were buying chandeliers?"

Mrs. X—"Don't be silly—those are my new ear-rings."

## First Baptist WMS Groups Meet in Circles for Study

Members of the Woman's Missionary Society of the First Baptist Church met in circles Monday afternoon for Bible study. The lesson was from the book, "Soul Winning Experiences in the Bible." Subject of the lesson was "The Jewish Maid."

The Littleton Circle met with Mrs. A. H. Trotter. Mrs. Bowen Pope taught the lesson. Those present were Mmes. Bowen Pope, S. C. Ferguson Sr., L. A. Joiner, L. E. Prewitt and the hostess.

The Locket Circle met with Mrs. W. A. Albritton. Mrs. W. V. Walton taught the lesson. Those present were Mmes. James Fitzgerald, W. S. Graham, Tom Routh, Bill Shira, A. Spencer, W. V. Walton, Aaron Wells and the hostess. Mrs. Labrand was a visitor.

The Lois Glass Circle met with Mrs. Charles Lovell. Mrs. LaFoy Patterson taught the lesson. Those present were Mmes. I. D. Miller, LaFoy Patterson, E. B. Watson, Edgar Duncan, Neil Laminack, and the hostess.

The Mae Davis Circle met with Mrs. Cecil Sellers. Mrs. J. C. Greenway taught the lesson. Attendees were Mmes. J. C. Greenway, A. F. Dixon, Johnnie Hines, Esther Carmichael, R. C. Ritchey, H. S. Stovall, Jack Collins and the hostess.

The Nannie David Circle met with Mrs. Charlie Abbott. Mrs. L. B. Shelburne taught the lesson. Those present were Mmes. Orbie Fannin, Clyde Grace, Vernon Sharer, Mattie Bruner, W. L. Boyd, L. B. Shelburne, Bill Harbert and the hostess.

## Fashion Designers Call for Stockings in Colors for This Fall

This fall fashion designers are talking a lot about the "one color" look. This means everything should be the same color—hat, dress, handbag, gloves, shoes—even the stockings.

To stocking manufacturers, who have been trying for years to find a way to persuade women to buy a wardrobe of stockings, this is great news.

Further to-do about shorter skirts pleases the hosiery makers even more. If women are going to be showing more leg, and if the leg must match the dress, the inevitable result is that women are going to be buying a lot more stockings.

So this fall you'll be seeing nylons in every color of the rainbow. For daytime wear the colors are discreet, giving just a hint of tint on the leg. But for evening wear brilliant jewel-toned stockings are going to be all over the place—with shoes to match. Colors available at present include ruby, sapphire, emerald, amethyst, garnet and topaz. And there are even iridescent stockings in pastel or deep toned changeable colors.

Most popular for daytime wear will be the fur colors, to match the important fur accessories of the season. The tones, in soft beiges, browns and taupes, have fur names: Golden sable, honey sable, red fox, nutria, mink, black mink and—for an iridescent stocking—leopard.

Excalibur was the name of the famous mystic sword of King Arthur.

## Bus Drivers to Be Presented Awards For Safe Driving

J. O. Musick, general manager of the Texas Safety Association, announced this week that TSA will again present safety certificates to school bus drivers who hold an accident-free record for the 1956-57 school year.

"One of the primary purposes of a public safety organization is to recognize the safety accomplishments of our citizens," Musick explained.

"The school bus drivers in Texas have one of the finest safe driving records of any state. Thus, it seems in order to show public appreciation for the efficient and safe manner in which they completed their tasks during the past year," Musick concluded.

Texas operates more than 8,000 school buses that average a half million miles of driving each day. Records of TSA show less than 300 school bus accidents were recorded last year.

Musick said the safe driving awards will be mailed to school superintendents within the next Hamlin will be eligible for the certificates in most cases will be made during a school's general assembly. Several bus drivers at Hamlin will be eligible for the awards.

## Greenhands Initiated By FFA Group at Monday Gathering

Twenty new Greenhands were initiated into the chapter when the Hamlin Future Farmers of America unit met last Monday night at the vocational agriculture building.

The Greenhands are Bob Murff, David Bonds, Craig Hester, Clyde Hodnett, George Deel, John Ed Scott, Henry O'Neal, Wesley Cummings, Peanut Boatwright, Jody Ford, Melburn Crawford, Norman Cranford, Ray Johnson, Gerald McCanlies, Cecil Robinson, Bobby Ellison, Robert Rangel, Rowland Rivera, Phil Smith and Gary Williams.

The 45 members present also nominated the FFA sweetheart for the 1957-58 school year. The girl who won this honor will be announced later. The meeting was closed with the regular closing ceremony.

TEXAS HANDICAPPED PERSON OF THE YEAR—Barney Capshaw (left) was presented the Texas Handicapped Person of the Year award by Governor Price Daniel at Austin. Capshaw, of Fort Worth, lost a leg 10 years ago in a head-on collision between two locomotives.

## Land Commissioner Says Market for Land Type Bond Improves

Land Commissioner Earl Rudder noted at Austin Friday that the bond market seems to be growing more favorable for the sale of some part of \$100,000,000 of veterans' land bonds. Several Hamlin area veterans have been interested in buying lands through the program when it can be financed.

The bonds were offered for sale in May by the Veterans' Land Board. No bids were received.

"The average interest rate on bonds of our type was 3.50 per cent this week," Commissioner Rudder said. "The market has got to go down a long way yet," he added. The average interest rate on the market was 3.57 per cent several weeks ago.

The state constitution says the Veterans' Land Board can pay no more than three per cent interest on its bonds.

"One of two things must happen before we can sell our bonds," Commissioner Rudder said: 1. The constitution must be amended so that more interest can be paid; or 2. Bond market interest rates must drop considerably."

What this world needs is theories that are non-explosive.

### ALL AIRED OUT.

"You know women's minds are cleaner than men's."  
"They should be; they're changed more often."

"I'm cooking dinner with my CLEAN, AUTOMATIC Electric RANGE"

Be Happy! Live Better—Electrically

and nothing is as COOL, FAST and SAFE as Electric Cooking—

As this modern kitchen clearly shows, today's trend is to electricity. And perhaps the best example of this is the electric range. Smart looking, convenient. Insulated on all 6 sides (as are all electric ovens) you get even, steady heat for baking and roasting. No guesswork with electric surface units either. The heat you set is yours automatically every time. And the heat goes directly into the bottom of the pan, not up the sides and into your kitchen.

But the thing you'll appreciate most is the way your electric range stays modern—year after year.
